Conversion Katherine Howe,2015-06-16 A chilling mystery based on true events, from New York Times bestselling author Katherine Howe. It's senior year, and St. Joan's Academy is a pressure cooker. Grades, college applications, boys' texts: Through it all, Colleen Rowley and her friends keep it together. Until the school's queen bee suddenly falls into uncontrollable tics in the middle of class. The mystery illness spreads to the school's popular clique, then more students and symptoms follow: seizures, hair loss, violent coughing fits. St. Joan's buzzes with rumor; rumor erupts into full-blown panic. Everyone scrambles to find something, or someone, to blame. Pollution? Stress? Are the girls faking? Only Colleen—who's been reading *The Crucible* for extra credit—comes to realize what nobody else has: Danvers was once Salem Village, where another group of girls suffered from a similarly bizarre epidemic three centuries ago . . . Inspired by true events—from seventeenth-century colonial life to the halls of a modern-day high school—*Conversion* casts a spell. [Howe] has a gift for capturing the teenage mindset that nears the level of John Green.—USA Today ...this creepy, gripping novel is intimately real and layered, shedding light on the challenges teenage girls have faced throughout history.—The New York Times A chilling guessing game . . . that will leave readers thinking about the power (and powerlessness) of young women in the past and present alike.—Publishers Weekly, Starred Review

**Victorian Conversion Narratives and Reading Communities** Emily Walker Hady,2016-03-03 Because Victorian authors rarely discuss conversion experiences separately from the modes in which they are narrated, Emily Walker Hady argues that the conversion narrative became, in effect, a form of literary criticism. Literary conventions, in turn, served the reciprocal function as a means of discussing the nature of what Hady calls the 'heart-change.' Hady reads canonical authors such as John Henry Newman, Charles Dickens, Charlotte Brontë, George Eliot, and Oscar Wilde through a dual lens of literary history and post-liberal theology. As Hady shows, these authors question the ability of realism to contain the emotionally freighted and often jarring plot lines that characterize conversion. In so doing, they explore the limits of narrative form while also shedding light on the ways in which conversion narratives address and often disrupt the reading communities in which they occur.

**Conversion Narratives in Early Modern England** Abigail Shinn,2018-10-04 This book is a study of English conversion narratives between 1580 and 1660. Focusing on the formal, stylistic properties of these texts, it argues that there is a direct correspondence between the spiritual and rhetorical turn. Furthermore, by focusing on a comparatively early period in the history of the conversion narrative the book charts for the first time writers' experimentation and engagement with rhetorical theory before the genre's relative stabilization in the 1650s. A cross confessional study analyzing work by both Protestant and Catholic writers, this book explores conversion's relationship with reading; the links between conversion, eloquence, translation and trope; the conflation of spiritual movement with literal travel; and the use of the body as a site for spiritual knowledge and proof.

Household Conversion Narratives in Acts David Matson,1996-02-01 Using features of the narrative-critical method, this book offers an innovative approach to a notable phenomenon in the book of Acts: the conversion of entire households to the Christian faith. When viewed against the household mission of the seventy(-two) messengers in Luke, the stories of Cornelius, Lydia, the Roman jailer and Crispus comprise a pattern of evangelistic activity that provides a common framework for their interpretation. Repetition and variation of the pattern offer important clues for the way each story functions within the wider context of Acts, opening up new lines of interpretation as well as new levels of unity/disunity between the Lukan writings.

*Reason and Conversion in Kierkegaard and the German Idealists* Ryan S. Kemp,Christopher Iacovetti,2020-05-10 In his late work *Religion within the Boundaries of Mere Reason*, Immanuel Kant struggles to answer a straightforward, yet surprisingly difficult, question: how is radical conversion—a complete reorientation of a person's most deeply held values—possible? In this book, Ryan S. Kemp and Christopher Iacovetti examine how this question gets taken up by Kant's philosophical heirs: Schelling, Fichte, Hegel and Kierkegaard. More than simply developing a novel account of each thinker's position, Kemp and Iacovetti trace how each philosopher formulates his theory in response to tensions in preceding views, culminating in Kierkegaard's claim that radical conversion lies outside a person's control. Kemp and Iacovetti close by examining some of the moral-psychological implications of Kierkegaard's account, particularly the question of how someone might responsibly relate to values that have, by their own admission, been acquired in contingent and accidental fashion.

*The Drama of Serial Conversion in Early Modern England* Holly Crawford Pickett,2024-03-12 In *The Drama of Serial Conversion in Early Modern England*, Holly Crawford Pickett reconceptualizes early modern religious identity by exploring the astonishing stories of serial converts: historical figures such as William Alabaster, Kenelm Digby, William Chillingworth, and Marc Antonio De Dominis, along with fictional ones, who changed their religious affiliations between Catholicism and Protestantism multiple times. Pickett argues that serial converts both reveal and helped revise early modern understandings of the self. Through investigation of the techniques that serial converts used to stage and justify their conversions, Pickett demonstrates the performative nature of the act of conversion itself, offering a counternarrative to the paradigm of sincere, private conversion that was on the rise in the tumultuous years following the Reformation. Drawing from archival investigation into the lives and works of serial converts and performance studies theory, this book shows how the genres and conventions associated with conversion shaped not only forms of communication but also the very experience of conversion. By juxtaposing plays about serial conversion—by Thomas Dekker and Philip Massinger, Thomas Middleton, Elizabeth Cary, Ben Jonson, and William Shakespeare—with spiritual autobiographies, Pickett highlights the shared task of convert and playwright: performing conversion for an audience. Serial converts served as uncomfortable reminders to their contemporaries that religious identity is always unverifiable. The first study to explore serial conversion as a discrete phenomenon in this era, *The Drama of Serial Conversion in Early Modern England* challenges confessional divisions within much early modern historiography by analyzing the surprising convergence of Protestant and Catholic in the figure of the serial convert. It also reveals a neglected strain of religious discourse in early modern England that valued mutability and flexibility even in the midst of hardening and increasingly narrow understandings of conversion.

**Conversion and Narrative** Ryan Szpiech,2012-10-29 In 1322, a Jewish doctor named Abner entered a synagogue in the Castilian city of Burgos and began to weep in prayer. Falling asleep, he dreamed of a great man who urged him to awaken from his slumber. Shortly thereafter, he converted to Christianity and wrote a number of works attacking his old faith. Abner tells the story in fantastic detail in the opening to his Hebrew-

language but anti-Jewish polemical treatise, Teacher of Righteousness. In the religiously plural context of the medieval Western Mediterranean, religious conversion played an important role as a marker of social boundaries and individual identity. The writers of medieval religious polemics such as Teacher of Righteousness often began by giving a brief, first-person account of the rejection of their old faith and their embrace of the new. In such accounts, Ryan Szpiech argues, the narrative form plays an important role in dramatizing the transition from infidelity to faith. Szpiech draws on a wide body of sources from Christian, Jewish, and Muslim polemics to investigate the place of narrative in the representation of conversion. Making a firm distinction between stories told about conversion and the experience of religious change, his book is not a history of conversion itself but a comparative study of how and why it was presented in narrative form within the context of religious disputation. He argues that between the twelfth and fifteenth centuries, conversion narratives were needed to represent communal notions of history and authority in allegorical, dramatic terms. After considering the late antique paradigms on which medieval Christian conversion narratives were based, Szpiech juxtaposes Christian stories with contemporary accounts of conversion to Islam and Judaism. He emphasizes that polemical conflict between Abrahamic religions in the medieval Mediterranean centered on competing visions of history and salvation. By seeing conversion not as an individual experience but as a public narrative, Conversion and Narrative provides a new, interdisciplinary perspective on medieval writing about religious disputes.

Conversion Works Jeffrey A. Allen,2021-11-17 In this book, conversion means abandoning a worldview and starting over. Using this definition of conversion, the book examines four works: Augustine of Hippo's Confessions, Rene Descartes's Meditations on First Philosophy, Bernard Lonergan's Insight: A Study of Human Understanding, and Peter Weir's The Truman Show. The main argument of this book is that all four works contain and induce conversion. That is, all four works feature an individual who abandons a worldview and starts over, and all four works exhort their engager to do the same. This book also explores the works' requirement of cognitive imitation, wherein a person replicates the mental activities of the individual who has a conversion in the work, and of private engagement, wherein a person reads or views the work while alone. The book concludes with an argument for the educational value of the four works that appropriates Ernest Becker's The Denial of Death.

**Conversions** Simon Ditchfield,Helen Smith,2017-01-06 Conversions is the first collection to explicitly address the intersections between sexed identity and religious change in the two centuries following the

Reformation. Chapters deal with topics as diverse as convent architecture and missionary enterprise, the replicability of print and the representation of race. Bringing together leading scholars of literature, history and art history, Conversions offers new insights into the varied experiences of, and responses to, conversion across and beyond Europe. A lively Afterword by Professor Matthew Dimmock (University of Sussex) drives home the contemporary urgency of these themes and the lasting legacies of the Reformations.

*Figures of Conversion* Michael Ragussis,1995 Between the 1870s-90s, considerable attention was paid to Jews and Judaism by English critics and writers. Argues that the consideration of Jews by English writers was often in the context of their efforts to describe and improve the English character. Observes that alongside English antisemitism there existed English attitudes which were in effect protective of the Jews. These included the Evangelical Revival's desire to both protect and convert the Jew, the English self-definition as both tolerant and believing in God (in contrast with intolerant Spain of the Inquisition and godless France of the Revolution), and the view expressed in George Eliot's Daniel Deronda which was affirmative of Judaism and the quest for a Jewish national homeland.
