Scottish Rock Gary Latter,2008-03 The best mountain, crag, sea cliff and sport climbing in Scotland. From the Foreword by Hamish MacInnes . If you have an ambition to do all the climbs in these two Scottish Rock guides I think you'd better schedule time off in your next life. This labour of Gary's has been of gargantuan proportions. Those of you who use the guides will benefit by his dedication and the sheer choice offered; if you divide the retail price of these by the number of good routes you'll realise this is a bargain. Volume 1 covers a proliferation of Scottish crags up to the natural demarcation of the Great Glen. They are easier to access than most in Volume 2 and present infinite variety. I have been a long-time advocate of selected climbs and the use of photographs to illustrate both climbs and action. I'm glad that this principle has been used throughout these two volumes. It gives you a push to get up and do things. The list seems endless and if you succeed in doing half of them you'll be a much better climber and know a lot more about Scotland - have a good decade!
