Pictures from Home Larry Sultan, 2017 First published in 1992 to wide critical acclaim, *Pictures From Home* is Larry Sultan's pendant to his parents. Sultan returned home to Southern California periodically in the 1980s and the decade-long sequence moves between registers, combining contemporary photographs with film stills from home movies, fragments of conversation, Sultan's own writings and other memorabilia. The result is a narrative collage in which the boundary between the documentary and the staged becomes increasingly ambiguous. Simultaneously the distance usually maintained between the photographer and his subjects also slips in an exchange of dialogue and emotion that is unique to this work. Significantly increasing the page count of the original book, this MACK design of *Pictures From Home* clarifies the multiplicity of voices - both textual and pictorial - in order to afford a fresh perspective of this seminal body of work -- Provided by the publisher.

Wilton's Wit for Children Clyde C. Wilton, 2011-11 *Wilton's Wit For Children* is presented in thirty-four essays taken from a lifetime of experiences in Christian service by Clyde Wilton, who has served as a pastor, chaplain, and minister of the Gospel. From a

work originally intended for adults, Clyde has revised his essays in a form for children that is enjoyable and that provides encouragement for life's lessons.

The Secret Life of Clams Anthony D. Fredericks, 2014-11-18 Get up close and personal with an amazing creature that has invaded our lexicon as well as our restaurants. It breathes with tubes, it has no head or brain, it feeds through a filter, and it is the source of dozens of familiar proverbs ("happy as a clam!"). Clams, it turns out, have been worshipped (by the Moche people of ancient Peru), used as money (by the Algonquin Indians), and consumed by people for thousands of years. Yet *The Secret Life of Clams* is the first adult trade book to deal exclusively with this gastronomic treat that is more complex than its simple two shells might reveal. *The Secret Life of Clams* features compelling insights, captivating biology, wry observations, and up-to-the-minute natural history that will keep readers engaged and enthralled. Written by award-winning science author Anthony D. Fredericks, *The Secret Life of Clams* includes a comfortable infusion of humor, up-to-date research, fascinating individuals (scientists and laypeople alike), and the awe of a fellow explorer as he guides readers on a journey of wonder and adventure. Along with an appreciation for oceanic creatures, this is a guidebook for armchair marine biologists everywhere who seek amazing discoveries in concert with compelling narration.

How to Build Electric Guitars Will Kelly,2012-06-15 In the past few years the market for electric guitar kits and parts has exploded. For every two enthusiasts, there are four opinions on how properly to fill woodgrain. In this book, Will Kelly cuts through all that noise and shows how, with a little patience and some inexpensive tools, the average person can turn a modest investment into a gig-worthy instrument and perhaps even a lifelong hobby. Kelly presents guitar-building in a progressive fashion, beginning with a simple Stratocaster-style kit with a bolt-on neck and continuing on to a relic'd Telecaster-style build, two Gibson-style set-neck models, and a custom double-neck mash-up. Because

each build is more involved than the previous, the reader builds on his or her skill set and acquires only the tools necessary for the reader's level of interest. Kelly shows how to apply finishes, choose and install hardware, wire electronics, execute the final assembly, and set up the finished guitar for proper action and intonation.

Reframing Immersive Theatre James Frieze, 2017-03-30 This diverse collection of essays and testimonies challenges critical orthodoxies about the twenty-first century boom in immersive theatre and performance. A culturally and institutionally eclectic range of producers and critics comprehensively reconsider the term 'immersive' and the practices it has been used to describe. Applying ecological, phenomenological and political ideas to both renowned and lesser-known performances, contributing scholars and artists offers fresh ideas on the ethics and practicalities of participatory performance. These ideas interrogate claims that have frequently been made by producers and by critics that participatory performance extends engagement. These claims are interrogated across nine dimensions of engagement: bodily, technological, spatial, temporal, spiritual, performative, pedagogical, textual, social. Enquiry is focussed along the following seams of analysis: the participant as co-designer; the challenges facing the facilitator of immersive/participatory performance; the challenges facing the critic of immersive/participatory performance; how and why immersion troubles boundaries between the material and the magical.
