The Sixth Station Linda Stasi, 2013-12-01 Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.

Theory and Typology of Proper Names Willy Van Langendonck, 2007-01-01 This book proposes a new synthesis of the functions of proper names, from a semantic, pragmatic and syntactic perspective. Proper names are approached constructionally, distinguishing prototypical uses from more marked ones such as those in which names are used as common nouns. Since what is traditionally regarded as 'the' class of names turns out to be only one possible function of name-forms (though a prototypical one), the notion of 'proprial lemma' is introduced as the concept behind both proprial and appellative uses of such categories as place names and personal names. New formal arguments are adduced to distinguish proper name function from common noun or pronoun function. The special status of proper names is captured in a unified pragmatic-semantic-syntactic theory: a proper name denotes a unique entity at the level of langue to make it psychosocially salient within a given basic level category. The meaning of the name, if any, does not determine its denotation. An important formal reflection of this characterization of names is their ability to appear in such close appositional constructions as the poet Burns or Fido the dog. The neurolinguistic finding that proper names constitute a separate category is introduced and interpreted within a general linguistic frame of reference. The different kinds of meanings associated with names (categorical, associative, emotive, and grammatical) are shown to be presuppositional in nature. In addition, the book proposes an entirely new classification of proper names as forming a continuum ranging from prototypical (personal and

place names) to nonprototypical categories (brand and language names) to citations and autonyms, and a new diachronic classification of family names and nicknames. This book fills an important gap in the current literature, because the most recent linguistic book in English on name theory dates back to 1973. It is explicitly interdisciplinary, taking into account linguistic, philosophical, neurolinguistic, sociolinguistic and dialect geographical aspects of proper names.

Apocalypse Jacques Ellul, 2020-05-05 "There has never been a book provoking more delirium, foolishness and irrational movements, without any relationship to Jesus Christ [than the Book of Revelation]." –Jacques Ellul, Introduction Known for his trenchant critique of modernity and of those Christians who celebrate their captivity to it, Ellul here cuts to the heart of the theological intention of the Book of Revelation, and thereby reveals the liberating gospel in all its offensiveness. Neither an exhaustive commentary nor a work of historical-exegetical analysis, Apocalypse is a provocative, independent interpretation. Ellul seeks to rescue Revelation from the reassuring and orthodox banality to which commentators often reduce it. The goal is to perceive the totality of the book in its movement and structure. "Architecture in movement" is the key to understanding Revelation's puzzling but simple message. This edition also comes with a new foreword by Jacob Marques Rollison who provides an essential aid for guiding readers through Ellul's thorough engagement with Revelation.

Rethinking Cultural Policy Jim McGuigan, 2004-03-16 "a fascinating, thorough and expertly argued discussion of the modes and practices of cultural policy in an increasingly globalized and neoliberal world." European Journal of Communication Rethinking Cultural Policy addresses issues concerning culture, economy and power in the age of

new-liberal globalization. It examines how public cultural policies have been rationalized in the past and how they are being rethought. Arguing that the study of culture and policy should not be confined to prevailing governmental agendas, the book offers a distinctive and independent analysis of cultural policy. The book examines a wide range of issues in cultural policy and blends a close reading of key theories with case studies. Topics covered include: Branding culture and exploitation The state, market and civil society How visitor attractions such as London's Millennium Dome are used for national aggrandizement and corporate business purposes Cultural development, diversity and ecological tourism in poorer parts of the world This is the ideal introduction to contemporary cultural policy for undergraduate students in culture and media studies, sociology of culture, politics, arts administration and cultural management courses, as well as postgraduates and researchers.

The Titanic Disaster Hearings William Alden Smith, 1998-03 Merely a day after Titanic survivors arrived in port in New York City, a United States Senate committee began an investigation into the wreck of the great unsinkable ship. For the first time in book form, here is the dramatic testimony of crew and passengers from all walks of life, as they recall the sights and sounds of the night of April 14, 1912. From the manners of the day to the conduct of those boarding the lifeboats, from acts of kindness to palpable greed, here is an unforgettable portrait of human nature in the face of the Titanic tragedy, in the words of the men and women who survived.... J. Bruce Ismay, British officer of the White Star Line, who hopped into a lifeboat to save himself and never looked back to see her go down.... Second officer Charles Lightoller's harrowing plunge as the sinking ship's force of suction pulled him under water.... On-duty lookout Frederick Fleet's admission that the iceberg might have been avoided if the crew had been equipped with binoculars.... Passenger Daisy Minahan, who recalled the refusal of an officer in her lifeboat to aid those adrift in the frigid waters... and many more witnesses to one of the most shattering events of our century. Illustrated with historical photographs, *The Titanic Disaster Hearings* is a vital piece of the puzzle that has sparked worldwide fascination.
