The Poker MBA Greg Dinkin, Jeffrey H. Gitomer, 2002 Bestselling author Jeffrey Gitomer and poker professional-management consultant Greg Dinkin offer the first business book that describes how the strategies and skills you need to win at poker are the same ones you need to succeed in business. The Poker Principle teaches readers to win in business by using skills acquired at the poker table. Without having to risk any of their bankroll, they will see that shrewd poker players -- and their business counterparts -- are not born that way; they learned their skills. Using concrete examples of poker hands and business situations, authors Gitomer and Dinkin show how businesspeople can improve their: -- Strategic thinking and decision-making-- Ability to know what other people are thinking-- Negotiating skills-- Capacity to balance risk and reward An MBA is fine, but a poker MBA is better. The first step to business success is knowing how to read others, when to play aggressively, when to fold what looked like a promising hand, and how to keep a poker face no matter how high the stakes.

The Poker Player Game Strategies for Beginners Art Stovall, 2015-10-10 The contents of this book serve as anecdote to the widely held views that the gambler is always the best chip manager. Employing the rules of the poker player game and strategies in this book will enable the novice player to become a chip manager that rivals even the professional who plays the poker game as a sport. The player that uses an aggressive betting attack strategy designed a: to counter the gambler's inappropriate aggression and b: to change the sequence of a gambler's strategy executions, which should cause gamblers to throw their starting cards in the dead card stack. Strategies in this book, when applied successfully, allows a player the privilege of taking a principal position that provides the advantage of the last betting action. These pre and post flop continuation betting strategies reduce gambling opponents value range assessment for a positive chip-gathering effort. Though there are more than one gambler in a game; these rules of engagement are presented for beginning players to improve their potential or profits. The difference between the gamblers and players' are that gamblers take unnecessary risk without regard for value range assessments for positive chip-gathering efforts. The player on the other hand is self-disciplined, patient and focused while waiting to go after the highly populated pots with many chips. This book surpasses all others in that it deals with the humanistic input, gambling addiction and the impact on the sport's game player's positive chip-gathering efforts.

The Poker Party is Over Alan N. Schoonmaker, 2012-03 Poker is much more than knowing the right strategies; it's also knowing how to actualize those strategies. The game is full of losing players who know how to play, yet can't seem to induce themselves to consistently make the right plays. Black Friday and the current state of the U.S. economy have changed the sub-culture in which we live and play. The dynamics of the poker world have drastically changed. Internet poker is not the cash cow it used to be, thereby changing the face of live poker. The games got tougher as Internet pros gravitated to the live action, the only action they can currently find. A player looking to become a major winner in live poker this involves changes in skill sets and mindsets. For the B&M players it involves adjusting to the skills and styles of former online players. The Internet game and the live game, though related, have very different fundamentals, not to mention all the innumerable different nuances. And, because there are fewer weak players, everybody must adjust to tougher games. This book will show you how to adjust to today's tougher games and create a new understanding about yourself and your opponents' minds. Being in tune with yourself will greatly improve your poker game. Being in tune with your opponents' minds will cause you to crush them.
