The following are the ten facts about pandas:
A panda's hand has six digits as five fingers as well as an opposable thumb
There are less than 10 million pandas in the world. Pandas are found mostly in mountain ranges in central Shaanxi, China's Sichuan, and Gansu provinces. Pandas inhabit mostly mountain forests, which are dense with conifers and bamboo. Due to their ineffective intestinal system, the giant pandas have to feed for approximately 15 hours each day, with bamboo making 99 % of their diet. Giant pandas are among the few bear species that do not hibernate. This is because it cannot store adequate fat from its diet.

Pandas live at high altitudes of about 1,500 to 3,000M. Their thick and oily fur aids keep them warm. Male pandas are called as boars while females are sows. Pandas are solitary creatures At birth time an infant panda is about 1/900th its mother's body size. The panda is friendly to children compared to adults

Red Pandas For Kids Rachel Smith, John Davidson, 2016-03-22 Table of Contents Introduction What is a red panda? How do red pandas act? Where do red pandas live? What kinds of red pandas are there? The history of red pandas and humans The genetic debate Red pandas as pets Conclusion Introduction The red panda is probably one of the cutest creatures around, easily tying with the giant panda. But why are they both called pandas if they look so incredibly different? And what makes the red panda different from, say, a raccoon? Red pandas are unique animals all their own. They live in Asia, towards the East, and they have been a more recent favorite animal of many children and adults. Unlike its name-sibling the giant panda, the red panda receives less attention than many endangered animals. However, it is also one of the more common zoo animals, since red pandas do so well in zoos. What makes the red panda an animal worth knowing? There are a lot of answers to that question, and we will cover them in this book.

Red Panda Angela R. Glatston,2021-10-28 Red Panda: Biology and Conservation of the First Panda, Second Edition, provides the most up-to-date research, data, and conservation solutions for the red pandas, Ailurus species. Since the publication of the previous edition in 2010, the International Union for Conservation of Nature (IUCN) updated the threat level of red pandas, and they are now considered to be endangered. This latest edition is updated to provide an in-depth look at the scientific and conservation-based issues urgently facing the red panda today. Led by one of the world's leading authorities and advocates for red panda conservation, this new edition includes data from the Population and Habitat Viability (PHVA) workshops conducted in three of the species' range states, Nepal, China, and India; these workshops utilized firsthand information on the decrease of red

panda populations due to factors including deforestation, illegal pet trade, human population growth, and climate change. This book also includes updated information from the first edition on reproduction, anatomy, veterinary care, zoo management, and fossil history. Discusses the evidence for two species of red panda and how this might impact conservation efforts Reports on status in the wild, looks at conservation issues and considers the future of this unique species Written by long-standing red panda experts as well as those specializing in fields involving cutting-edge red panda research Includes new chapters on topic including the impact of climate change, how bamboo influences distribution, and conservation in Bhutan and Myanmar
