Design and Plan in the Country House Andor Harvey Gomme,Austin Harvey Gomme,Alison Maguire,Maguire Alison,2008-01-01 The way a man thinks about his day-to-day living and the needs of his household reveals a great deal about his ambitions, his idea of himself, and his role in the community. And his house or castle offers many clues to his habits as well as those of the members of his household. This intriguing book explores the evolution of country house plans throughout Britain and Ireland, from medieval times to the eighteenth century. With photographs and detailed architectural plans of each house under discussion, the book presents a whole range of new insights into how these homes were designed and what their varied designs tell us about the lives of their residents. Starting with fortified medieval tower houses, the book traces patterns that developed and sometimes repeated in country house design over the centuries. It discusses who slept in the bedchambers, where food was prepared, how rooms were arranged for official and private activities, what towers signified, and more. Groundbreaking in its depth, the volume offers a rare tour of country houses for scholar and general reader alike.

Best-selling House Plans Editors of Creative Homeowner,2009 Best-Selling House Plans offers readers 400 of our most-successful designs from leading architects and designers. Manual of Hospital Planning and Designing Ajay Garg, Anil Dewan, 2022-01-29 This book is a one-stop resource on all the critical aspects of planning and designing hospitals, one of the most complex healthcare projects to undertake. A well-planned and designed hospital should control infection rate, provide safety to patients, caregivers and visitors, help improve patients' recovery and have scope for future expansion and change. Reinforcing these basic principles, guidance on such effective planning and designing is the key focus. Readers are offered insights into eliminating shortcomings at every stage of setting up a hospital which may not be feasible to rectify later on through alterations. Chapters from 1 to 12 of the book provide exhaustive notes on initial planning, such as detailed project reports, feasibility studies, and area calculation. Chapters 13 to 27 include designing and layout of all the essential departments/units such as OPD, emergency, intermediate care, diagnostics, operating rooms, and intensive care units. Chapters 28 to 37 cover designing support services like sterilization department, pharmacy, medical gas pipeline, kitchen, laundry, medical record, and mortuary. Chapters 38 to 48 take the readers through planning other services like air-conditioning and ventilation, fire safety, extra low voltage, mechanical, electrical, and plumbing services. Chapter 49 is for the planning of medical equipment. A particular chapter on Green hospital designing is included. This book is a single essential tabletop reference for hospital consultants, medical and hospital administrators, hospital designers, architecture students, and hospital promoters.
