The Law of Exception Amuh,2024-01-01 The law of exception is a law that reveals an object that has different and special characteristics from other objects in a group. The number of objects that become exceptions varies quite a lot and is usually less than the other objects. In this book, objects that are exceptions are generally divided into two types, namely one or a few. The laws of exception is arranged formulacally and arranged systematically by using a simple formula arrangement. From this arrangement, the law of exception creates a concept to seek and find an object that has different and special characteristics from other objects that have relationships between one with anothers in a group. After that, it is explained where the different and special characteristics lie. So that these different objects provide their own uniqueness from other objects. The law of exception is a universal law in general. This is done to uncover a number of phenomena that often occur in natural and social life. This is intended to focus on objects that have different and special characteristics and become exception from other objects in a group. In this discussion, the description of each chapter reveals an exception object of the other objects in several parts of the verse in the Quran, the relationship between God and the creature, the history of several figures known by the community, Qibla and prayer, uniqueness of the calendar, organization, the uniqueness of numbers, soccer, solar systems, and recognize vulnerable past history to the future of relations between China and Taiwan.

Prayer (Solah) Abu Khadijah Damansari,2024-03-15 In this book, Abu Khadijah Damansari embarks on a profound journey, delving deep into the essence of Islamic worship through the lens of Prayer (Solah). With care, the author carefully arranges sacred texts from the Qur'an, Hadiths of the Prophet Muhammad (may Allah's peace and blessings be upon him), the sayings of the prophetic Companions (may Allah be pleased with them), and insights from our esteemed Islamic scholars (may Allah have mercy on them). This compelling guide serves both – as a technical manual and a spiritual roadmap, compiled and written to nurture both the heart and mind of the reader. From the obligation of Solah to the intricate details of its performance, every aspect

is elucidated with clarity and reverence. Readers will find themselves equipped with not only the knowledge of how to perform Solah correctly but also the inner disposition necessary for a meaningful connection with the Divine. The book meticulously outlines the essentials: from the times for prayer to the significance of the Adhan and Iqamah, from ensuring bodily purity to dressing appropriately for prayer. Each chapter unfolds seamlessly, addressing the compulsory, recommended, offensive, and forbidden elements of Solah. From the basic description of prayer to the details and nuances of prayers, from the significance of supererogatory prayers to the etiquette of group prayer, no stone is left unturned. Additionally, the author navigates through special circumstances, such as the prostrations of forgetfulness, shortening and combining prayers, and the prayers for various occasions like the two 'Eids and Jumu'a. Prayer (Solah) – invites readers to deepen their spiritual connection with the Lord Almighty through the profound worship of prayer. Whether you're just beginning your spiritual journey to seek guidance or yearning for a deeper understanding, this book intends to illuminate your path towards spiritual fulfillment, InshaAllah.

The War of Authenticity Jamir Ahmed Choudhury,2018-01-24 There is no doubt that we are far away from the self-evident concepts of Sirius binary system (Samawaati wal-Arz), natural magnetism (Nuurun Alaa Nuur), upright rectangular universe (end of proof), immovable hexagonal world (asterisk), appearing pentagonal earth (star operator), three ascending stairs, Upright-West region of the appointed kaba, straight Middle-East region of Eartha 3D, four Galilean moons, visual binaries, four basic forces, four cardinal directions, nine planets as nine eye opening evidences, equal and opposite stages of journey of the manifested signs and two clear proofs of natural magnetic directions, and the like due to historically prevailing learning gaps objectively in the reading materials of basic sciences, natural sciences, and social sciences spoiling sanctity of education, significance of scientific certainty, and existential import of legitimacy as well as violating first generation– natural & environmental rights, second generation–essential & fundamental rights and social & cultural rights, third generation–un-interfering & inviolable rights and four foundational solidarity rights in Islam, and uncompromising constitutional rights of our fresh generation. Publication of the 'The War of Authenticity' along with Significant Crucial Instances is an experimentum crucis (crucial experiment) before responsible chairs, legitimate authorities, religious scholars, scientists, philosophers, astronomers, astrophysicists, so-called mystics,

sufis, intelligent bureaus, crime detectives, diplomats, lawyers, judges, writers, publishers, journalists, media persons, political leaders, so-called imams, social reformers, and mankind in general with a view to manifest the existential imports of the searched out “equal and opposite” findings of an illiterate Indian Banii-Israa-iil (an ordinary Indian Muslim) in each and every aspect of human persons living in societies as well as three core normative teachings of Bhagvat Gita, namely, (1) do what is right, (2) choose what is good, and (3) sticking to what is truth. Failure or success to recognize and confirm the searched out “equal and opposite” findings of an ordinary Hindustani will provide significant crucial instances on the basis of which we can distinguish possessors of balanced good sense (innate idea of Rene Descartes) from cursed human persons of Peter Singer (tabula rasa of John Locke) removing all doubts.

The Jewish Neo-Aramaic Dialect of Challa Steven Ellis Fassberg,2010 Aramaic has been spoken uninterruptedly for more than 3000 years, yet a generation from now most Aramaic dialects will be extinct. The study of the Northeastern Neo-Aramaic (NENA) dialects has increased dramatically in the past decade as linguists seek to record these dialects before the disappearance of their last speakers. This work is a unique documentation of the now extinct Jewish Neo-Aramaic dialect of Challa (modern-day Çukurca, Turkey). It is based on recordings of the last native speaker of the dialect, who passed away in 2007. In addition to a grammatical description, it contains sample texts and a glossary of the dialect. Jewish Challa belongs to the cluster of NENA dialects known as 'lishana deni' and reference is made throughout to other dialects within this group.

Routledge Handbook of Islamic Ritual and Practice Oliver Leaman,2022-06-08 Ritual and practice are one of the most distinctive features of religion, and they are linked with its central beliefs. Islam is no exception here, and this Handbook covers many aspects of those beliefs and practices. It describes the variety of what takes place but mainly why, and what the implications of both the theory and practice have for our understanding of Islam. The book includes accounts of prayer, food, pilgrimage, mosques, and the various legal and doctrinal schools that exist within Islam, with the focus on how they influence practice. The volume is organized in terms of texts, groups, practices, places, and others. An attempt has been made to discuss the wide range of Muslim ritual and practice and provide a sound guide to this significant aspect of the religious life of one of the largest groups of believers in the world today.
