**Understanding Biographies** Birgitte Possing, 2017 In modern and postmodern times, biography is one of the most popular genres of the day. The Western world is engaged in the lives of ordinary and well-known people, causing biographies to fly off the shelves. In *Understanding Biographies*, the Danish historian and biographer Birgitte Possing uncovers the essence of biography as a genre, spanning a number of radically different types of life-storytelling. She defines biography as a genre, a narrative form and an analytic field, providing guidelines to an understanding of gender, archetypes, narrative traditions, critique and ethics of the field. *Understanding Biographies* is not a cook book with just one recipe for 'how to write a biography.' It does not provide simple answers to questions on how, why or upon which sources biographies should be written or read. On the contrary, this book shows the numerous styles and wide-ranging conventions around the Western world in which biographies are accomplished. Birgitte Possing interprets the biographical renaissance during the last thirty years as completely in keeping with the individualizing zeitgeist around the millennium shift. She identifies and reflects on the traditions that have been applied in international writing and reading of biographies, with examples from a wide range of Western and Nordic countries. \*\*\* Wielding her expertise in history and precise language, Possing digs to the center of biography and its place in society, both currently and historically. --World Literature Today Magazine, Nota Bene section, September/October 2017 (Series: Studies in History and Social Sciences, Vol. 538) [Subject: Literature, Literary Criticism, Biography, Writing]

**Qualitative Analysis in the Making** Daniella Kuzmanovic, Andreas Bandak, 2014-10-10 How do scholars transform qualitative data into analysis? What does making analysis imply? What happens in the space in-between data and finalized analysis is notoriously difficult to talk about. In other parts of the research process, scholars and students are aided by method books that describe the technicalities of generating, processing and sorting through data, handbooks that teach academic writing, and scholarly works that offer meta-level, theoretical perspectives. Yet the path from qualitative data to analysis remains 'a black box.' *Qualitative Analysis in the Making* ventures into this black box. The volume provides a means of speaking about how analyses emerge in the Humanities. Contributors from disciplines such as anthropology, history, and sociology of religion all employ an analytical double take. They revisit one of their analyses, analyzing how this particular analysis came into being. Such analyses of an analysis are neither confessions nor step-by-step recounts of what happened. Rather, the volume argues that speaking of the space in-between requires analytical displacement, and the employment of fresh analytical takes. This approach contributes to demystifying the path from qualitative data to finalized analysis. It invites novel epistemological reflections among scholars, and assists students in improving their analytical skills.

**A Guide to Non-Jazz Improvisation: Flute Edition** DICK WEISSMAN, 2011-01-04 The non-jazz improvisation series is a concept that germinated in Dick Weissman's mind while he was attending music school. He wrote a 15-piece arrangement of the old square dance tune, Cripple Creek, and wanted the trombone to take a solo as part of the arrangement. When the trombonist kept playing a bebop solo that was totally unsuitable for the chart, Dick realized that - in addition to the many musicians who do not improvise - there are even jazz musicians who don't know how to improvise outside the limits of their own stylistic backgrounds. The non-jazz improvisation series mostly includes new original tunes that are intended to show how to improvise in many musical styles, including; Blues, Country, American folk, Latin-American, World music including South American, Eastern European and Asian. Odd meters (playing in a variety of time signatures). New Age, Classical, Folk-Rock. In short, the books are an encyclopedia of virtually every musical style, excluding jazz.

**A Guide to Non-Jazz Improvisation: Piano Edition** DICK WEISSMAN, 2010-12-29 This book will appeal to pianists who want to learn to improvise in many of the styles current today including blues, rock, Latin-American, country, New Age, World Music, etc. The non-jazz improvisation series is a concept that germinated in Dick Weissman's mind while he was attending music school. **Doris and the Passing-Tub** Michael J. Kerwood, 2018-10-25 Followers of this chronicle may remember how Joseph's story, *Polly on the Mopstick*, concluded at 6.10pm on Monday, April 4th. 1881 with the three Kerwood brothers, Thomas, John and William finalising their first day of toil at their new callings at Olde New Farm in Noake village, Oxfordshire. And readers may also recall, Thomas, in his new-found role of Estate Manager, on vacating his office, had taken off his baggy ratting cap and tousled his greying hair in the warm spring breeze then wiped his moist forehead with his grubby jacket sleeve. He had heaved a thankful sigh that the day would be heralded as a great success. All had gone well and a suitable amount of progress had been made. The three brothers had to agree that if things carried on as they had begun then there was definitely a future for them working for Isaac Jakeman and his innovative project. Even so, Thomas accepted that all the unprecedented fortitude that was dropping at his immediate family's feet, as it was similarly at John's and William's, may at some stage come to an abrupt and crashing finality. 'When, and more importantly, at what cost?' he reflected. Nothing was ever etched in marble. Heartache he could handle... heartbreak was a totally different matter altogether. He couldn't help but fret that it might not be too long before he found himself falling foul of one or the other... if not both simultaneously. *Polly on the Mopstick* had revolved around John Kerwood's son, Joseph, who was eight years old in 1881. In 1951, at the age of 78, when the paperback cover photos were taken, he may possibly have been the last remaining member of the Oxfordshire branch of the Kerwood family who were alive in 1881. He is pictured on the front cover of the paperback edition with his wife Eliza. His attire speaks volumes apropos his arduous lifestyle. On the reverse cover joining them in a family group is their youngest son, William, along with their eldest, John, standing behind their youngest daughter, Doris. Front and centre is Michael, William's only son and Joseph & Eliza's only grandson. *Doris and the passing-tub*, is Eliza's recollection of events and it reflects her life from a young rag-a-muffin right up until she is a beautiful woman of twenty.

**Crossing Borders** Torrey Seland,2022-09-30 The intention of this biography is--on the one hand--to describe what happened as Peder Borgen (b. 1928) grew up and tried to establish himself as a theologian and a New Testament scholar in his Norwegian and Lutheran state-church context. On the other hand, it also describes how his development and life as a student of the New Testament and Philo of Alexandria were influenced by his minority background and the borders he had to cross to achieve his goals. Crossing Borders is thus a description of the life and work of a Norwegian Methodist, scholar, church politician, ecumenist, and an internationally acclaimed writer on the Gospel of John and Philo of Alexandria. Students of both the New Testament and Philo of Alexandria should feel enlightened by this volume of how context may influence both a person and his scholarly achievements.

*International Law and History* Ignacio de la Rasilla,2021-01-21 This interdisciplinary exploration of the modern historiography of international law invites a diverse assessment of the indissoluble unity of the old and the new in the most global of all legal disciplines. The study of the history of international law does not only serve a better understanding of how international law has evolved to become what it is and what it is not. Its histories, which rethink the past in the present, also influence our perception of contemporary matters in international law and our understandings of how they may potentially unfold. This multi-perspectival enquiry into the dominant modes of international legal history and its fundamental debates may also help students of both international law and history to identify the historical approaches that best suit their international legal-historical perspectives and best address their historical and legal research questions.
