Ex Post Economic Evaluation of Competition Policy Fabienne Ilzkovitz,2020-05-18 Competition authorities are increasingly interested in understanding the impact of their activities on markets and consumers. The goal is to improve competition policy rules and decision-making practices and to get robust evidence on the benefits of competition and competition policy for society as a whole. Discussions with competition authorities, practitioners and academics have shown the need to take stock of the experience gained in this field by the European Commission and to present it in an easily accessible way. The studies collected in this volume – prepared by senior Commission officials and competition policy experts – range from the ex post evaluation of specific policy interventions to the assessment of the broader impact of competition policy. The issues and topics examined include the following: objectives and scope of evaluations by the European Commission; description of counterfactual evaluation techniques used; conditions for a successful ex post evaluation of a competition policy intervention; a wide selection of individual cases covering a variety of economic sectors; applications in merger control, antitrust and State aid; direct benefits of competition policy interventions for consumers; deterrent effects of such interventions on market participants; and macroeconomic outcomes in terms of job creation, productivity and GDP growth. This matchless book assembles within a single volume all that is needed for competition policy analysts and practitioners to undertake ex post economic evaluations. While its collection of state-of-the-art ex post evaluation studies has a clear value for competition authorities, it is sure to be welcomed as well by competition law practitioners in the private sector, who will greatly appreciate the effort made to cast a critical eye on decisions taken in the past. Moreover, it allows for addressing some of the new challenges facing competition policymakers. Fabienne Ilzkovitz is Principal Advisor responsible for the economic evaluation of competition policy within the Directorate-General for Competition of the European Commission, and since 2014, she has coordinated various ex post evaluation projects in the Directorate-General. She is also Associate Professor of Economics in the Solvay Brussels School of Economics and Management at the Université Libre de Bruxelles, Belgium. Adriaan Dierx is Senior Expert on ex post economic evaluation within the Directorate-General for Competition of the European Commission. He has managed a number of studies aimed at assessing the economic impact of the European Commission's competition policy interventions.

People's Peace in Cyprus Alexandros Lordos,Nathalie Tocci,Erol Kaymak,2009 The year 2009 may well be a make-or-break year for the protracted Cyprus conflict. While strategic assessments and elite incentives bode cautiously well for a settlement, ultimately an agreement will have to be approved by the two Cypriot communities and above all it will have to be implemented by them on the ground. In view of the centrality of the people in this peace process, CEPS, in collaboration with Greek Cypriot and Turkish Cypriot partners, launched a project in late 2007 investigating, through successive opinion polls, what Cypriots think of each other, of the peace process and of possible solutions to the conflict. In this book the authors present the results of their second survey, conducted simultaneously in the southern and northern parts of the island in January and February 2009. It delves into the Cypriots' views on the thorniest questions of the conflict and assesses whether and how, once we leave the abstract level of labels and slogans and enter into the specifics of a package deal, convergence between Greek and Turkish Cypriots is possible.

Cyprus International Monetary Fund. European Dept.,2013-09-18 This paper discusses Cyprus' First Review Under the Extended Arrangement Under the Extended Fund Facility and Request for Modification of Performance Criteria. The program is on track, and ownership by the authorities has improved. Fiscal targets were met with a comfortable margin. All structural benchmarks were also observed, albeit some with a brief delay. The authorities have made important strides to complete the bank resolution process, publish a roadmap to gradually ease payment restrictions, and finalize a restructuring strategy for the cooperative credit sector. However, much remains to be done to fully implement the financial sector restructuring strategy and restore confidence in the system.

Cyprus International Monetary Fund. Fiscal Affairs Dept.,2023-09-08 Cyprus's government has enhanced financial oversight and governance of public entities over the past decade. Several legal and administrative measures have been implemented to support the oversight functions of the Ministry of Finance and introduce elements of good governance and accountability of public entities. As a result, the liabilities of public entities have remained stable and government guarantees have decreased. Looking ahead, the government plans to further strengthen the governance of public entities in line with best international practices. This report provides practical recommendations for improving corporate governance, enhancing accountability practices in public entities, and strengthening their financial oversight.

Constitutional Law in Cyprus Achilles C. Emilianides,2019-02-13 Derived from the renowned multi-volume International Encyclopaedia of Laws, this very useful analysis of constitutional law in Cyprus provides essential information on the country's sources of constitutional law, its form of government, and its administrative structure. Lawyers who handle transnational matters will appreciate the clarifications of particular terminology and its application. Throughout the book, the treatment emphasizes the specific points at which constitutional law affects the interpretation of legal rules and procedure. Thorough coverage by a local expert fully describes the political system, the historical background, the role of treaties, legislation, jurisprudence, and administrative regulations. The discussion of the form and structure of government outlines its legal status, the jurisdiction and workings of the central state organs, the subdivisions of the state, its decentralized authorities, and concepts of citizenship. Special issues include the legal position of aliens, foreign relations, taxing and spending powers, emergency laws, the power of the military, and the constitutional relationship between church and state. Details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for both practising and academic jurists. Lawyers representing parties with interests in Cyprus will welcome this guide, and academics and researchers will appreciate its value in the study of comparative constitutional law.

Cyprus Statistical Office of the European Communities,2019-06-03 This paper presents the Third Post-Program Monitoring discussions with Cyprus. Cyprus's rapid recovery is expected to slow gradually; however, the outlook remains favorable. Economic growth is gradually decelerating but remains strong, buoyed by the services and construction sectors, partly financed with foreign direct investment. While employment is picking up, wage pressures and inflation remain low. A large fiscal surplus is helping to lower public debt after a sizable one-off increase related to the sale of Cyprus

Cooperative Bank in the year 2018. Repayment capacity appears to be adequate under the baseline scenario given the expected decline of gross public debt, a stable debt servicing profile, and continued favorable market conditions. Policies should aim to continue strengthening bank balance sheets while avoiding the commitment of public resources. The Estia scheme, aimed at encouraging non-performing borrowers to start servicing their loans, should not be allowed to lead to further risks of moral hazard. The subsidy support, mandated write-offs by banks and enhanced foreclosure threats on re-defaulting restructured loans are expected to strengthen incentives to service restructured loans.

Cyprus and its Conflicts Vaia Doudaki,Nico Carpentier,2017-11-01 The Mediterranean island of Cyprus is the site of enduring political, military, and economic conflict. This interdisciplinary collection takes Cyprus as a geographical, cultural and political point of reference for understanding how conflict is mediated, represented, reconstructed, experienced, and transformed. Through methodologically diverse case studies of a wide range of topics—including public art, urban spaces, and print, broadcast and digital media—it assembles an impressively multifaceted perspective, one that provides broad insights into the complex interplay of culture, conflict, and identity.

Propaganda and the Cyprus Revolt Maria Hadjiathanasiou,2020-05-14 During the EOKA period of Greek Cypriot revolt against British colonial rule, the Greek Cypriots and the British deployed propaganda as a means of swaying allegiances, both within Cyprus and on the international scene. Propaganda and the Cyprus Revolt places new emphasis on the vital role propaganda played in turning the tide against British colonial control over Cyprus. Examining the increase of violence and coercion during this period of revolt, this book examines how the opposing sides' mobilization of propaganda offered two alternative visions for the future of Cyprus that divided opinion, to the ultimate detriment of British counterinsurgency efforts. Detailing the deployment of propaganda by both parties across radio, television and print channels, the book draws upon previously unpublished archival material in order to paint a detailed picture of how the British Empire lost control over the hearts and minds of the Greek Cypriot people. This study shines new light on a crucial period of Cypriot history and contributes to wider transnational debates around the use of propaganda and the end of empire. This will be an essential read for students of Cyprus history and British colonial history.
