Get Paid to Play Poker Mark Dupont, 2022-03-09 Welcome to this free report. I'm about to tell you how you can make money playing online poker, but before you continue reading, I assume that you have a basic understanding of Texas Hold'em poker. The purpose of this book is not to teach you how to play poker, but rather how to build an online poker bankroll for free. If you are not familiar with the game or require a brush-up, you can download a free poker guide here: <http://www.ebooks-made-easy.com/poker> This report relies on first time bonus offers and reload bonuses. In order to provide you with the most up-to-date information I have partnered with a great website organization called BankrollMob. BankrollMob is one of the fastest growing poker communities online. This totally free online community also provides monthly prize drawings, a poker forum where you can get poker advice and ask questions, and most importantly, provides bonus opportunities. But let me explain first how online poker sites make a profit from hosting virtual poker tables. Online poker rooms make money by taking a small percentage out of each poker pot. This is called the rake. The amount of rake taken from each poker pot varies from poker site to poker site. Most sites take approximately fifty cents out of every poker pot that reaches five dollars in size. The poker sites do not care who wins or loses, rather they are interested in having lots of players who will generate pots over five dollars. They just want online poker players, lots of players who will generate pots over five dollars. That's it, more players equal more profits for the online poker room. It's that simple.

Internet Poker Lou Krieger, Kathleen Keller Watterson, 2003 Playing Internet poker in real time against real opponents might just represent poker's brave new world. Whether for play-money or real money, it's an environment consisting of virtual tables, player icons representing you and your opponents, and specialized computer algorithms that randomly shuffle the cards. It's a world where you can find a game day or night. Though it may be the wee hours of the morning in California, it's prime time in Europe, and someone, somewhere, is looking to play a little poker. But it's poker with a difference. The game is the same, to be sure, but technology does kick in -- sometimes in strange and unexpected ways. A reference as well as a tutorial, this book includes a CD with free poker software, and a special bonus chapter with 125 interactive hands to help you prepare to play the Internet games for fun or for profit.

Exploitative Play in Live Poker Alexander Fitzgerald, 2018-11-19 Many poker players can make good decisions at the table with a reasonable frequency. Nevertheless, there are numerous situations where even very experienced players behave in predictable ways. These deeply-ingrained habits lead them to make mistakes. The problem is that these situations won't often arise at the table by chance – you have to make them happen. *Exploitative Play in Live Poker* is a ground-breaking work that teaches you how to create the circumstances where your opponents will be likely to blunder and how to exploit them when they do. To achieve this you will need to put to one side starting hand charts, balance and GTO (Game Theory Optimal) play. Instead you will incorporate new concepts that may well place you outside your comfort zone. However, your style will now be forcing the other players at the table outside of their comfort zone and, unlike you, they won't know how to adapt. Learn how to: Counter the auto-continuation-bettor Develop a powerful donk-betting strategy Use the overbet, the check-raise and the three-barrel effectively As well as being a highly successful player, Alex Fitzgerald runs a poker consultancy that serves more than 1,000 professional poker players in 60 countries. As part of this work, he has very likely trawled through more hand history databases than anyone else. This gives him a unique insight into how players really play, especially when placed under pressure and forced into unfamiliar situations.

About Online Poker Nicolae Sfetcu,2014-05-03 This book is intended to be an introduction to the poker game, emphasizing on the online poker, the betting structure, poker variants, poker strategy and specific poker tournaments. Online poker is the game of poker played over the Internet. Online poker rooms tend to be viewed as more player-friendly and allow the players to play for very low stakes. It has been partly responsible for a dramatic increase in the number of poker players worldwide. While the practice of comping players with free meals, hotel rooms, and merchandise is quite common in B&M casinos, online poker rooms have needed to develop new ways to reward faithful customers. The most common way of doing this is through deposit bonuses, where the player is given a bonus code to enter when placing money into an account. One common feature of the online poker sites is to offer tournaments called satellites by which the winners gain entry to real-life poker tournaments. Online poker rooms reward customers through deposit bonuses, where the player is given a bonus code to enter when placing money into an account.
