Android Paradox (Book 1) Michael La Ronn,2015-03-15 The future belongs to humans and androids...or is that a paradox? The year is 2300. Humans and androids live in peace after a devastating singularity and years of war. Xandifer X Crenshaw is an android special agent who hunts down rogue androids and dismantles them. No one evades him for very long. When a fellow android agent goes maverick and starts a killing spree, this time it's personal. And if X doesn't disable his foe swiftly and silently before the press finds out, it will shatter the alliance between humans and androids forever. X and his human partner, Shortcut won't rest until this mission is complete--unless they end up dead first. If you love science fiction thrillers, then grab your copy of Android Paradox today! V2.0

Androids Rule J. Harry Duggan,2003-09-09 The smiling android female on the saucer terminal's video screen said, Would you like to be immortal? Would you like to be rich? Would you like to travel the galaxy? You can, you know. Go on-line, fill out Mincom's new EZ employment form, and become part of our management team. We will provide everything, including your own, custom-fitted android body. The smiling face was very convincing. Yeah, thought Max Mars, convincing. Be immortal. Get a new body and be guaranteed a trip to the most desolate planets in the universe, to mine heavy ice for four Earth years with just enough down-time to recharge your batteries. But Mars wasn't too concerned for the humans who fell for that old ploy. He had problems of his own. He was low on cash, so he had taken a job he normally would have turned down. Just travel to the Rim, to planet Kalos, and find a rich man's relatives. They had been missing-only seven years.

Android Love Glenn L. Erickson,2019-08-14 As the gunman strode past Marie, assured the techs had deactivated her, Marie whipped a hand out and snatched his gun from its holster. Hey! He tried to slap the gun away but Marie moved it just enough that his hand whiffed empty air. Marie thrust the gun into the man's crotch and hissed, It appears they can't turn me off! Care to see what else I can't do?Sneering, the gunman said You can't hurt humans.Marie lowered the barrel fractionally and squeezed the trigger. The bullet missed vital parts of the gunman's anatomy, but the concussion was as effective as a kick to the groin. He jerked in surprise, and then collapsed to the floor, writhing in agony.Marie turned to face the company tech, the still-smoking pistol rising in threat. You tried to deactivate me, so you could dissect me?

Android Avenger Ted White,2013-10-02 All of a sudden I was moving faster than usual. The other passengers standing on the subway platform seemed rooted to their places. It took me only seconds to reach the top of the six flights of stairs, and then I was out of the station and moving down Fulton Street at better than forty miles an hour! What was happening to me? It was as though I were the helpless passenger in a runaway car. Something else had assumed control and was guiding me. My body turned into an office building and raced down the corridor to a room where a man was sitting at a console. He'd begun to swing around in his chair when my mouth opened, and a thin, blood-red ray shot out, cleaving the man from head to abdomen. Then it was over. My mouth closed, and I

stood there, stunned. Up to today I was Bob Tanner, an average, sane Citizen. Now what was I, man or murder machine?
