About Photography Andrea Scala,2012-06 Many people, from the beginning at today, have talked about Photography. Everyone telling a different story in a very personal way. So Baudelaire talked against Photography because he thought it wasn't and would never be an Art. Someone thought otherwise. Avedon said that if he didn't do every day something related to photography, it was just like if he had forgotten to wake up. I started collecting quotes about Photography almost 10 years ago. I'm sure I can learn so much, about people and photography, if I can understand the mood and feelings of people when they discover and approach to Photography. There is something very deep and emotional about photography and one can choose to love or hate it but not ignore it. In this book I've selected over 400 quotes from famous people somehow related to photography. Famous people that had something to say... About Photography.

Dear Photograph Taylor Jones,2012-07-03 We all have moments we wish we could relive. We'd give anything to skid down the toboggan hills of our youth, to breathe in the smell of our children as babies, or to spend just one more minute with someone we've lost. Dear Photograph provides a way to link these memories from the past to the present, overlapping them to see how the daydreams of our memories collide with our current realities. The idea is simple: hold up a photograph from the past in front of the place where it was originally taken, take a second photograph, and add a sentence of dedication about what the photograph means to you. The results, however, are astounding, which is why millions have flocked to dearphotograph.com and thousands have submitted their own Dear Photographs. This stunning visual compilation includes more than 140 never-before-seen Dear Photographs, as well as a space for you to attach your own cherished photo. By turns nostalgic, charming, and poignant, Dear Photograph evokes childhood memories, laments difficult losses, and, above all, celebrates the universal nature of love.

Useful Photography #001 Hans Aarsman,Erik Kessels,Claudie de Cleen,Julian Germain,Hans van der Meer,2002-07-02 The simplest way of judging the true value of a photograph is to take it out of its context. Cut a photo out of a newspaper, put it in a frame, and hang it on the wall. The vast majority will fail the test. But cut out a photograph from a wholesale butcher's brochure, one of those packaging shots of an aluminum tray full to the edges with pink chicken breasts, hang it over your bed, and a year later you still won't have gotten enough of it. For years, the editors of Useful Photography had drawers in their desks where they quietly collected such photographs. Now their private collections form the basis for this new Dutch magazine, in tribute to those anonymous photographers who in their out-of-the-way studios produce such unintentional beauty.

Social Media in Southeast Italy Razvan Nicolescu,2016-10-07 Why is social media in southeast Italy so predictable when it is used by such a range of different people? This book describes the impact of social media on the population of a town in the southern region of Puglia, Italy. Razvan Nicolescu spent 15 months living among the town's residents, exploring what it means to be an individual on social media. Why do people from this region conform on platforms that are designed for personal expression? Nicolescu argues that social media use in this region of the world is related to how people want to portray themselves. He pays special attention to the ability of users to craft their appearance in relation to collective ideals, values and social positions, and how this feature of social media has, for the residents of the town, become a moral obligation: they are expected to be willing to adapt their appearance to suit their different audiences at the same time, which is crucial in a town where religion and family are at the heart of daily life.

LIFE The Year in Pictures Editors of Life,2011-12-27 Many other periodicals now publish their versions of a year-in-review each December, and they include in their pages photography. But LIFE, the most respected brand when it comes to pictures and also a trusted source of smart, honest, unbiased journalism, invented the Year in Pictures-and LIFE's volume remains the one a reader must have. This is the book for the footlocker. This is the book to be read now, a year from now, ten years from now. This is our human history, captured in the moment by the world's best photojournalists and put into complete context by LIFE's editors. In politics, Barack Obama, John Boehner and Sarah Palin are all players in 2011, and in Hollywood Mark Wahlberg is on top, and Angelina Jolie remains there. Neil Diamond and Alice Cooper go into rock's Hall of Fame, while Miley Cyrus, Justin Bieber and Selena Gomez take another step out of childhood and into adulthood will they continue on with great success, and for that matter, what will Britney and Lindsay offer us this year? Who will Glee salute next? The rumors include the Boss. Tom Brady may win again, and so might Tiger Woods . . . Then again, they might not. The Williams sisters must still be reckoned with, as must Lindsay Vonn, who shoots for another World Cup skiing championship. The floods that ruined parts of California and the blizzards that whacked New England made for dramatic pictures, and for pain. Whether the country felt greater pain than it did early in the year when a universally well-liked congresswoman, Gabby Giffords, was targeted by a gunman, and when six innocents, including a nine-year-old girl were killed-well, whether that grief will be exceeded is yet to be determined. LIFE will be there to measure it, record it, and put it in perspective. LIFE invented The Year in Pictures, and does it like no one else.
