The Winchester Pipe Rolls and Medieval English Society R. H. Britnell, 2003 The accounts of one of the great estates of medieval England, from 1209. A remarkable survival, they supply detailed evidence on a range of issues. The Winchester pipe rolls - the estate accounts of the bishops of Winchester - constitute one of the most remarkable documentary survivals from medieval England, and are without parallel anywhere in the world, supplying detailed evidence for agriculture, prices, wages, the land market and peasant society in an exceptionally well-preserved sequence from 1209 onwards. They have attracted the attention of historians of medieval economy and society for over a century, first in deposit in the Public Record Office, more recently in Hampshire Record Office. The essays collected here celebrate their survival and demonstrate their quality, putting them into perspective as a documentary source, and assessing how far their evidence is representative of England as a whole. The volume also demonstrates some of the new ways in which they are being put to use to enhance knowledge of medieval England, with a number of the articles concerned with recent research projects. The book is completed with a handlist of these records up to 1455, the year in which the bishopric administration started to keep its accounts in registers rather than rolls. Contributors: RICHARD H. BRITNELL, BRUCE M. S. CAMPBELL, JOHN LANGDON, JOHN MULLAN, MARK PAGE, K. J. STOCKS, CHRISTOPHER THORNTON, NICHOLAS C. VINCENT. The late RICHARD BRITNELL was Professor of History at the University of Durham.

Magna Carta J. C. Holt, 2015-05-28 A revised edition of J. C. Holt's classic study of Magna Carta, the Great Charter, offering the most authoritative analysis of England's most famous constitutional text. The book sets the events of 1215 and the Charter itself in the context of the law, politics and administration of England and Europe in the twelfth and thirteenth centuries. Additionally, a lengthy new introduction by two of Holt's former pupils, George Garnett and John Hudson, examines a range of issues raised by scholarship since publication of the second edition in 1992. These include the possible role of Archbishop Stephen Langton; the degree of influence of Roman and Canon Law upon those who drafted the Charter; other aspects of the intellectual setting of the Charter, in particular political thinking in London; the Continental context of the events of 1212-15; and the legal and jurisdictional issues that affected the Charter's clauses on justice.

Administration and Organization of War in Thirteenth-Century England David S. Bachrach, 2020-03-11 The essays brought together in this volume examine the conduct of war by the Angevin kings of England during the long thirteenth century (1189-1307). Drawing upon a wide range of unpublished administrative records that have been largely ignored by previous scholarship, David S. Bachrach offers new insights into the military technology of the period, including the types of artillery and missile weapons produced by the royal government. The studies in this volume also highlight the administrative sophistication of the Angevin kings in military affairs, showing how they produced and maintained huge arsenals, mobilized vast quantities of supplies for their armies in the field, and provided for the pastoral care of their men. Bachrach also challenges the knight-centric focus of much of the scholarship on this period, demonstrating that the militarization of the English population penetrated to men in the lower social and economic strata, who volunteered in large numbers for military service, and even made careers as professional soldiers. (CS1088).

The English and the Normans Hugh M. Thomas, 2003-04-10 Since the Anglo-Norman period itself, the relations between the English and the Normans have formed a subject of lively debate. For most of that time, however, complacency about the inevitability of assimilation and of the Anglicization of Normans after 1066 has ruled. This book first challenges that complacency, then goes on to provide the fullest explanation yet for why the two peoples merged and the Normans became English. Drawing on anthropological theory, the latest scholarship on Anglo-Norman England, and sources ranging from charters and legal documents to saints' lives and romances, it provides a complex exploration of ethnic relations on the levels of personal interaction, cultural assimilation, and the construction of identity. As a result, the work provides an important case study in pre-modern ethnic relations that combines both old and new approaches, and sheds new light on some of the most important developments in English history.

Rulership and Rebellion in the Anglo-Norman World, c.1066-c.1216 Professor David Luscombe, Dr Paul Dalton, 2015-01-28 The importance of rulership and rebellion in the history of the Anglo-Norman world between 1066 and the early thirteenth century is incontrovertible. The power, government, and influence of kings, queens and lords dominated society and was frequently challenged and resisted. But while biographies of rulers, studies of central, local and seigniorial government, and works on political struggles abound, many aspects of rulership and rebellion remain to be explored. This volume, dedicated to the pioneering work of Edmund King, will make an original and timely contribution to our knowledge of Anglo-Norman history.

Land and Family John Mullan, Richard Britnell, 2010-10 With a special emphasis on the exchange of land between medieval servile tenants--especially from the 13th century onward--this scholarly examination of the peasant land market of the Middle Ages explores the identification of peasant families with particular lands to which they had a hereditary right. Using this theme to explore village life and showing how peasants were affected by the changes over time and place, this study employs primary source material from the Winchester estates. Analyzing thousands of land exchanges and interactions from more than 50 different manors on Winchester, this volume reveals unparalleled opportunities for comparing regional and local differences of experience.
