I'm Not An Actor (I Just Play One On TV) dave e. keliher,2016-01-14 This is the part of the story of my life. But there is more to it than that. I mean, like, there's things about me as a kid and as a teen and as twenty-year old. And since this description has to be at least 200 characters I just have to keep typing until I can stop. Like now.

Play For Today Irene Shubik,2000 Writing from first-hand experience, the author describes the role of the producer in the making of an original television play, from the initial discussions with writers to the transmission. Irene Shubik worked on Play for Today for the BBC and was also a drama producer for ITV.

Handbook of Children and the Media Dorothy G. Singer,Jerome L. Singer,2011-07-25 Cyber-bullying, sexting, and the effects that violent video games have on children are widely discussed and debated. With a renowned international group of researchers and scholars, the Second Edition of the Handbook of Children and the Media covers these topics, is updated with cutting-edge research, and includes comprehensive analysis of the field for students and scholars. This revision examines the social and cognitive effects of new media, such as Facebook, Twitter, YouTube, Skype, iPads, and cell phones, and how children are using this new technology. This book summarizes the latest research on children and the media and suggests directions for future research. This book also attempts to provide students with a deliberate examination of how children use, enjoy, learn from, and are advantaged or disadvantaged by regular exposure to television, new technologies, and other electronic media.

Play = Learning Dorothy Singer,Roberta Michnick Golinkoff,Kathy Hirsh-Pasek,2006-08-24 In Play=Learning, top experts in child development and learning contend that in over-emphasizing academic achievement, our culture has forgotten about the importance of play for children's development.

Play-by-Play Ronald A. Smith,2003-05-22 Noted sports historian writes on the relationship of the media to college athletics. Chosen as an Outstanding Academic Title for 2003 by Choice Magazine The phenomenal popularity of college athletics owes as much to media coverage of games as it does to drum-beating alumni and frantic undergraduates. Play-by-play broadcasts of big college games began in the 1920s via radio, a medium that left much to the listener's imagination and stoked interest in college football. After World War II, the rise of television brought with it network-NCAA deals that reeked of money and fostered bitter jealousies between have and have-not institutions. In Play-by-Play: Radio, Television, and Big-Time College Sport noted author and sports insider Ronald A. Smith examines the troubled relationship between higher education and the broadcasting industry, the effects of TV revenue on college athletics (notably football), and the odds of achieving meaningful reform. Beginning with the early days of radio, Smith describes the first bowl game broadcasts, the media image of Notre Dame and coach Knute Rockne, and the threat broadcasting seemed to pose to college football attendance. He explores the beginnings of television, the growth of networks, the NCAA decision to control football telecasts, the place of advertising, the role of TV announcers, and the threat of NCAA Robin Hoods and the College Football Association to NCAA television control. Taking readers behind the scenes, he explains the culture of the college athletic department and reveals the many ways in which broadcasting dollars make friends in the right places. Play-by-Play is an eye-opening look at the political infighting invariably produced by the deadly combination of university administrators, athletic czars, and huge revenue.

State of play Robin Nelson,2013-07-19 Robin Nelson's State of play up-dates and develops the arguments of his influential TV Drama In Transition (1997). It is equally distinctive in setting analysis of the aesthetics and compositional principles of texts within a broad conceptual framework (technologies, institutions, economics, cultural trends). Tracing the great value shift from conduit to content (Todoreas, 1999), Nelson is relatively optimistic about the future quality of TV Drama in a global market-place. But, characteristically taking up questions of worth where others have avoided them, Nelson recognizes that certain types of quality are privileged for viewers able to pay, possibly at the expense of viewer preference worldwide for local resonances in television. The mix of arts and cultural studies methodologies makes for an unusual and insightful approach.

Radical Play Rob Goldberg,2023-07-28 In Radical Play Rob Goldberg recovers a little-known history of American children's culture in the 1960s and 1970s by showing how dolls, guns, action figures, and other toys galvanized and symbolized new visions of social, racial, and gender justice. From a nationwide movement to oppose the sale of war toys during the Vietnam War to the founding of the company Shindana Toys by Black Power movement activists and the efforts of feminist groups to promote and produce nonsexist and racially diverse toys, Goldberg returns readers to a defining moment in the history of childhood when politics, parenting,

and purchasing converged. Goldberg traces not only how movement activists brought their progressive politics to the playroom by enlisting toys in the era's culture wars but also how the children's culture industry navigated the explosive politics and turmoil of the time in creative and socially conscious ways. Outlining how toys shaped and were shaped by radical visions, Goldberg locates the moment Americans first came to understand the world of toys—from Barbie to G.I. Joe—as much more than child's play.

Terrorism TV Stacy Takacs, 2012-04-30 The Fox-TV series 24 might have been in production long before its premier just two months after 9/11, but its storyline—and that of many other television programs—has since become inextricably embedded in the nation's popular consciousness. This book marks the first comprehensive survey and analysis of War on Terror themes in post-9/11 American television, critiquing those shows that—either blindly or intentionally—supported the Bush administration's security policies. Stacy Takacs focuses on the role of entertainment programming in building a national consensus favoring a War on Terror, taking a close look at programs that comment both directly and allegorically on the post-9/11 world. In show after show, she chillingly illustrates how popular television helped organize public feelings of loss, fear, empathy, and self-love into narratives supportive of a controversial and unprecedented war. Takacs examines a spectrum of program genres—talk shows, reality programs, sitcoms, police procedurals, male melodramas, war narratives—to uncover the recurrent cultural themes that helped convince Americans to invade Afghanistan and Iraq and compromise their own civil liberties. Spanning the past decade of the ongoing conflict, she reviews not only key touchstones of post-9/11 popular culture such as 24, Rescue Me, and Sleeper Cell, but also less remarked-upon but relevant series like JAG, Off to War, Six Feet Under, and Jericho. She also considers voices of dissent that have emerged through satirical offerings like The Daily Show and science fiction series such as Lost and Battlestar Galactica. Takacs dissects how the War on Terror has been broadcast into our living rooms in programs that routinely offer simplistic answers to important questions—Who exactly are we fighting? Why do they hate us?—and she examines the climate of fear and paranoia they've created. Unlike cultural analyses that view the government's courting of Hollywood as a conspiracy to manipulate the masses, her book considers how economic and industry considerations complicate state-media relations throughout the era. Terrorism TV offers fresh insight into how American television directly and indirectly reinforced the Bush administration's security agenda and argues for the continued importance of the medium as a tool of collective identity formation. It is an essential guide to the televisual landscape of American consciousness in the first decade of the twenty-first century.

The BBC Shakespeare Plays Susan Willis, 1991 Examines the BBC productions of all thirty-seven Shakespeare plays, discussing how the plays were adapted for television and the different approaches taken by each play's director

They Gave Us a Television Station to Play With Richard Creswick, 2021-07 This book tells the story of the arrival of ABC television in Darwin in 1971 putting it into a social, historical and cultural context. It is told from a personal perspective so is partly auto-biographical.

Political Authority and Provincial Identity in Thailand Yoshinori Nishizaki, 2018-08-06 The powerful Thai politician Banharn Silpa-archa has been disparaged as a corrupt operator who for years channeled excessive state funds into developing his own rural province. This book reinterprets Banharn's career and offers a detailed portrait of the voters who support him. Relying on extensive interviews, the author shows how Banharn's constituents have developed a strong provincial identity based on their pride in his advancement of their province, Suphanburi, which many now call Banharn-buri, the place of Banharn. Yoshinori Nishizaki's analysis challenges simplistic perceptions of rural Thai voters and raises vital questions about contemporary democracy in Thailand. Yoshinori Nishizaki's close and thorough examination of the numerous public construction projects sponsored and even personally funded by Banharn clearly illustrates this politician's canny abilities and tireless, meticulous oversight of his domain. Banharn's constituents are aware that Suphanburi was long considered a backward province by other Thais—notably the Bangkok elite. Suphanburians hold the neglectful central government responsible for their province's former sorry condition and humiliating reputation. Banharn has successfully identified himself as the antithesis to the inefficient central state by promoting rapid development and advertising his own role in that development through well-publicized donations, public ceremonies, and visits to the sites of new buildings and highways. Much standard literature on rural politics and society in Thailand and other democratizing countries in Southeast Asia would categorize this politician as a typical strongman, the boss of a semiviolent patronage network that squeezes votes out of the people. That standard analysis would utterly fail to recognize and understand the grassroots realities of Suphanburi that Nishizaki has captured in his study. This compassionate, well-grounded analysis challenges simplistic perceptions of rural Thai voters and raises vital questions about contemporary democracy in Thailand.
