Xchange Stan Mason, 2014-10-08 An Israeli scientist invents a machine which is able to exchange the bodies of people. No one in Israel can see any use for it but the Minister of Science in Britain cannot wait to get his hands on it. Ultimately it is sold and brought to England to a laboratory at Lytham St. Annes. The great advantage of the invention is that while the bodies are exchanged, the heads and brain remain the same. Lancaster jail is a tough place to be incarcerated. It contains five hundred prisoners all serving life sentences and is under strict control. Then the Government decides that, with the new invention, they intend to exchange prisoners at the jail with very old eminent people who contributed greatly to society, thereby extending their lives by thirty, forty or fifty years. It mean that a thirty-five year old prisoner would exchange his body with an eighty-eight year old man. The reasoning was that the inmates in the prison were simply rotting away uselessly. Although their lives would be very much shortened after the exchange the recipients of their bodies would be able to live many years longer and continue to benefit the community. The equipment is set up at Lytham St. Annes and prisoners are sent there regularly to undergo the body exchange. At the same time, well-known celebrities and people of rank were invited to gain a new lease of life. However problems soon arise. Firstly, the number of prisoners serving life sentences become used up and the Government has to seek donors from mental institutions. Secondly, because of its horrendous nature, the Government insists that it remains totally secret. However a television news reporter by the name of Sky Summers investigates and will not let go. People are assassinated by the Government for interfering in the process and Lancaster jail becomes empty and is

scheduled to close. Bill Preston, its Governor, is in despair. The controller of the project, Alan Jordan, eventually realises the inhumane nature of the project and he decides to revolt against it. There are many twists and turns in this tale, but it instils horror in the reader for there is worse to come!

Rules and Rule Markup Languages for the Semantic Web Asaf Adi, Suzette Stoutenburg, Said Tabet, 2005-11-04 RuleML 2005 was the first international conference on rules and rule markup languages for the Semantic Web, held in conjunction with the International Semantic Web Conference (ISWC) at Galway, Ireland. With the success of the RuleML workshop series came the need for extended research and applications topics organized in a conference format. RuleML 2005 also accommodated the first Workshop on OWL:

Experiences and Directions. Rules are widely recognized to be a major part of the frontier of the Semantic Web, and critical to the early adoption and applications of knowledge-based techniques in- business, especially enterprise integration and B2B e-commerce. This includes knowledge representation (KR) theory and algorithms; markup languages based on such KR; engines, translators, and other tools; relationships to standardization efforts; and, not least, applications. Interest and activity in the area of rules for the Semantic Web has grown rapidly over the last five years. The RuleML 2005 Conference was aimed to be this year's premiere scientific conference on the topic. It continued in topic, leadership, and collaboration with the previous series of three highly successful annual international workshops (RuleML 2004, RuleML 2003 and RuleML 2002). The theme for RuleML 2005 was rule languages for reactive and proactive rules, complex event processing, and event-driven rules, to support the emergence of Semantic Web applications. Special highlights of the RuleML 2005 conference included the keynote address by Sir Tim Berners-Lee, Director of W3C.

My First Recession Geert Lovink, 2003 My First Recession starts when the party is over. This study maps the transition of critical Internet culture from the mid-to-late 1990s Internet craze to the dotcom crash, the subsequent meltdown of global financial markets, and 9/11. In his discussion of the dotcom boom-and-bust cycle, Geert Lovink lays out the challenges faced by critical Internet culture today. In a series of case studies, Lovink meticulously describes the ambivalent attitude that artists and activists take as they veer back and forth between euphoria and skepticism. As a part of this process, Lovink examines the internal dynamics of virtual communities through an analysis of the use of moderation and collaborative filtering on mailing lists and weblogs. He also confronts the practical and theoretical problems that appear as artists join the growing number of new-media education programs. Delving into the unexplored gold mines of list archives and weblogs, Lovink reveals a world that is largely unknown to both the general public and the Internet visionaries.

The Daddy Daughter Xchange Club Jessie Carr,2023-09-16 Adult read Explicit age play erotic story. From the # 1 Erotic Short Story Best Selling Author Jessie Carr. The Daddy Daughter Exchange club is an introduction agency like no other. The members are older men

who enjoy forbidden fruit and step daughters with Daddy issues. The four had spent weeks now on the website exchanging likes, dislikes and fantasies, today was the day they could get their teeth into each other so to speak. Ben stood to shake Paul's hand and the two girls put their arms around each other and kissed cheeks. Paul grabbed some fresh drinks and the four of them sat at the white plastic tables, people rushed around them heading in all directions. They made small talk for a few minutes when they'd all finished their drinks Ben broached the subject which had brought them all together. 'I must admit I was half expecting you not to show up.' Abby nodded her head in agreement. Sarah looked at them both. 'We wouldn't have missed this for the world.' The moment was becoming awkward Sarah for one was not going to let nerves get in the way of what they all wanted she scooted her chair around closer to Ben smiling at Abby as she followed suit. Ben couldn't contain himself once Sarah had moved around closer to him he could smell her sweet, sweet perfume, the sort that young girls like her always seemed to wear. Not the same as his Abby's but quite similar. His body shivered at the thought of spending time with the nineteen year old he looked down, her black leggings hugged her long slender legs as she crossed them, her large tits bounced gently as she shifted in her seat giving away their firmness.
