Thanks to Frances Perkins Deborah Hopkinson,2020-07-07 An engaging picture book biography of Frances Perkins, the activist and first female United States cabinet member who created the Social Security program. From award-winning author Deborah Hopkinson. At 31, Frances Perkins witnessed the Triangle Waist Factory fire in 1911, one of the worst industrial disasters in United States history. The event forever changed her, and she dedicated herself to the fight for workers' rights. When she became Secretary of Labor in Franklin Delano Roosevelt's administration, she had the opportunity to make real her bold vision of a country where no one is left out and everyone is protected. Thanks to her efforts, we have the Social Security program, a move that changed Americans' lives for generations to come. Deborah Hopkinson's energetic text and Kristy Caldwell's appealing illustrations unite to tell Perkins' fascinating story as well as introduce early concepts of financial literacy, the Social Security Act, and the New Deal. Back matter features more information about Frances Perkins, Social Security, and resources for economic education.

A Dictionary of Cebuano Visayan John Wolff,2016-01-27 This is a dictionary of Cebuano Visayan, the language of the central part of the Philippines and much of Mindanao. Although the explanations are given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. The work was edited by John Wolff but the sources are entirely native, and all illustrations are composed by native speakers. To date, this work probably represents the most authoritative dictionary of the Cebuano Visayan language.

The Garden of My Imaan Farhana Zia,2016-03-01 It's hard enough to fit in without also having to decide whether to fast for Ramadan or wear the hijab. Aliya already struggles with trying to fit in, feeling confident enough to talk to the cute boy or brave enough to stand up to mean kids—the fact that she's Muslim is just another part of her life. But then Marwa, a Moroccan girl who shares Aliya's faith if not her culture, moves to town. Marwa's quiet confidence leads Aliya to wonder even more about who she is, what she believes, and where she fits in. In a series of letters to Allah she writes for a Sunday school project, Aliya explores her dreams and fears, hoping that with hard work and faith, something beautiful will grow in the garden of imaan—the small quiet place inside where belief unfolds, one petal at a time. This award-winning novel from author and educator Farhana Zia captures the social and identity struggles of middle school with a fresh, new voice.

Collected Fictions Jorge Luis Borges,1999-09-01 For the first time in English, all the fiction by the writer who has been called “the greatest Spanish-language writer of our century” collected in a single volume “An event, and cause for celebration.”—The New York Times A Penguin Classics Deluxe Edition with flaps and deckle-edged paper For some fifty years, in intriguing and ingenious fictions that reimagined the very form of the short story—from his 1935 debut with *A Universal History of Iniquity* through his immensely influential collections *Ficciones* and *The Aleph*, the enigmatic prose poems of *The Maker*, up to his final work in the 1980s, *Shakespeare's Memory*—Jorge Luis Borges returned again and again to his celebrated themes: dreams, duels, labyrinths, mirrors, infinite libraries, the manipulations of chance, gauchos, knife fighters, tigers, and the elusive nature of identity itself. Playfully experimenting with ostensibly subliterate genres, he took the detective story and turned it into metaphysics; he took fantasy writing and made it, with its questioning and reinventing of everyday reality, central to the craft of fiction; he took the literary essay and put it to use reviewing wholly imaginary books. Bringing together for the first time in English all of Borges's magical stories, and all of them newly rendered into English in brilliant translations by Andrew Hurley, *Collected Fictions* is the perfect one-volume compendium for all who have long loved Borges, and a superb introduction to the master's work for all who have yet to discover this singular genius. For more than seventy-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 2,000 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Essentials of Human Memory (Classic Edition) Alan Baddeley,2013-07-31 This Classic Edition of the best-selling textbook offers an in-depth overview of approaches to the study of memory. With empirical research from both the real world and the neuropsychological clinic, the book explains the fundamental workings of human memory in a clear and accessible style. This edition contains a new introduction and concluding chapter in which the author reflects on how the book is organized, and also on how the field of memory has developed since it was first published. *Essentials of Human Memory* evolved from a belief that, although the amount we know about memory has increased enormously in recent years, it is still possible to explain it in a way that would be fully understood by the general reader. After a broad overview of approaches to the study of memory, short-term and working memory are discussed, followed by learning, the role of organizing in remembering and factors influencing forgetting, including emotional variables and claims for the role of repression in what has become known as the false memory syndrome. The way in which knowledge of the world is stored is

discussed next, followed by an account of the processes underlying retrieval, and their application to the practical issues of eyewitness testimony. The breakdown of memory in the amnesic syndrome is discussed next, followed by discussion of the way in which memory develops in children, and declines in the elderly. After a section concerned with mnemonic techniques and memory improvement, the book ends with an overview of recent developments in the field of human memory. Written by the leading expert in human memory, recently awarded the British Psychological Society Research Board Lifetime Achievement Award, *Essentials of Human Memory* will be of interest to students of Cognitive Psychology, Neuropsychology, and anyone with an interest in the workings of memory.

Metaphors We Live By George Lakoff,Mark Johnson,2008-12-19 The now-classic *Metaphors We Live By* changed our understanding of metaphor and its role in language and the mind. Metaphor, the authors explain, is a fundamental mechanism of mind, one that allows us to use what we know about our physical and social experience to provide understanding of countless other subjects. Because such metaphors structure our most basic understandings of our experience, they are metaphors we live by—metaphors that can shape our perceptions and actions without our ever noticing them. In this updated edition of Lakoff and Johnson's influential book, the authors supply an afterword surveying how their theory of metaphor has developed within the cognitive sciences to become central to the contemporary understanding of how we think and how we express our thoughts in language.
