PLATTERS SOUTH AFRICAN WINE GUIDE 2021 ,2020-11-30

Platter's South African Wine Guide 2022 Philip Van Zyl,John Platter,2021-12

Wines of the New South Africa Tim James,2013-07-18 Sought after by European aristocrats and a favorite of Napoleon Bonaparte, the sweet wines of Constantia in the Cape Colony were considered to be among the world's best during the eighteenth and nineteenth centuries. During the first democratic elections in 1994, South Africa began to re-emerge onto the international wine scene. Tim James, an expert on South African wines, takes the reader on an information-packed tour of the region, showing us how and why the unique combination of terroir and climate, together with dramatic improvements in winemaking techniques, result in wines that are once again winning accolades. James describes important grape varieties and wine styles—from delicate sparkling, to rich fortified, and everything in between—including the varietal blends that produce some of the finest Cape wines. Anchoring his narrative in a rich historical context, James discusses all the major wine regions, from Cederberg to Walker Bay, complete with profiles of more than 150 of the country's finest producers.

The Wines of South Africa JIM. CLARKE,2020-04-20 South Africa is the eighth largest wine-producer in the world and its wine industry is among the oldest of the New World. Today it is one of the globe's most dynamic industries, compact but diverse. In the past decade a new generation of winemakers has breathed new life into centuries-old estates and new, boutique brands alike. The wines of South Africa is in four sections. The first introduces readers to the history of South African wine, beginning with the arrival of the Dutch and the establishment of what would become Cape Town. The second section analyzes South Africa's industry today. It pinpoints the geological, geographical, and climatic conditions that create the parameters and potential of South African wine. It describes the major grape varieties and wine styles and outlines the broad range of wines being produced. It shows the current infrastructure of the industry, significant regulatory matters, and South Africa's place in export markets. It also includes a general overview of wine tourism in South Africa. The third section inspects the challenges the industry faces, focusing on the three largest: profitability and the loss of vineyards as farmers switch to higher-margin orchards; environmental concerns, the effects of climate change, and water conservation; and the legacy of apartheid and continued imbalances in the socioeconomic structure of the Western Cape, including land redistribution, black economic empowerment initiatives designed to create a new generation of black business owners, and efforts to create a skilled, better-paid black workforce within the industry. The last section familiarizes readers with the

major growing areas of South Africa and the most important producers operating in each one. It opens with a description of the Wine of Origin system, which designates three tiers of major appellations: Regions, Districts and Wards. Descriptions of individual regions and the producers based within each of them follow. A glossary explains important terms that are specific to the South African wine industry.
