Parental Guidance Required Study Guide Andy Stanley, Reggie Joiner, 2011-07-27 As parents, we need to do everything we can to enhance our children's relationship with us, to influence their relationships with those outside the home, and most importantly, to advance their relationship with God. Designed for use in personal study or in small groups, The Parental Guidance Required DVD and study guide are practical resources that will help parents to ask themselves the important questions: Am I economizing my time with my child, or am I investing in my child by carefully developing the quality of our relationship over the long haul? Am I striving to control the influence that friends have in my child's life? Am I nurturing a healthy, eternal perspective that will help my child to weather the inevitable storms of life? DVD include 4 complete sermons and six group sessions that correspond to the companion study guide. Influencing Your Child's Future Of all the assignments God will give you during your time on earth, none may be more sacred than the task of raising your children. Parental Guidance Required Study Guide is designed to give you the counsel you need to help prepare your children for the future. Intended for use in personal study or in small groups, this six-session companion study guide to the Parental Guidance Required DVD is a practical resource that will encourage you to look at the relationships in your children's lives and ask the important questions: Am I developing a quality relationship with my child that will go the distance? Am I striving to control the influence that friends have in my child's life? Am I nurturing a healthy eternal perspective that will help my child to weather the storms of life? Asking the right questions is the key to helping you assess your family needs and ensure that the influence you have is one that will last a lifetime. Story Behind the Book In an effort to focus Multnomah's mission to equip the church and to make the bride more beautiful, the company developed a relationship with Andy Stanley and North Point Community Church to publish a selection of the church's resources and distribute them to a broader market. North Point is one of the most influential churches in the nation, and their teaching is already highly sought after. They have a voice for the 20- to 30-something generation. Reaching the church is a strategic goal of Multnomah, and we realize that the emerging generation needs resources that deliver truth in fresh, new ways. Andy's leadership will keep North Point on the edge for a long time to come.

Parental Guidance Recommended Louise Porter, 2014-10-17 This book for parents details how to guide children and adolescents. The approach is based on the belief that humans are not controlled by consequences (otherwise our prisons would be empty) but instead that we all act to meet our needs. This belief changes everything: it moves the focus from who has the power in a parenting relationship, to who has the need. And its core value is that adults and children have equal rights to get their needs met. Guidance aims to teach children to behave considerately - that is, to think about what happens to others when they act in a particular way. In contrast, rewards and punishments cause children to think about what happens to them when they perform a behaviour: will they get into trouble, get told off, be rewarded with extra computer time... and so on. Therefore, Parental Guidance Recommended teaches parents alternatives to rewards and punishments. The book also focuses on the three equally vital emotional needs of all children: how to give them a deep sense of their worth, to meet their need to belong, and to give children autonomy (or opportunities to be self-governing). When we use rewards and punishments to try to control those children who have a strong need for autonomy (whom I call 'spirited'), we get into a dance of escalating defiance and anger on the children's part and escalating coercion and anger on ours. Instead, the guidance approach involves listening to children, being assertive, solving problems collaboratively and supporting children to regain self-control when they have a meltdown. On the grounds that when a person is drowning, that is not the time to give swimming lessons, support involves saying very little but instead guiding children to soothe themselves. This book details these skills and offers suggestions for solving persistent behavioural difficulties in children and young people. It also reminds us to be compassionate towards ourselves as parents and as individuals, because we each have our own frailties and needs.

The Parent Survival Guide Theresa Kellam,2011-02-14 When parents turn to the parenting/self-help section of their local bookstore, they are looking for both practical guidance and a childrearing philosophy that resonates with them - an approach they can relate to and be comfortable implementing in their own household. In *The Parent Survival Guide: From Chaos to Harmony in Ten Weeks or Less*, Theresa Kellam presents a way to strengthen the relationship with the child that simultaneously promotes the parent's own emotional healing and wellness. Grounded in a research-supported therapeutic technique that uses structured play time as the catalyst for interpersonal connection and growth, Kellam's model is subtle in its simplicity. Through a series of guided exercises, Kellam gives parents the skills they need to begin to set aside special playtimes with their children, during which the most important part of the process is simply being there in a way that promotes healing, growth, and communication. The beauty of this approach is that in only 30 minutes, once a week, the results can be seen in only a few weeks. Features of the book include: Parent Survival Tip at the start of each chapter Original cartoon illustrations bring text to life Short but insightful workset questions bring focus to the program The Parent Survival Guide is structured over a series of 10 chapters, which can be read in conjunction with the 10-sessions of the CPRT workshops for those parents enrolled in a formal filial training program. But the material in the book is designed to be read and implemented by anyone. The author is not only a licensed psychologist and filial therapist, but she has also gone through the program with her own son and continues to rely on its principles within her family.

The Parent's Guide to Birdnesting Ann Gold Buscho,2020-09-01 Take coparenting to the next level and provide a stable environment for your children as you and your spouse begin tackling your separation or divorce. For parents who are separating and want to put their children first, birdnesting could be the interim custody solution you've been looking for. Instead of the children splitting their time being shuttled between mom and dad's separate homes, birdnesting allows the children to stay in the "nest" and instead, requires mom and dad to swap, allowing each parent to stay elsewhere when not with the children. Initially popularized by celebrities, this method of coparenting is now becoming more mainstream as a way to help ease children into a new family dynamic. Birdnesting takes work and commitment but with Dr. Ann Gold Buscho's guidance, you'll learn everything you need to know about this revolutionary method. In *The Parent's Guide to Birdnesting*, you will discover the pros and cons, the financial and interpersonal considerations, and if it's the right decision for you and your family.

Maybe He Just Likes You Barbara Dee,2019-10-01 A 2020 ALA Notable Children's Book A Washington Post Best Children's Book of 2019 Barbara Dee explores the subject of #MeToo for the middle grade audience in this heart-wrenching-and ultimately uplifting-novel about experiencing harassment and unwanted attention from classmates. For seventh-grader Mila, it starts with some boys giving her an unwanted hug on the school blacktop. A few days later, at recess, one of the boys (and fellow trumpet player) Callum tells Mila it's his birthday, and asks her for a "birthday hug." He's just being friendly, isn't he? And how can she say no? But Callum's hug lasts a few seconds too long, and feels...weird. According to her friend, Zara, Mila is being immature and overreacting. Doesn't she know what flirting looks like? But the boys don't leave Mila alone. On the bus. In the halls. During band practice-the one place Mila could always escape. It doesn't feel like flirting-so what is it? Thanks to a chance meeting, Mila begins to find solace in a new place: karate class. Slowly, with the help of a fellow classmate, Mila learns how to stand her ground and how to respect others-and herself. From the author of *Everything I Know About You*, *Halfway Normal*, and *Star-Crossed* comes this timely story of a middle school girl standing up and finding her voice."

Parenting Matters National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on Supporting the Parents of Young Children,2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family-which includes all primary caregivers-are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These

include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.
