**Online Gaming in Context** Garry Crawford,Victoria K Gosling,Ben Light,2013-03-01 There is little question of the social, cultural and economic importance of video games in the world today, with gaming now rivalling the movie and music sectors as a major leisure industry and pastime. The significance of video games within our everyday lives has certainly been increased and shaped by new technologies and gaming patterns, including the rise of home-based games consoles, advances in mobile telephone technology, the rise in more 'sociable' forms of gaming, and of course the advent of the Internet. This book explores the opportunities, challenges and patterns of gameplay and sociality afforded by the Internet and online gaming. Bringing together a series of original essays from both leading and emerging academics in the field of game studies, many of which employ new empirical work and innovative theoretical approaches to gaming, this book considers key issues crucial to our understanding of online gaming and associated social relations, including: patterns of play, legal and copyright issues, player production, identity construction, gamer communities, communication, patterns of social exclusion and inclusion around religion, gender and disability, and future directions in online gaming.

GOOD INSIDE Becky Kennedy,2023-10-02 Selama beberapa tahun terakhir, Dr. Becky Kennedy–pakar pengasuhan anak yang sangat populer lewat akun @drbeckyatgoodinside–telah memicu revolusi pengasuhan anak. Jutaan orang tua, yang lelah mengikuti berbagai teori pengasuhan lama dan tetap gagal dilakukan, telah menerima pendekatan Dr. Becky yang memberdayakan dan efektif. Sebuah model yang memprioritaskan hubungan dengan anak dibanding

terus menerus mengoreksi apa saja yang mereka lakukan. Cukup banyak pendekatan pengasuhan anak yang berpijak pada pembentukan perilaku, bukannya membesarkan manusia. Berfokus pada perilaku bermasalah, bukannya penyebabnya, justru membuat anak semakin menjauh dan orang tua kerap dihantui perasaan gagal. Dalam buku ini, kita akan belajar mengenai: Menciptakan hubungan yang hangat dan sehat antara orang tua dan anak Membangun kesadaran bahwa semua anak bermasalah pada dasarnya baik Berbagai ilustrasi konflik dan apa yang harus dikatakan kepada anak Mengembangkan ketrampilan hidup: kemampuan meregulasi emosi, memiliki kepercayaan penuh pada diri, dan tangguh saat diterpa masalah. Good Inside akan membantu orang tua beralih dari kebingungan dan perasaan “gagal menjadi orang tua” ke kepercayaan diri dan mampu memimpin keluarga dengan kokoh.

**Gamers** Garry Crawford, Victoria K Gosling, Ben Light, 2013-03 Over only a few decades, digital gaming has become a major global leisure activity that now rivals the movie and music sectors. Due to this increasingly widespread popularity, gaming has in recent years become the focus of increased academic interest and activity, but still little is know about those who play digital games. Online Gaming in Context is the first book to explicitly and comprehensively address how digital games are experienced and engaged with in the everyday lives, social networks, and consumer patterns of those who play them. In doing so, the book provides a key introduction to the study of

gamers and the games they play, whilst also reflecting on the current debates and literatures surrounding the virtual world--

*Anatomy of a Rescue* Carlos M. Perez,2004-09 This thesis presents a theory to help military leaders determine the best time to conduct a hostage rescue attempt. The theory is based on the phenomenon of a hostage crisis biorhythm. According to the theory, there are four principles essential for hostage rescue mission success: surprise, intelligence, operator's skill, and deception. These principles are derived from planning models used in special operations, personal experience, and an analysis of six historical case studies. The case studies show that if any one of these four principles was overlooked, the operation was doomed. The principles have been determined to be the most critical factors that change as a hostage crisis develops. The focus of this thesis is an in-depth case study of the hostage rescue operation Chavin de Huantar in Lima, Peru. This case study presents compelling evidence to reinforce the author's hypothesis, and serves as a model for successful rescue operations. Another focus of this thesis is the use of game theory analysis during a hostage crisis. The findings of the

thesis will help decision makers plan and organize hostage rescue forces to act at the appropriate time, maximizing their chances of success. In addition, it will provide a useful planning model that can be implemented effectively and accurately, presenting a clear picture of possible outcomes throughout a hostage crisis. It is hoped that this thesis will help the reader become a better strategist during the planning, preparation, and execution of a hostage rescue operation. The other case studies that are analyzed according to the biorhythm theory are Operation Eagle Claw, launched to rescue the Iran hostages in Tehran in April 1980; the De Punt train hijacking in Holland in May-June 1977; the Munich Olympics Massacre in West Germany in Sep 1972; Egypt Air Flight 648 at Malta in Nov 1978; and Operation Fire Magic, Lufthansa Flight 181, Mogadishu, Somalia in Oct 1977. Playing Harry Potter Lisa S. Brenner, 2015-06-11 Through classroom activities, wizard rock concerts, and organizations like the Harry Potter Alliance, Harry Potter fans are using creativity to positively impact the world. This collection of essays and interviews examines how playful fandom--from fanfiction to Muggle quidditch, cosplay, role-playing games, and even Harry Potter burlesque--not only reimagines the canon but also challenges consumerism, questions notions of identity, and fosters participatory culture. The contributors explore issues applicable to fan studies and performance studies at large, such as the role of performance, the nature of community, and questions of representation and ownership in the digital age. Presented in three parts, the essays discuss discrepancies between sanctioned versions of Harry Potter and fan creations, the reenactment and

reinterpretation of the original narrative in fan performance, and collaborative and participatory performances that break down the boundaries between actors and audiences.
