**Enterprise Pharo: a Web Perspective** Damien Cassou,StŽphane Ducasse,Luc Fabresse,Johan Fabry,Sven Van Caekenberghe,2016-04-22 Enterprise Pharo is the third volume of the series, following Pharo by Example and Deep into Pharo. It covers enterprise libraries and frameworks, and in particular those useful for doing web development. The book is structured in five parts. The first part talks about simple web applications, starting with a minimal web application in chapter 1 on Teapot and then a tutorial on building a more complete web application in chapter 2. Part two deals with HTTP support in Pharo, talking about character encoding in chapter 3, about using Pharo as an HTTP Client (chapter 4) and server (chapter 5), and about using WebSockets (chapter 6). In the third part we discuss the handling of data for the application. Firstly we treat data that is in the form of comma-separated values (CSV) in chapter 7. Secondly and thirdly, we treat JSON (chapter 8) and its Smalltalk counterpart STON (chapter 9). Fourthly, serialization and deserialization of object graphs with Fuel is treated in chapter 10. Lastly, we discuss the Voyage persistence framework and persisting to MongoDB databases in chapter 11. Part four deals with the presentation layer. Chapter 12 shows how to use Mustache templates in Pharo, and chapter 13 talks about programmatic generation of CSS files. The documentation of applications could be written in Pillar, which is presented in chapter 14. How to generate PDF files from the application with Artefact is shown in chapter 15. The fifth part deals with deploying the web application. This is explained in chapter 16 that talks not only about how to build and run the application, but also other important topics like monitoring.--Open Textbook Library

We are Pharaoh Robert Fernandez,2011 Poetry. WE ARE PHARAOH is the debut collection from Robert Fernandez, native of Miami, recipient of a PIP Gertrude Stein Award for Innovative Poetry, and resident of Iowa City. Like a fever or a fire, this book sweeps across our contemporary cultural landscape, setting aglow and surveying its elements, then cataloging the embers. WE ARE PHARAOH is a luscious saturnalia of language, adapting New York School painterliness to an erotic tropical sensibility: 'A mandrill clutching the throat in the billiard hall of Pele.' Its magic raises the pulse. Ange Mlinko

**Pharo Syntax in a Nutshell** The Open The Open Courses Library,2019-12-13 Pharo Syntax in a Nutshell Pharo's syntax is minimal. Essentially there is syntax only for sending messages (i.e. expressions). Expressions are built up from a very small number of primitive elements (message sends, assignments, closures, returns...). There are only 6 keywords, and there is no syntax for control structures or declaring new classes. Instead, nearly everything is achieved by sending messages to objects. For instance, instead of an if-then-else control structure, conditionals are expressed as messages (such as ifTrue:) sent to Boolean objects. New (sub-)classes are created by sending a message to their superclass.
