Food in the Air and Space Richard

Foss, 2014-12-11 In the history of cooking, there has been no more challenging environment than those craft in which humans took to the skies. The tale begins with meals aboard balloons and zeppelins, where cooking was accomplished below explosive bags of hydrogen, ending with space station dinners that were cooked thousands of miles below. This book is the first to chart that history worldwide, exploring the intricacies of inflight dining from 1783 to the present day, aboard balloons, zeppelins, land-based aircraft and flying boats, jets, and spacecraft. It charts the ways in which commercial travelers were lured to try flying with the promise of familiar foods, explains the problems of each aerial environment and how chefs, engineers, and flight crew adapted to them, and tells the stories of pioneers in the field. Hygiene and sanitation were often difficult, and cultural norms and religious practices had to be taken into account. The history is surprising and sometimes humorous at times some ridiculous ideas were tried, and airlines offered some strange meals to try to attract passengers. It's an engrossing story with quite a few twists and turns, and this first book on the subject tells it with a light touch.

Food and Aviation in the Twentieth Century Bryce

Evans, 2020-12-10 Established by New York stockbroker Juan Trippe in 1927, the story of Pan Am is the story of US-led globalisation and imperial expansion in the twentieth century, with the airline achieving the vast majority of

'firsts' in aviation history, pioneering transoceanic travel and new technologies, and all but creating the glitz, style and ambience eulogised in Frank Sinatra's 'Come Fly with Me'. Bryce Evans investigates an aspect of the airline service that was central to the company's success, its food; a gourmet glamour underpinned by both serious science and attention to the detail of fine dining culture. Modelled on the elite dining experience of the great ocean liners, the first transatlantic and transpacific flights featured formal thirteen course dinners served in art deco cabins and served by waiters in white waist-length jackets and garrison hats. As flight times got faster and altitudes higher, Pan Am pioneered the design of hot food galleys and commissioned research into how altitude and pressure affected taste buds, amending menus accordingly. A tale of collaboration with chefs from the best Parisian restaurants and the wining and dining of politicians and film stars, the book also documents what food service was like for flight attendants, exploring how the golden age of airline dining was underpinned by a racist and sexist culture. Written accessibly and with an eye for the glamour and razzamatazz of public aviation history, Bryce Evans' research into Pan Am airways will be valuable for scholars of food studies and aviation, consumer, tourism, transport and 20th century American history.

Plane Insanity Elliott Hester, 2010-04-01 You're belted into a middle seat with burly businessmen on either side. It's 92 degrees in the cabin and someone forgot to use deodorant. A baby screams. A kid kicks the back of your seat. After two hours you haven't even left the taxiway. Welcome to modern airline travel! In Plane Insanity, Elliott Hester delivers stories that could only come from someone who rides tin for a living—a flight attendant. You'll hear about: * the passenger from hell * a smuggled python * prostitutes working the lavatories * a riot in coach-class * a heist * the anatomy of a carryon bag * a malodorous couple * the Mile-High Club * and more! Fasten your seatbelts. After Plane Insanity, you'll never think of air travel the same way again.

A History of Airline Food Dickon Weir-Hughes, 2023-05-30 This beautifully illustrated book provides a fascinating insight into the history of airline food from 1929-2019, providing a work that will be of interest to aviation enthusiasts and food and culinary historians alike. Documentary evidence of airline food only

really comes in one publicly available form, and that is airline menus. The menus used for this work form part of the author's private collection of over 1,200 menus from 91 airlines worldwide. They are catalogued so that one may enable the author to investigate the popularity of certain dishes by era. Other data is used for comparative purposes, such as world events that occurred at the time the menu was used, recipes, social trend data, geographical and sociopolitical data, the artwork, aircraft types, routes and more.

Corked Kathryn Borel, 2010-02-16 Meet Kathryn Borel, bon vivant and undutiful daughter. Now meet her father, Philippe, former chef, eccentric genius, and wine aficionado extraordinaire. Kathryn is like her father in every way but one: she's totally ignorant when it comes to wine. And although Philippe has devoted untold parenting hours to delivering impassioned oenological orations, she has managed to remain unenlightened. But after an accident and a death, Kathryn realizes that by shutting herself off to her father's greatest passion, she will never really know him. Accordingly, she proposes a drunken father-daughter road trip. **Corked** is the uncensored account of their tour through the great wine regions of France. Uproarious, poignant, painfully introspective, and filled with cunning little details about wine, this is a book for any reader who has sought a connection with a complex family member or wanted to overcome the paralyzing terror of being faced with a restaurant wine list.

Right Away & All at Once Greg Brenneman, 2016-02-09 An expert in business turnaround shares his inspiring approach to problem-solving: "A fascinating read" (Mitt Romney). Visionary leader Greg Brenneman believes that true business success and personal fulfillment are two sides of the same coin. The techniques that will grow your business will also help you achieve a rich, purposeful, and integrated life. Here, Brenneman takes what he's

learned from turning around or tuning up many businesses—including Continental Airlines and Burger King—and distills it into a simple, clear, five-step roadmap that anyone can follow. He teaches you how to: *prepare a succinct Go Forward plan *build a fortress balance sheet *grow your sales and profits *choose all-star servant leaders *empower your team For more than thirty years, Brennenman has seen these steps foster dramatic results in a variety of business environments. But he also came to realize that he could apply these same principles to improve his life and build a lasting moral legacy. He found he could make better decisions by carefully taking the most important facets of his life—faith, family, friendship, fitness, and finance—into consideration. Brennenman's inspiring examples, from both his business and his life, demonstrate the astounding effects these steps can have when you apply them—right away and all at once.
