The Market Photo Workshop in South Africa and the 'Born Free' Generation Julie Bonzon,2023-09-15 This study presents the history of the Market Photo Workshop (MPW) in Johannesburg and works produced by its new generation of photography students. Founded in 1989 by internationally renowned documentary photographer David Goldblatt, the MPW has reflected upon South African political struggles and sociocultural changes since its creation. Its foundation parallels a moment in time when photography was considered a 'truth telling' genre and an essential source of documents deployed against the apartheid regime. This book reflects on the evolution of the MPW in the post-apartheid era and explores how its new generation of students engages the photographic tradition of this institution and the revolutionary times that accompanied its creation to question their present moment. The book will be of interest to scholars working in art history, visual studies, photography, African studies, cultural studies and post-colonial studies.

The Eden Project (Free Post-Apocalyptic) DP Fitzsimons,2017-08-02 The world had fallen. The mostly vacant cities were silent now. For those who had not been turned or consumed, remote locations proved the best chance to live a while longer before the inevitable end landed its teeth marks on their flesh or its disease in their blood. To eat or be eaten was the last imperative of the once noble species. All the accoutrements of being the most civilized of creatures had faded away and the human beast had been returned to the savagery of the primordial forest. This was the truth everywhere in the world, except one place—a small island, forgotten before and after the fall, a place where the sun yet shined down onto hopeful souls, 117 souls, the children of the Eden Project, who lived all their days until now in a great, glass dome. They were the children of light, pure blooded, uninfected, but they all knew (down to the smallest among them) that these hours of eternal incandescence were numbered. They all knew, every moment they breathed, that their destinies awaited them outside the glass, where darkness forever reigned. NIGHT WITHOUT END (Book Two of The Eden Project) now available

Forensic Photography Nick Marsh,2014-11-17 Forensic photography plays a vitally important part in the investigation of crime and the subsequent administration of justice. Written by a practitioner with many years professional experience, this book provides an overview of the most common forensic photography techniques in use today for those readers who may not have a detailed understanding of camera techniques and who need to get to grips with the use of light and other key scientific aspects of the job. It covers image capture issues, file handling and relevant equipment, such as lasers and UV lights, and explores how they work. The predominance of the digital camera has resulted in an increasing trend for police forces across the world to use untrained camera users, rather than expert photographers. Therefore, this book will prove invaluable for those practitioners who need to produce accurate and clear photographic evidence, above and beyond the point and shoot mode on

their cameras.
