**Race, Law, and "The Chinese Puzzle" in Imperial Britain S.**

Auerbach,2009-04-27 In the early twentieth century, Chinese immigration became the focal point for racial panic in Britain. Fears about its moral and economic impact - amplified by press sensationalism and lurid fictional portrayals of London's original 'Chinatown' as a den of vice and iniquity - prompted mass arrests, deportations, and mob violence. Even after the neighborhood was demolished and its inhabitants dispersed, the stereotype of the Chinese criminal mastermind and other 'yellow peril' images remained as permanent aspects of British culture. This painstakingly researched study traces the historical evolution of Chinese communities in Britain during this period, revealing their significance in the development of race as a category in British culture, law, and politics.

Critical Race Consciousness Gary Peller, 2015-10-23 Despite the apparent racial progress reflected in Obama's election, the African American community in the United States is in a deep crisis on many fronts - economic, intellectual, cultural, and spiritual. This book sets out to trace the ideological roots of this crisis. Challenging the conventional historical narrative of race in America, Peller contends that the structure of contemporary racial discourse was set in the confrontation between liberal integrationism and black nationalism during the 1960s and 1970s. Arguing that the ideology of integration that emerged was highly conservative, apologetic, and harmful to the African American community, this book is sure to provide a new lens for studying - and learning from - American race relations in the twentieth century.
