The Woman in Silk R.J. Gadney,2013-09-03 Captain Hal Stirling is flown to England from Afghanistan after a roadside bomb renders him battered and broken. Once home, he retreats to his ancestral family seat of Stirling Towers--a gothic mansion that dominates the landscape near the remote Scottish Borders--for a Christmas of quiet recuperation. But on arrival he discovers that his mother, a fanatical spiritualist, has died and been hastily buried. Isolated from the insular local community, Hal finds himself at the mercy of his mother's two mysterious nurses, the harshest winter on record and, before long, the horrific visions; experiences he attributes to his heavy medication. Yet as the December weather deteriorates, so does Hal's certainty that his home is a place of safety. Who, or what, is trying to frighten him to death?

Organic Solid-State Lasers Sébastien Forget,Sébastien Chénais,2013-07-03 Organic lasers are broadly tunable coherent sources, potentially compact, convenient and

manufactured at low-costs. Appeared in the mid 60’s as solid-state alternatives for liquid dye lasers, they recently gained a new dimension after the demonstration of organic semiconductor lasers in the 90's. More recently, new perspectives appeared at the nanoscale, with organic polariton and surface plasmon lasers. After a brief reminder to laser physics, a first chapter exposes what makes organic solid-state organic lasers specific. The laser architectures used in organic lasers are then reviewed, with a state-of-the-art review of the performances of devices with regard to output power, threshold, lifetime, beam quality etc. A survey of the recent trends in the field is given, highlighting the latest developments with a special focus on the challenges remaining for achieving direct electrical pumping of organic semiconductor lasers. A last chapter covers the applications of organic solid-state lasers.
