Putting the Arts in the Picture Nick Rabkin, Robin Redmond, 2004 Across the country, schools that integrate the arts into the fabric of the school day and across the curriculum defy educational odds and expectations. These schools demonstrate that the arts are profoundly cognitive and engaging and that arts integration is a strategy within the reach of schools even in the poorest communities. Putting the Arts in the Picture makes a powerful and original argument for placing the arts at the center of educational renewal. The authors investigate the success of arts integrated schools and the programs that have supported them, and explain why arts integration has such cognitive power. Putting the Arts in the Picture places arts integration within the long arc of efforts to realize the democratic promise of public education and examines how other nations have mobilized the arts to focus young people's need to learn and grow. Throughout, the authors suggest practical strategies--for educators, policymakers, school reformers, philanthropists, and parents--that can make arts integration broadly available to the children who need it most.

When Women Wrote Hollywood Rosanne Welch, 2018-06-19 This collection of 23 new essays focuses on the lives of female screenwriters of Golden Age Hollywood, whose work helped create those unforgettable stories and characters beloved by audiences--but whose names have been left out of most film histories. The contributors trace the careers of such writers as Anita Loos, Adela Rogers St. Johns, Lillian Hellman, Gene Gauntier, Eve Unsell and Ida May Park, and explore themes of their writing in classics like *Gentlemen Prefer Blondes*, *Ben Hur*, and *It's a Wonderful Life*.

MGM Style Howard Gutner, 2019-09-17 MGM Style is an overview of the career and achievements of Hollywood's most famous art director. Cedric Gibbons was the supervisor in charge of the art department at Metro-Goldwyn-Mayer film studios from its inception in 1924 until Gibbons chose to retire in 1956. Lavishly illustrated with over 175 pristine duotone photographs, the vast majority of which have never before been published, this is the first volume to trace Gibbons' trendsetting career. At its height in the late 1930s and early 1940s, Gibbons was regularly acknowledged by his peers as having shaped the craft of art direction in American film; his work was recognized as representing the finest in motion picture sets and settings. Gibbons and his associates constructed the villages, towns, streets, squares and edifices that later appeared in hundreds of films, and whose mixed architecture stood in for army camps and the wild west, Dutch New York and Dickensian London, ancient China and modern Japan. Inspired by the work of Le Corbusier and the Bauhaus masters, as well as the 1925 Exposition Internationale des Arts Décoratifs et Industriels Modernes in Paris and Frank Lloyd Wright's experiments with open planning, Gibbons championed the notion that movie decor should move beyond the commercial framework of the popular cinema

The Stardom Film Karen McNally, 2020-12-08 Since the earliest days of the movie industry, Hollywood has mythologized itself through stories of stardom. A female protagonist escapes the confines of rural America in search of freedom in a western dream factory; an ambitious, conceited movie idol falls from grace and discovers what it means to embody true stardom; or a fading star confronts Hollywood's obsession with youth by embarking on a determined mission to reclaim her lost fame. In its various forms, the stardom film is crucial to understanding how Hollywood has shaped its own identity, as well as its claim on America's collective imagination. In the first book to focus exclusively on these modern fairy tales, Karen McNally traces the history of this genre from silent cinema to contemporary film and television to show its significance to both Hollywood and broader American culture. Drawing on extensive archival research, she provides close readings of a wide range of films, from *Souls for Sale* (1923) to *A Star is Born* (1937 and 1954) and *Judy* (2019), moving between fictional narratives, biopics, and those that occupy a space in between. McNally considers the genre's core set of tropes, its construction of stardom around idealized white femininity, and its reflections on the blurred boundaries between myth, image, and reality. *The Stardom Film* offers an original understanding of one of Hollywood's most enduring genres and why the allure of fame continues to fascinate us.

Words about Pictures Perry Nodelman, 1990-08-01 A pioneering study of a unique narrative form, *Words about Pictures* examines the special qualities of picture books--books intended to educate or tell stories to young children. Drawing from a number of aesthetic and literary sources, Perry Nodelman explores the ways in which the interplay of the verbal and visual aspects of picture books conveys more narrative information and stimulation than either medium could achieve alone. Moving from baby books, alphabet books, and word books to such well-known children's picture books as Nancy Ekholm Burkert's *Snow White and the Seven Dwarfs*, Gerald McDermott's *Arrow to the Sun*, Maurice Sendak's *Where the Wild Things Are*, and Chris Van Allsburg's *The Garden of Abdul Gasazi*, Nodelman reveals how picture-book narrative is affected by the exclusively visual information of picture-book design and illustration as well as by the relationships between pictures and their complementary texts.

Picture This: How Pictures Work (Art Books, Graphic Design Books, How To Books, Visual Arts Books, Design Theory Books), 2016-08-16 Molly Bang's brilliant, insightful, and accessible treatise is now revised and expanded for its 25th anniversary. Bang's powerful ideas remain unparalleled in their simplicity and genius: Explore the intricate and thought-provoking ideas that Bang brings to *Picture This* including thoughts about how the visual composition of images works to engage the emotions, and how the elements of an artwork can give it the power to tell a story. Why are diagonals dramatic? Why are curves calming? Why does red feel hot and blue feel cold? She asks the right questions to get your wheels turning while the illustrations and thoughtful designs bring the words to life. Explores the mix of geometrical abstraction and emotional expressions, plus how a few clear principles can be used to build powerful visual statements. Encourages you to answer the question, How does the structure of a

First published in 1991, *Picture This* has changed the way artists, illustrators, reviewers, critics, and readers look at and understand art. Rock Star/Movie Star Landon Palmer,2020-06-30 During the mid-1950s, when Hollywood found itself struggling to compete within an expanding entertainment media landscape, certain producers and studios saw an opportunity in making films that showcased performances by rock 'n' roll stars. Rock stars eventually found cinema to be a useful space to extend their creative practices, and the motion picture and recording industries increasingly saw cinematic rock stardom as a profitable means to connect multiple media properties. Indeed, casting rock stars for film provided a tool for bridging new relationships across media industries and practices. From Elvis Presley to Madonna, this book examines the casting rock stars in films. In so doing, *Rock Star/Movie Star* offers a new perspective on the role of stardom within the convergence of media industries. While hardly the first popular music culture to see its stars making the transition to screen, the timing of rock's emergence and its staying power within popular culture proved fortuitous for a motion picture business searching for its place in the face of continuous technological and cultural change. At the same time, a post-star-system film industry provided a welcoming context for rock stars who have valued authenticity, creative autonomy, and personal expression. This book uses illuminating archival resources to demonstrate how rock stars have often proven themselves to be prominent film workers exploring this terrain of platforms old and new - ideal media laborers whose power lies in the fact that they are rarely recognized as such. Combining star studies with media industry studies, this book proposes an integrated methodology for writing media history that combines the actions of individuals and the practices of industries. It demonstrates how stars have operated as both the gravitational center of media production as well as social actors who have taken on a decisive role in the purposes to which their images are used.

Jack Lord Sylvia D. Lynch,2018-03-22 Before his rise to superstardom portraying Detective Steve McGarrett on the long-running police drama *Hawaii Five-O*, Jack Lord was already a dedicated and versatile actor on Broadway, in film and on television. His range of roles included a Virginia gentleman planter in *Colonial Williamsburg (The Story of a Patriot)*, CIA agent Felix Leiter in the first James Bond movie (*Dr. No*) and the title character in the cult classic rodeo TV series *Stoney Burke*. Lord's career culminated in twelve seasons on *Hawaii Five-O*, where his creative control of the series left an indelible mark on every aspect of its production. Movies Magnificent: 150 Must-See Cinema Classics John Reid,2005-09 Few people would argue with the films selected for detailed notices and reviews in this book. Many of the movies are award-winners, and most chalked up impressive figures at the box-office. Who would dispute the inclusion of *Citizen Kane* or *Rebecca* or *The Best Years of Our Lives*? However, along with *The Yearling* and *Reap the Wild Wind* and *Hello, Frisco, Hello*, I've also included a few surprises. A magnificent publication. -- Rodney Bourke in *International Movie Making* (April 2006).
