Create Your Own Photo Book Petra Vogt,2012-05-25 These days, photographs live on hard drives and DVDs in the company of several thousand other images, coming to light on a computer screen only for a short moment, if ever. In that respect our computer is a one-image-at-a-time exhibition of our photographic work. But as photographers, we like to print our best images, frame and show them at home or at an exhibition, or present a collection of prints in a portfolio. This book will guide you through the process of creating a printed and bound portfolio of your photographs, or even a bookstore-quality coffee table book. Learn about every step of the process, from selecting a book publishing service all the way through designing and proofing your photo book. You'll get practical advice on how to work with software provided by services such as Blurb or Viovia, and will learn about relevant concepts of book design, color management, and digital printing. Create your Own Photo Book is the perfect guide for the aspiring amateur photographer as well as the seasoned pro.

Ciprian Honey Cathedral ,2020 Raymond Meeks is renowned for his use of photography and the book form to poetically distill the liminal junctures of vision, consciousness and comprehension. In 'ciprian honey cathedral', he brings this scrutiny close to home, delicately probing at the legibility of our material surroundings and the people closest to us. Meeks has long been fascinated by the way we construct the world around us; how we carry our possessions, these accumulated comforts, inheritances, markers of material success; how we adorn homes with trees and shrubs, a mantle clock to count the hours. Stumbling across an abandoned house or unkempt lawn becomes a search for common clues to tiny hidden transgressions. This question of knowledge and understanding is perhaps most drastic in our solipsistic reality. Meeks also photographed his partner, Adrianna Ault, in the early mornings before she awoke, on the threshold at which daily domestic life converges with the deepest state of sleep. This plight of supine trance is a place of reprieve beneath the surface of consciousness, free from the chaos and uncertainty of the sentient world above, and alludes to the veiled threat that, ultimately, we are utterly unknowable to one another.--Publisher's web page for the book.

I hope you are all happy now Nicholas Zinner,2014-06-10 Nick Zinner may be a man of few words, but who needs to talk when you can say so much with the click of a shutter button? The rock press has been striving for more than thirty years to show what life is like for a band on the road. In his own quiet way, by snapping a shot of every crowd the Yeah Yeah Yeahs have played for, every hotel room they've left in disarray, and every moment of consequence they've had together, Zinner makes hacks of us all and brings us behind the music for real. -- Jenny Eliscu, Rolling Stone In four years the Yeah Yeah Yeahs went from underground sensation to internationally acclaimed rock band. Through the lens of his camera, lead guitarist Nicholas Zinner documented the group's meteoric rise to fame. From the Grammys to the concerts, Nick captured the glamour, debauchery and road-weary tedium of his world. I hope you are all happy now gives readers a never-before-seen look at rock 'n' roll. This collection includes essays by Jim Jarmusch, director of Coffee and Cigarettes, and comedian David Cross.
