Money Making Apps K. C. Maynard,2014-07-18 If you plan to develop a mobile app, but you want to be sure it will be a success before you spend any time (or money) programming, then this book is for you!In all major app markets, the biggest problem is to find the best app for the user's needs. Google, Apple, Microsoft, Amazon, etc. all have algorithms in place to ensure that the user gets the best app a user is searching for. The problem is that it's often only the most popular apps that are downloaded, while the others are left to rot in oblivion. Another problem is that many of the apps downloaded, 20% to be exact, are used only once. This makes it even worse for developers who use a freemium model (free download, in-app purchases) for their apps. The question is then asked: how can developers ensure that they make quality apps, plus retain their users in order to make money? That's where this book comes in. I am going to help you consider all the things that you'll need to do to make sure your app is successful, even before you waste any time or money programming.

Mastering Apps Adidas Wilson,2017-08-14 Communication technologies are constantly advancing to keep up with the times. Messaging apps are huge right now. Completely overtaking social media by becoming the primary way we communicate online. When most entrepreneurs are starting out, they like to read articles on "how to make a killing with your first app," "building the multi-billion dollar app" and most books related to this topic. They are glued to this side of the story and blinded to the other. To have your own success story you have to find out why other apps fail. The painful truth is there are more failed apps than successful ones. Introduction 1. Monetize Messaging Apps 2. Cash and Credit Apps 3. Cash Flow 4. Monetize Photo's 5. How to reap the rewards while technology works for you Vicente Ribeiro G. Jr. - Osmar André V.,2016-01-14 Enjoy the rewards while technology works for you! The title of this E-book may appear misleading to some people but it is possible to make clever use of technology to mint money for you while you enjoy the fruits of life. Who doesn't want to go on a vacation that never ends? But working 9-5 in an office for your boss or running your own small business will never leave you enough time and money to live life king size. If you want to live life on your own terms, invest your time and money in something that starts to generate a steady stream of income for the rest of your life. No, I am not asking you to waste your time and money on MLM (Multi Level Marketing) business schemes or internet marketing business. There is one business that requires little investment in terms of time and money but it is so lucrative that it can keep on pouring money in your bank account for a long time to come. Have you ever thought of mobile apps as a business? Billions of kids, men, and women across the world are today downloading and using different types of apps in their smartphones and using them for information and entertainment. From apps that give information about weather and time to apps helping people to earn money by connecting to stock market software, mobile apps have engulfed and invaded our lives. If you see around you, you will find people busy with one app or another on their smartphones. They may be listening to music or chatting with their friends but the fact is that these apps have become an integral part of the lives of most people in modern times. If television occupied an important place in the lives of people a

decade ago, that place has been usurped by these mobile apps these days. There are no less than 21 billion mobile apps that have been downloaded by people around the world on just two platforms namely Apple and Android. This number means roughly 3 apps per person.
