Spencer C. Tucker

Painting the Map Red Carman Miller, 1998 A detailed account of Canadian involvement in South Africa's Anglo-Boer War and the impact it had on the country during the years 1899-1902 and beyond. Land of the Free Joe Krone, 2014-11-20 Land of the Free is the new set of wargaming rules from Osprey that allow players to recreate the various conflicts that broke out in North America shortly prior to and just after Independence, including the French and Indian Wars, the Revolution and the War of 1812. This set of rules lets players begin their campaigns with small warbands of 10-20 miniatures of any scale and develop their forces over time, building them into armies hundreds strong. A unique system of command points and the need to carefully manage resources or risk becoming vulnerable to counter-attack have to be finely balanced against the need to gain objectives throughout the game, creating a challenging, but enjoyable environment for your armies.

The Encyclopedia of the War of 1812 [3 volumes] Spencer C. Tucker, 2012-04-25 This work is the most comprehensive reference work on the War of 1812 yet published, offering a multidisciplinary treatment of course, causes, effects, and specific details of the War that provides both quick reference and in-depth analysis for readers from the high school level to scholars in the field. The Encyclopedia of the War of 1812: A Political, Social, and Military History dedicates 872 entries—totaling some 600,000 words—to this important American war. It is the most comprehensive and significant reference work available on the subject. Its entries spotlight

the key battles, standout individuals, essential weapons, and social, political, and economic developments, and examine the wider, concurrent European developments which directly affected this conflict in North America. A volume of primary documents provides more avenues for research. This three-volume work offers comprehensive, in-depth information in a format that lends itself to quick and easy use, making it ideal for high school, college, and university-level learners as well as general learning annexes and military libraries. Scholars of the period and students of American military history will find it essential reading.

Painted Journeys Peter H. Hassrick, Mindy N. Besaw, 2015-07 Artist-explorer John Mix Stanley (1814-1872), one of the most celebrated chroniclers of the American West in his time, was in a sense a victim of his own success. So highly regarded was his work that more than two hundred of his paintings were held at the Smithsonian Institution—where in 1865 a fire destroyed all but seven of them. This volume, featuring a comprehensive collection of Stanley's extant art, reproduced in full color, offers an opportunity—and ample reason—to rediscover the remarkable accomplishments of this outsize figure of nineteenth-century American culture. Originally from New York State, Stanley journeyed west in 1842 to paint Indian life. During the U.S.-Mexican War, he joined a frontier military expedition and traveled from Santa Fe to California, producing sketches and paintings of the campaign along the way—work that helped secure his fame in the following decades. He was also appointed chief artist for Isaac Stevens's survey of the 48th parallel for a

proposed transcontinental railroad. The essays in this volume, by noted scholars of American art, document and reflect on Stanley's life and work from every angle. The authors consider the artist's experience on government expeditions; his solo tours among the Oregon settlers and western and Plains Indians; and his career in Washington and search for government patronage, as well as his individual works. With contributions by Emily C. Burns, Scott Manning Stevens, Lisa Strong, Melissa Speidel, Jacquelyn Sparks, and Emily C. Wilson, the essays in this volume convey the full scope of John Mix Stanley's artistic accomplishment and document the unfolding of that uniquely American vision throughout the artist's colorful life. Together they restore Stanley to his rightful place in the panorama of nineteenth-century American life and art.

The Painting Fk Wallace, Fiona K. Wallace, 2010 Stefan, a naive young Pole, meets Gunter, an artist in 1930s Berlin. Their passionate love affair is overshadowed by the rise of the Third Reich. Denounced to the Nazis, they are sent to Auschwitz as pink triangle prisoners. Some things even love cannot withstand. Forty years later Stefan returns to Poland with one question: when you have nothing left, how can you prove love ever existed? Berlin, 1936: optimism fades and the freedoms of the Weimar Republic are little more than a memory, yet the inhabitants of the city blind themselves to the approaching disaster. The Painting is a story of love, of survival, of a life lived at the mercy of one of the most terrible events of the last century.
