Study of Prepaid Account Agreements Consumer Financial Protection Bureau, 2015-01-19 In order to better understand the features and consumer protections currently provided by prepaid products, the Bureau conducted a study (the Study) of publicly available account agreements for prepaid products. The prepaid products included in the Study all appeared to meet the proposed definition of the term prepaid account in its proposed rule governing prepaid accounts under the Electronic Fund Transfer Act (Regulation E) and the Truth in Lending Act (Regulation Z), published concurrently herewith. Specifically, the Bureau sought to determine current industry practices in a number of areas to inform the Bureau's understanding of the potential benefits and costs of extending various Regulation E provisions to prepaid accounts. In conducting the Study, Bureau staff examined certain key provisions in the account agreements of prepaid cards and other similar prepaid programs currently available to consumers and compared those terms against the protections that would be required by the proposal. The Study covers 325 account agreements for prepaid programs that, Bureau staff believes, could be subject to the definition of prepaid account in the Bureau's proposed rule. This Study examines key provisions regarding error resolution protections (including provisional credit); limited liability protections; access to account information; overdraft services and negative balance fees; Federal Deposit Insurance Corporation (FDIC) or National Credit Union Share

Insurance Fund (NCUSIF) pass-through deposit or share insurance; and general disclosure of fee information. The proposed rule explains in detail the issues related to these various provisions.

Prepaid Accounts. the Future of Prepaid Cards

Dylan Porter, 2017-09-27 Research Paper

(postgraduate) from the year 2017 in the subject Economics - Monetary theory and policy, grade: B+, Suffolk University Law School, language: English, abstract: A Problem that United States citizens have had involve people incapable of establishing a bank account or getting a credit card due to the security of monetary transfers. To remedy this problem, Congress established the independent agency, the Consumer Financial Protection Bureau (CFPB), in the Dodd-Frank Act of 2010, who regulates monetary transfersⁱ. The CFPB implemented the Prepaid Account Final Rule to accommodate prepaid cards. The fundamental concept of a prepaid card is simple. Money is loaded on to a card before someone spends it and that money entirely belongs to that person. Hence, the card is prepaid. A prepaid card functions as a prepaid account, but it is not a traditional bank account that is out of reach for anyone. The CFPB's Prepaid Account Final Rule amends Regulation E of the Electronic Fund Transfer Act by extending its coverage to prepaid accounts and adopting provisions specific to such accounts, and amends Regulation Z of the Truth in Lending Act by extending its coverage to overdraft credit features that are simultaneously offered with these prepaid accountsⁱⁱ. This has had a large effect on the prepaid market economically by

impacting mobile wallets, peer-to-peer payment products, person-to-person transfers, and other electronic prepaid accounts that store fundsiii. The rule revolutionized payment instruments by steering methods for payment away from cash, checks, and credit and debit cards towards using prepaid cardsiv. This paper will provide the background of how the CFPB was able to propose this rule and how the Prepaid Account Proposed Rule developed into the Final Rule. It will focus on how the Final Rule impacts Regulation E's disclosure requirements, alternatives to periodic statements, posting account agreements, remittance transfers and limitations on li
