**Point Blank** Gary Kleck, 2017-07-12 By 1990 there were approximately 200 million guns in private hands in the United States, and around half of American households contained a gun. Over 30,000 people a year are killed with guns in suicides, homicides, and accidents, and Americans use guns for defensive purposes as many as a million times a year. There is little doubt that gun violence and control are issues of vital importance, and they continue to inspire national debate. It is doubtful, however, that most gun debates are worth listening to. Not surprisingly, they generally leave their participants exactly where they began, with their biases intact, and onlookers perplexed. Written deliberately to counter an atmosphere of hysteria and extremism, *Point Blank*, now in paperback, offers logical argument supported by empirical information. It confronts fundamental questions head-on. On its initial publication in 1993, *Point Blank* won the Michael J. Hindelang Award of the American Society of Criminology for the book that made the most outstanding contribution to criminology. *Point Blank* reports both original research and assesses existing evidence drawn from a wide variety of academic disciplines, including criminology, sociology, law, and medicine.

**Point Blank** Catherine Coulter, 2007-01-02 Agents Lacey Sherlock and Dillon Savich are up against an unstable villain with a very long memory in this FBI Thriller from #1 New York Times bestselling author Catherine Coulter. The explosive action kicks off as treasure-hunting FBI agent Ruth Warnecki is on the trail of stolen Confederate gold hidden in Winkel's cave in western Virginia. She never expects to find herself chin-deep in a grisly murder that leaves her nearly dead and rocks the town of Maestro. Then, at a stake-out in Maryland, FBI agents Dillon Savich and Dane Carver are nearly killed in a horrific explosion while attempting to rescue kidnap victim, Pinky Womack. They are led to Arlington National Cemetery where they not only find Pinky, but Savich also takes a fateful call on his cell from an old man out to kill both him and Sherlock. The thing is they have no clue why. Pitted against an insane killer and his psychotic teenage girlfriend, Savich and Sherlock find themselves fighting a hate-driven villain with a grudge worth killing for...

*Lee Marvin* Dwayne Epstein, 2013-01-01 The first full-length, authoritative, and detailed story of the iconic actor's life to go beyond the Hollywood scandal-sheet reporting of earlier books, this account offers an appreciation for the man and his acting career and the classic films he starred in, painting a portrait of an individual who took great risks in his acting and career. Although Lee Marvin is best known for his icy tough guy roles—such as his chilling titular villain in *The Man Who Shot Liberty Valance* or the paternal yet brutally realistic platoon leader in *The Big Red One*—very little is known of his personal life; his family background; his experiences in WWII; his relationship with his father, family, friends, wives; and his ongoing battles with alcoholism, rage, and depression, occasioned by his postwar PTSD. Now, after years of researching and compiling interviews with family members, friends, and colleagues; rare photographs; and illustrative material, Hollywood writer Dwayne Epstein provides a full understanding and appreciation of this acting titan's place in the Hollywood pantheon in spite of his very real and human struggles.

**Point Blank** Anthony Horowitz,2006-02-16 Alex Rider is now an IMDb TV/Amazon Original Series! Alex Rider is an orphan turned teen superspy who's saving the world one mission at a time—from #1 New York Times bestselling author! When an investigation into a series of mysterious deaths leads agents to an elite prep school for rebellious kids, MI6 assigns Alex Rider to the case. Before he knows it, Alex is hanging out with the sons of the rich and powerful, and something feels wrong. These former juvenile delinquents have turned well-behaved, studious—and identical—overnight. It's up to Alex to find out who is masterminding this nefarious plot, before they find him. From the author of Magpie Murders and Moriarty.

Point Blank Mark A. Rempel,2002-06-30 All Seth Anderson wanted to do was to graduate. Point Blank takes us into the final weeks of his senior year as Seth finishes his last assignment—a project for his philosophy class exploring the question, What is the meaning of life? Suddenly Seth finds himself in the middle of the worst school shooting in the history of America and forced to find meaning for his own life, while staring point blank at the barrel of a gun. What would you say if a gun was pointed at your head, Point Blank?

**Springsteen** Christopher Sandford,2000 In 1975 a pop loving beach boy made his last-gasp shot at stardom - an album called BORN TO RUN! The rest, as they say, is history. At a time when other ageing rock stars have yielded to burn-out or self-parody, Bruce Springsteen has held his place as a cultural icon. His earth-shattering albums like BORN IN THE USA (which spent 136 weeks in the British charts) still enjoy raucous airplay. Meanwhile, Springsteen has carved out a second career as a social critic, balladeer and purveyor of soundtracks. His work, which has been covered by artists from Frank Sinatra to Sonic Youth, sells a total of 15 million albums annually. His concerts are instant sell-outs the world over. Springsteen's distinctive tearaway anthems and foghorn voice are among pop's most enduring sounds. From cult figure to pin-up (aka 'The Boss') to mega-selling guru, Springsteen is the last true rock star. Christopher Sandford's is the first full-length biography in ten years.

**Point Blank** Eric G. Wilson,2023-09-07 John Boorman's Point Blank (1967) has long been recognised as one of the seminal films of the sixties, with its revisionary mix of genres including neo-noir, New Wave, and spaghetti western. Its lasting influence can be traced throughout the decades in films like Mean Streets (1973), Reservoir Dogs (1992), Heat (1995), The Limey (1999) and Memento (2000). Eric Wilson's compelling study of the film examines its significance to New Hollywood cinema. He argues that Boorman revises traditional Hollywood crime films by probing a second connotation of 'point blank'. On the one hand, it is a neo-noir that aptly depicts close range violence, but, it also points toward blankness, a nothingness that is the consequence of corporate America

unchecked, where humans are reduced to commodities and stripped of agency and playfulness. He goes on to reimagine the film's experimental style as a representation of and possible remedy for trauma. Examining Boorman's formal innovations, including his favouring of gesture over language and blurring of boundaries between dream and reality, he also positions the film as a grimly comical exploration of toxic masculinity and gender fluidity. Wilson's close reading of Point Blank reveals it to be a film that innovatively inflects its own generation and speaks powerfully to our own, arguing that it is this amplitude, which encompasses the many major films it has influenced, that qualifies the film as a classic.

**Point Blank** Catherine Coulter, 2005 FBI agents Dillon Savich and Dane Carver are nearly killed while trying to rescue popular entertainer Pinky Womack from kidnappers. When a snitch leads them to a motel, they discover only a glowing red timer, and miraculously escape as the building explodes. Then the threats against agent Savich and his wife, fellow agent Lacey Sherlock, begin, and they soon find themselves fighting an unstable villain with a very long memory.
