Legendary Locals of Moline David T. Coopman,2016 David Benton Sears could be considered the father of Moline, Illinois. It was upon his land that Moline was platted in 1843. It was because of his brush dam on the Mississippi River between the Moline shore and Rock Island--known today as Arsenal Island--that significant industry began to develop. Grain and lumber mills were the first, but farm implement and related factories soon found prominence after John Deere moved his plow-making business here in 1848. It would not be long before immigrants, particularly the Swedish, Belgian, and German, were drawn to Moline for the jobs and opportunities and added to the growing and prosperous population. *Legendary Locals of Moline* tells the known and not-so-well-known stories of many of the early and the more-recent individuals who have contributed to the fabric of the community, both locally and nationally. Historical and current photographs illustrate those who affected business and industry, culture, academia, public service, organizations and philanthropies, and sports and entertainment.

Democracy Inside Albert W. Dzur,2018-11-15 In our current era of deep distrust in our politics and political institutions, there is also a pervasive sense that social problems are so overwhelmingly complex that it is virtually impossible to solve them. In *Democracy Inside*, Albert W. Dzur looks at recent instances of effective citizen action across the United States to develop a grounded political theory of democratic change, one in which citizens effectively engage with institutions. Drawing on qualitative interviews with practitioners involved in democratic schools, restorative and community justice, and collaborative city governance, Dzur stresses that we need to turn to ordinary, daily life and focus on how democratic professionals are breaking down barriers and bring people into decision-making processes at the granular level. These reformers are not transforming high politics or national-scale institutions, but they have been effective at changing the routine, everyday practices where people live and work. As *Democracy Inside* shows, if we really want to expand the democracy and build citizen engagement intensity in American life, we need to look beyond traditional politics and transform our classrooms, courtrooms, and offices into accessible civic spaces.

Medicine and Justice Katherine D. Watson,2019-12-06 This monograph makes a major new contribution to the historiography of criminal justice in England and Wales by focusing on the intersection of the history of law and crime with medical history. It does this through the lens provided by one group of historical actors, medical professionals who gave evidence in criminal proceedings. They are the means of illuminating the developing methods and personnel associated with investigating and prosecuting crime in the eighteenth and nineteenth centuries, when two linchpins of modern society, centralised policing and the adversarial criminal trial, emerged and matured. The book is devoted to two central questions: what did medical practitioners contribute to the investigation of serious violent crime in the period 1700 to 1914, and what impact did this have on the process of criminal justice? Drawing on the details of 2,600 cases of infanticide, murder and rape which occurred in central England, Wales and London, the book offers a comparative long-term perspective on medico-legal practice – that is, what doctors actually did when they were faced with a body that had become the object of a criminal investigation. It argues that medico-legal work developed in tandem with and was shaped by the needs of two evolving processes: pre-trial investigative procedures dominated successively by coroners, magistrates and the police; and criminal trials in which lawyers moved from the periphery to the centre of courtroom proceedings. In bringing together for the first time four groups of specialists – doctors, coroners, lawyers and police officers – this study offers a new interpretation of the processes that shaped the modern criminal justice system.

The Edge of Change June O. Nicholson,Pamela J. Creedon,Wanda S. Lloyd,Pamela J. Johnson,2023-12-11 Containing nearly three dozen original essays penned by the nation's leading newspaper journalists, editors, and executives, this book advances current discussions regarding women in journalism. Surveying the past quarter century, the book's contributors highlight the unprecedented influence American women have had on the news industry, especially newspapers, and look ahead to the future for women in news. Acclaimed anthropologist and author Helen E. Fisher adds her perspective in examining the role of women across millennia and how the talents of women are changing social and economic life in this global age. Prominent female voices in journalism provide critical perspectives on the challenges women face in today's news organizations, such as connecting with diverse audiences, educating readers about international issues and cultures, maintaining credibility, negotiating media consolidation and corporate pressures, and overcoming the persistent barriers to professional advancement. A powerful and complex assessment of how women are transforming the news industry, *The Edge of Change* explores how the news industry might implement further reforms aimed at creating a more inclusive journalistic community. Contributors are Catalina Camia, Kathleen Carroll, Pamela J. Creedon, Paula Lynn Ellis, Helen E. Fisher, Dorothy Butler Gilliam, Ellen Goodman, Sharon Grigsby, Carol Guzy, Kirsten Scharnberg Hampton, Cathy Henkel, Pamela J. Johnson, Jane Kirtley, Jan Leach, Caroline Little, Wanda S. Lloyd, Arlene Notoro Morgan, June O. Nicholson, Geneva Overholser, Marty Petty, Deb Price, Donna M. Reed, Sandra Mims Rowe, Peggy Simpson, Margaret Sullivan, Julia Wallace, and Keven Ann Willey.

Personalized Learning Denise Wolk,2003 When it comes to learning, is smaller really better? There is a growing body of evidence to support the notion that smaller, more personalized schools are better for both students and teachers. Bringing together the combined knowledge and experience of more than two dozen teachers, administrators, and researchers, this book provides a roadmap for educators embarking on the journey to create a more personalized environment for high school students. Features include: _ Highlights of current initiatives aimed at personalizing learning for high school students. _ Description of Personal Learning Plans that tie the learning to the talents and aspirations of the student. _ Exploration of classroom teaching that allows individuals to gain knowledge while pursuing their own hopes. _ Description of high school designs that engage students in democratic processes and systemic changes that must accompany and support personalized learning for all students. Written by practitioners with practical interest in moving high schools toward personalization, this book will excite others to initiate reforms that enable ALL young adult learners to meet common standards while designing and pursuing a unique pathway toward adult roles. That's what personal learning and this book are all about.

Shorecliff Ursula DeYoung, 2013-07-23 A winning debut novel about a 1920s New England family and the secrets revealed when they reunite over one long summer. Spending the summer of 1928 in a big house on the Maine coast with his 10 older cousins and a gaggle of aunts and uncles seems like a dream come true to lonely 13-year-old Richard. But as he wanders through the bustling house, Richard witnesses scenes and conversations not meant for him and watches as the family he adores disintegrates into a tangle of lust, jealousy, and betrayal. At first only an avid spectator, Richard soon finds himself drawn into the confusion, battling with his first experience of infatuation and forced to cover for his relatives' romantic intrigues. With jump-off-the-page characters and a captivating sense of place, SHORECLIFF examines the bonds of loyalty and rivalry that can both knit a family together and drive it apart.

Rights, Gender and Family Law Julie Wallbank,Shazia Choudhry,Jonathan Herring,2009-12-04 There has been a widespread resurgence of rights talk in social and legal discourses pertaining to the regulation of family life, as well as an increase in the use of rights in family law cases, in the UK, the US, Canada and Australia. Rights, Gender and Family Law addresses the implications of these developments – and, in particular, the impact of rights-based approaches upon the idea of welfare and its practical application. There are now many areas of family law in which rights and welfare based approaches have been forced together. But whilst, to many, they are premised upon different ethics – respectively, of justice and of care – for others, they can nevertheless be reconciled. In this respect, a central concern is the 'gender-blind' character of rights-based approaches, and the ontological and practical consequences of their employment in the gendered context of the family. Rights, Gender and Family Law explores the tensions between rights-based and welfare-based approaches: explaining their differences and connections; considering whether, if at all, they are reconcilable; and addressing the extent to which they can advantage or disadvantage the interests of women, children and men. It may be that rights-based discourses will dominate family law, at least in the way that social policy and legislation respond to calls of equality of rights between mothers and fathers. This collection, however, argues that rights cannot be given centre-stage without thinking through the ramifications for gendered power-relations, and the welfare of children. It will be of interest to researchers and scholars working in the fields of family law, gender studies and social welfare.
