**Converting Words** William F. Hanks,2010-03-17 This pathbreaking synthesis of history, anthropology, and linguistics gives an unprecedented view of the first two hundred years of the Spanish colonization of the Yucatec Maya. Drawing on an extraordinary range and depth of sources, William F. Hanks documents for the first time the crucial role played by language in cultural conquest: how colonial Mayan emerged in the age of the cross, how it was taken up by native writers to become the language of indigenous literature, and how it ultimately became the language of rebellion against the system that produced it. Converting Words includes original analyses of the linguistic practices of both missionaries and Mayas-as found in bilingual dictionaries, grammars, catechisms, land documents, native chronicles, petitions, and the forbidden Maya Books of Chilam Balam. Lucidly written and vividly detailed, this important work presents a new approach to the study of religious and cultural conversion that will illuminate the history of Latin America and beyond, and will be essential reading across disciplinary boundaries.

*Formatting for File Conversion and Publication* Helen Wisniewski,2017-10-11 For some years we at Energion Publications have struggled with the process of converting manuscripts from the author's format to the final, production ready layout. There are an amazing arrays of software solutions to help clean up text, but there's nothing quite like having it done right in the first place. Many of the things in this booklet will be extremely familiar to those who regularly use word processing software, but writers often operate with the assumption that if it looks good on the screen, what you see is what you get. That lasts until the first format change. We commissioned this book to help writers use some basic, automatic formatting: Automatic footnotes, paragraph styles, and bibliographical formatting. We ask our authors to keep it simple. Choose a Style for your headings, use bold and italics, but above all, position nothing using the spacebar. If you use the information in this booklet, you'll have little difficulty, and we'll be able to efficiently format your book for publication. We do hope these simple steps will be useful for others as well. There are two sections, one for Micorosft Word and one for OpenOffice. The latter will generally be applicable to OpenOffice derivatives, such as LibreOffice.

A Contribution to the Study of Conversion in English Isabel Balteiro,

*Conversion in English* Sándor Martsa,2014-07-18 Drawing on the conceptual metaphor and metonymy theory outlined in works by George Lakoff, René Dirven, Günter Radden and Zoltán Kövecses, Conversion in English: A Cognitive Semantic Approach proposes that the process of conversion in contemporary English is basically a semantic process underlain by a series of conceptual metonymic and metaphoric mappings. In the book, previous interpretations treating conversion as zero-derivation derivation by a zero affix or as syntactically motivated recategorization, or as usage-based coinage (relisting) are questioned, for they apparently mistake the effect of conversion, the obligatory change of word class, for its cause, the conceptual reanalysis of extralinguistic reality. The book also demonstrates that viewing conversion as the result of conceptual mappings makes it possible to view this process as an instantiation of intercategorical polysemy. It also helps to settle the long-standing debate concerning the issues of directionality and productivity of conversion.

*A Theory of Conversion in English* Pavol Štekauer,1996 The book provides a comprehensive theory of conversion in English based on the onomasiological method of word-formation research, and on a theory of linguistic signs. The manuscript presents extensive arguments for rejecting the zero-morpheme theory. Its focus is on an original model of conversion that underlies the analysis of phonological aspects of conversion, a theory of the predictability of meanings of new coinages, the semiotic nature of conversion-related proper names, primary-secondary relations, and a number of other issues of conversion in the English language.

*Religion, Media and Conversion in Iran* Sara Afshari,2023-03-28 Religion, Media and Conversion in Iran studies the reception of Farsi Christian television channels by Muslim audiences in Iran: their motivations in viewing the Christian message, their methods of interpretation and negotiation with different media texts and their process of changing or altering their religion. Rooted in empirical research, it analyses three hundred narratives drawn from the audiences of four Farsi Christian satellite television channels between 2010 and 2015, investigating their conversion to Christianity through that medium. The research examines factors that influenced both their interpretations of, and negotiations with, the religious media message, and their process of changing, adding to or modifying their belief system, including their understanding of religious conversion. Drawing on Reception Theory, the book investigates the negotiations between meaning making and mediation and the process of faith transformation against the background of the sociology of religion and culture in contemporary Iran. By offering a unique insight into the way in which media and religion influence each other, this book is a great resource for any scholar of Religious Studies, Media Studies and Middle East Studies and will also be useful for religious media practitioners.

Concepts of Conversion Lars Kirkhusmo Pharo,2017-12-18 There has not been conducted much research in religious studies and (linguistic) anthropology analysing Protestant missionary linguistic translations. Contemporary Protestant missionary linguists employ grammars, dictionaries, literacy campaigns, and translations of the Bible (in particular the New Testament) in order to convert local cultures. The North American institutions SIL and Wycliffe Bible Translators (WBT) are one of the greatest scientific-evangelical missionary enterprises in the world. The ultimate objective is to translate the Bible to every language. The author has undertaken systematic research, employing comparative linguistic methodology and field interviews, for a history-of-ideas/religions and epistemologies explication of translated SIL missionary linguistic New Testaments and its premeditated impact upon religions, languages, sociopolitical institutions, and cultures. In addition to taking into account the history of missionary linguistics in America and theological principles of SIL/WBT, the author has examined the intended cultural transformative effects of Bible translations upon cognitive and linguistic systems. A theoretical analytic model of conversion and translation has been put forward for comparative research of religion, ideology, and knowledge systems.

**The Conversion of Words to Family Names of God's Hidden Equal Equation** Una Mae Watkins Finch-Davis,2021-08-05 The documents in this book proves peoples daily communication skills, oral words or written, can be converted to religious “Family Names of God’s Hidden Equal Equation.” There are nine conversion words applied to convert words. They are Angel, Christ, Father, God, Jesus, Lord, Man, Messiah, and Son. There are people that say, “I do not believe in God.” These are people that say, “religion and states should not be related (associated, connected) with one another because of the religious nature.” Although people’s daily words of communication conversion equal equation have the religious “Family Names of God’s Hidden Equal Equation.” King James Version of the Holy Bible, 1 Corinthians 2:13–14 stated, “Which things also we speak, not in the words which man’s wisdom teacheth, but which the Holy Ghost teacheth; comparing spiritual things with spiritual. But the natural man receiveth not the things of the spirit of God: for they are foolishness unto him: Neither can he know them, because they are spiritually discerned.” Revelation 1:8–11, Jesus stated, “I am Alpha and Omega the beginning and ending,” “I am Alpha and Omega “the first and the last.” Jesus’s statement can relate to people’s daily words of communication and does when the words are spelled using the English Alphabet Letters and their located number of the English Alphabet. Plus, one can employ the mathematic expectation of symbolic logic to achieve “Family Names of God’s Hidden Equal Equation.” For example: “Good morning!” Equal  $131 + 14 = 145$  The Family Names of God’s Hidden Equal Equation are Father, Lord, Christ, Man. Father =  $6 + 18 = 24$  Lord  $12 + 4 = 16$  Christ =  $3 + 8 + 18 + 9 + 19 + 20 = 77$  Man=  $13 + 1 + 14 = 28$  ( $24 + 16 + 77 + 28 = 145$ )

*Word-Processing Technology in Japan* Nanette Gottlieb,2013-09-05 This book deals with a topical issue relating to the use of script in Japan, one which has the potential to reshape future script policy through the mediation of both orthographic practices and social relations. It tells the story of the impact of one of the most significant technological breakthroughs in Japan in the latter part of this century: the invention and rapid adoption of word-processing technology capable of handling Japanese script in a society where the nature of that script had previously mandated handwriting as the norm. The ramifications of this technology in both the business and personal spheres have been wide-ranging, extending from changes to business practices, work profiles, orthography and social attitudes to writing through to Japan's ability to construct a substantial presence on the Internet in recent years.

Approaches to Conversion / Zero-Derivation Laurie Bauer,Salvador Valera Hernández,2005 This thematic publication contains papers presented by invited speakers at a symposium of Conversion / Zero-Derivation held in conjunction with the 10th International Morphology Conference in Szentendre, Hungary, in May 2002, and papers from scholars who could not attend that symposium but indicated their interest in contributing to this volume. Conversion became an issue again in the nineties, probably as a result of the widespread renewed interest in morphology that is in full swing today. The papers contained in this book approach conversion from various perspectives and with different purposes in mind. They cover topics such as what it means to change category, how one can discover the directionality of conversion and the very vexed question of whether an analysis in terms of conversion is or is not to be preferred over one in terms of zero-derivation. All of these questions were canvassed at the symposium, but so were others: questions of typology, conversion in languages other than English, and the question of how far the meaning of conversion is predictable. The participants in the symposium were interested to find that with so many people discussing conversion there was remarkably little overlap in the areas addressed.

**Religious Conversion in India** Manohar James,2022-03-14 In this book, Dr. Manohar James explores how Hindu intolerance has contributed to anti-Christian propaganda over the centuries, how such intolerance has informed the conclusions of the Niyogi Committee Report, and how the Report's ongoing publications, redactions and recessions have intensified anti-Christian rhetoric in India over the last six decades.

**The Drama of Serial Conversion in Early Modern England** Holly Crawford Pickett,2024-03-12 In *The Drama of Serial Conversion in Early Modern England*, Holly Crawford Pickett reconceptualizes early modern religious identity by exploring the astonishing stories of serial converts: historical figures such as William Alabaster, Kenelm Digby, William Chillingworth, and Marc Antonio De Dominis, along with fictional ones, who changed their religious affiliations between Catholicism and Protestantism multiple times. Pickett argues that serial converts both reveal and helped revise early modern understandings of the self. Through investigation of the techniques that serial converts used to stage and justify their conversions, Pickett demonstrates the performative nature of the act of conversion itself, offering a counternarrative to the paradigm of sincere, private conversion that was on the rise in the tumultuous years following the Reformation. Drawing from archival investigation into the lives and works of serial converts and performance studies theory, this book shows how the genres and conventions associated with conversion shaped not only forms of communication but also the very experience of conversion. By juxtaposing plays about serial conversion—by Thomas Dekker and Philip Massinger, Thomas Middleton, Elizabeth Cary, Ben Jonson, and William Shakespeare—with spiritual autobiographies, Pickett highlights the shared task of convert and playwright: performing conversion for an audience. Serial converts served as uncomfortable reminders to their contemporaries that religious identity is always unverifiable. The first study to explore serial conversion as a discrete phenomenon in this era, *The Drama of Serial Conversion in Early Modern England* challenges confessional divisions within much early modern historiography by analyzing the surprising convergence of Protestant and Catholic in the figure of the serial convert. It also reveals a neglected strain of religious discourse in early modern England that valued mutability and flexibility even in the midst of hardening and increasingly narrow understandings of conversion.

**The Directionality of Conversion in English** Isabel Balteiro,2007 Isabel Balteiro describes the three main problems that the word-formation process know as conversion presents, namely those related to its definition, its delimitation, and its directionality. The latter constitutes, however, the main focus of the study.

Luther on Conversion Marilyn Harran,2019-06-30 What is conversion? How does it come about? What preparations must a person make? Harran traces the evolution of Luther's views on these questions, treating his early years as an Augustinian monk, the beginnings of his work as a reformer, and his final evangelical breakthrough, during which he realized the full theological implications of his religious stance. Harran studies Luther's changing interpretations of conversion in his exegetical writings on the Psalms, Romans, Hebrews, and Galatians, in sermons and letters, and in early reform writings, and she considers the relation of conversion to faith, justification, and grace, concepts traditionally viewed as the cornerstones of Luther's mature theology. Introducing new and compelling evidence to the heated debate about Luther's own conversion, she analyzes the accuracy of his later recollections of his Tower Experience and its dating. Insightful and innovative, *Luther on Conversion* will be welcomed by anyone interested in Luther and in the revolution in faith that he brought about.
