Understanding the Heart Minh Niem, 2012-02-24 The human heart is a source of love, but it is often also a source of pain and suffering, and cannot be effectively cured with medicine or by medical remedies (...) The best and most effective way to heal the pain and suffering is to understand our hearts and minds, and the hearts and minds of others. Understanding The Heart is a book that helps readers do just that: understand and heal the pain and suffering of our own hearts and minds and of those around us, so that everyone can live in happiness and with loving-kindness. With this book, I wish you much happiness so that you will never have to live with a broken or wounded heart. -Professor Tran Van Khe, Ph.D, Paris-Sorbonne University, Paris, France; Corresponding Member of the European Academy of the Sciences, Letters and Arts

Old Path White Clouds Thich Nhat Hanh, 2010-03 Old Path White Clouds presents the life and teachings of Gautama Buddha. Drawn directly from 24 Pali, Sanskrit, and Chinese sources, and retold by Thich Nhat Hanh in his inimitably beautiful style, this book traces the Buddha's life slowly and gently over the course of 80 years, partly through the eyes of Svasti, the buffalo boy, and partly through the eyes of the Buddha himself. Old Path White Clouds is destined to

become a classic of religious literature. Thich Nhat Hanh is a Vietnamese Buddhist monk. His life long efforts to generate peace and reconciliation moved Martin Luther King, Jr. to nominate him for the Nobel Peace Prize in 1967. He is the founder of Van Hanh Buddhist University in Saigon, and has taught at Columbia University and the Sorbonne. He is the author of *Being Peace*, *The Miracle of Mindfulness*, *Peace Is Every Step*, and 75 other books. I have not avoided including the various difficulties the Buddha encountered, both from his own disciples and in relation to the wider society. If the Buddha appears in this book as a man close to us, it is partly due to recounting such difficulties. --from the author's afterword

No Death, No Fear Thich Nhat Hanh, 2003-08-05 [Thich Nhat Hanh] shows us the connection between personal, inner peace and peace on earth. --His Holiness The Dalai Lama Nominated by Martin Luther King, Jr. for a Nobel Peace Prize, Thich Nhat Hanh is one of today's leading sources of wisdom, peace, compassion and comfort. With hard-won wisdom and refreshing insight, Thich Nhat Hanh confronts a subject that has been contemplated by Buddhist monks and nuns for twenty-five-hundred years— and a question that has been pondered by almost anyone who has ever lived: What is death? In *No Death, No Fear*, the acclaimed teacher and poet examines our concepts of death, fear, and the very nature of existence. Through Zen parables, guided meditations, and personal stories, he explodes traditional myths of how we live and die. Thich Nhat Hanh shows us a way to live a life unfettered by fear.

Sapiens Yuval Noah Harari,2015-02-10 New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, *Sapiens* integrates history and science to

reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

Start-up Nation Dan Senor,Saul Singer,2011-09-07 What the world can learn from Israel's meteoric economic success. *Start-Up Nation*

addresses the trillion dollar question: How is it that Israel -- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the Israel effect, there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

Beneath the Moon Yoshi Yoshitani, 2020-09-01 Powerful and universal retellings of seventy-eight divine stories, legends, and myths from around the world, each accompanied by a gorgeous illustration from acclaimed artist Yoshi Yoshitani. Many of the lessons we learn are shared stories passed among cultures and generations. In this riveting collection of fables and folktales from cultures across the globe, characters from beloved fairytales, cultural fables, ancient mythologies, and inspirational deities are brought to life, including Sleeping Beauty (Italy), Rapunzel (Germany), Jack and the Beanstalk (England), Our Lady of Guadalupe (Mexico), Sun God Ra (Egypt), the Crane Wife (Japan), and dozens more. Lesser-known stories introduce characters such as the volcano goddess Pele from Hawaii; Mwindo, the wise and powerful king of the Nyanga people; and the strong and resilient Yennenga, mother of the Mossi people in Burkina Faso. The recurring themes of conquering evil, overcoming adversity, and

finding love and companionship are woven throughout this collection. Yoshi Yoshitani's art style is fresh and unique, featuring diverse and multicultural characters. Each story will be featured opposite a correlating illustration, both lush and vibrant.

Love for Imperfect Things Haemin Sunim, 2018-12-24 Susan Cain, New York Times bestselling author of *Quiet*: The world could surely use a little more love, a little more compassion, and a little more wisdom. In *Love for Imperfect Things*, Haemin Sunim shows us how to cultivate all three, and to find beauty in the most imperfect of things--including your very own self. A #1 internationally bestselling book of spiritual wisdom about learning to love ourselves, with all our imperfections, by the Buddhist author of *The Things You Can See Only When You Slow Down* Hearing the words be good to yourself first, then to others was like being struck by lightning. Many of us respond to the pressures of life by turning inward and ignoring problems, sometimes resulting in anxiety or depression. Others react by working harder at the office, at school, or at home, hoping that this will make ourselves and the people we love happier. But what if being yourself is enough? Just as we are advised on airplanes to take our own oxygen first before helping others, we must first be at peace with ourselves before we can be at peace with the world around us. In this beautiful follow-up to his international bestseller *The Things You Can See Only When You Slow Down*, Zen Buddhist monk Haemin Sunim turns his trademark wisdom to the art of self-care, arguing that only by accepting yourself--and the flaws that make you who you are--can you have compassionate and fulfilling relationships with your partner, your family, and your friends. With more than thirty-five full-color illustrations, *Love for Imperfect Things* will appeal to both your eyes and your heart, and help you learn to love

yourself, your life, and everyone in it. When you care for yourself first, the world begins to find you worthy of care.
