Maestro Roger Nierenberg, 2009-10-15 A conductor reveals powerful leadership lessons by explaining the inner workings of a symphony orchestra Roger Nierenberg, a veteran conductor, is the creator of The Music Paradigm, a unique program that invites people to sit INSIDE a professional symphony orchestra as the musicians and conductor solve problems together. He captures that experience in *Maestro: A Surprising Story about Leading by Listening*, a parable about a rising executive tough challenges. The narrator befriends an orchestra conductor and is inspired to think about leadership and communication in an entirely new way. For instance:

- A maestro doesn't micromanage, but encourages others to develop their own solutions. There's a big difference between conducting and trying to play all the instruments.
- A maestro helps people feel ownership of the whole piece, not just their individual parts.
- A maestro leads by listening. When people sense genuine open-mindedness, they offer more of their talent. If not, they get defensive and hold back their best ideas.
- Truly great leaders, whether conductors striving for perfect harmony or CEOs reaching for excellence, act with a vision of their organization at its best.

Mall Maker M. Jeffrey Hardwick, 2015-08-18 The shopping mall is both the most visible and the most contentious symbol of American prosperity. Despite their convenience, malls are routinely criticized for representing much that is wrong in America—sprawl, conspicuous consumption, the loss of regional character, and the decline of Mom and Pop stores. So ubiquitous are malls that most people would be surprised to learn that they are the brainchild of a single person, architect Victor Gruen. An immigrant from Austria who fled the Nazis in 1938, Gruen based his idea for the mall on an idealized America: the dream of concentrated shops that would benefit the businessperson as well as the consumer and that would foster a sense of shared community. Modernist Philip Johnson applauded Gruen for creating a true civic art and architecture that enriched Americans' daily lives, and for decades he received praise from luminaries such as Lewis Mumford, Winthrop Rockefeller, and Lady Bird Johnson. Yet, in the end, Gruen returned to Europe, thoroughly disillusioned with his American dream. In *Mall Maker*, the first biography of this visionary spirit, M. Jeffrey Hardwick relates Gruen's successes and failures—his work at the 1939 World's Fair, his makeover of New York's Fifth Avenue boutiques, his rejected plans for reworking entire communities, such as Fort Worth, Texas, and his crowning achievement, the enclosed shopping mall. Throughout Hardwick illuminates the dramatic shifts in American culture during the mid-twentieth century,

notably the rise of suburbia and automobiles, the death of downtown, and the effect these changes had on American life. Gruen championed the redesign of suburbs and cities through giant shopping malls, earnestly believing that he was promoting an American ideal, the ability to build a community. Yet, as malls began covering the landscape and downtowns became more depressed, Gruen became painfully aware that his dream of overcoming social problems through architecture and commerce was slipping away. By the tumultuous year of 1968, it had disappeared. Victor Gruen made America depend upon its shopping malls. While they did not provide an invigorated sense of community as he had hoped, they are enduring monuments to the lure of consumer culture.

**The Violin Conspiracy** Brendan Slocumb,2022-02-01 GOOD MORNING AMERICA BOOK CLUB PICK! • Ray McMillian is a Black classical musician on the rise—undeterred by the pressure and prejudice of the classical music world—when a shocking theft sends him on a desperate quest to recover his great-great-grandfather’s heirloom violin on the eve of the most prestigious musical competition in the world. “I loved *The Violin Conspiracy* for exactly the same reasons I loved *The Queen’s Gambit*: a surprising, beautifully rendered underdog hero I cared about deeply and a fascinating, cutthroat world I knew nothing about—in this case, classical music.” —Chris Bohjalian, #1 New York Times bestselling author of *The Flight Attendant* and *Hour of the Witch* Growing up Black in rural North Carolina, Ray McMillian’s life is already mapped out. But Ray has a gift and a dream—he’s determined to become a world-class professional violinist, and nothing will stand in his way. Not his mother, who wants him to stop making such a racket; not the fact that he can’t afford a violin suitable to his talents; not even the racism inherent in the world of classical music. When he discovers that his beat-up, family fiddle is actually a priceless Stradivarius, all his dreams suddenly seem within reach, and together, Ray and his violin take the world by storm. But on the eve of the renowned and cutthroat Tchaikovsky Competition—the Olympics of classical music—the violin is stolen, a ransom note for five million dollars left in its place. Without it, Ray feels like he’s lost a piece of himself. As the competition approaches, Ray must not only reclaim his precious violin, but prove to himself—and the world—that no matter the outcome, there has always been a truly great musician within him.

*The Last Lecture* Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he’s learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled *The Last Lecture*. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak,

audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.
