*Feminism, Labour and Digital Media* Kylie Jarrett, 2015-11-19 There is a contradiction at the heart of digital media. We use commercial platforms to express our identity, to build community and to engage politically. At the same time, our status updates, tweets, videos, photographs and music files are free content for these sites. We are also generating an almost endless supply of user data that can be mined, re-purposed and sold to advertisers. As users of the commercial web, we are socially and creatively engaged, but also labourers, exploited by the companies that provide our communication platforms. How do we reconcile these contradictions? *Feminism, Labour and Digital Media* argues for using the work of Marxist feminist theorists about the role of domestic work in capitalism to explore these competing dynamics of consumer labour. It uses the concept of the Digital Housewife to outline the relationship between the work we do online and the unpaid sphere of social reproduction. It demonstrates how feminist perspectives expand our critique of consumer labour in digital media. In doing so, the Digital Housewife returns feminist inquiry from the margins and places it at the heart of critical digital media analysis.

*The Mythic Mr. Lincoln* Jeff O'Bryant, 2021-09-15 Honest Abe. The rail-splitter. The Great Emancipator. Old Abe. These are familiar monikers of Abraham Lincoln. They describe a man who has influenced the lives of everyday people as well as notables like Leo Tolstoy, Marilyn Monroe, and Winston Churchill. But there is also a multitude of fictional Lincolns almost as familiar as the original: time traveler, android, monster hunter. This book explores Lincoln's evolution from martyred president to cultural icon and the struggle between the Lincoln of history and his fictional progeny. He has been Simpsonized by Matt Groening, charmed by Shirley Temple, and emulated by the Lone Ranger. Devotees have attempted to clone him or to raise him from the dead. Lincoln's image and memory have been invoked to fight communism, mock a sitting president, and sell products. Lincoln has even been portrayed as the greatest example of goodness humanity has to offer. In short, Lincoln is the essential American myth.

Cypher, Jim Ferris, Julie-Ann Scott-Pollock, 2023-03-29 The Palgrave Handbook of Disability and Communication covers a broad spectrum of topics related to how we perceive and understand disability and the language, constructs, constraints and communication behavior that shape disability discourse within

*Gender and Political Marketing in the United States and the 2016 Presidential Election* Minita Sanghvi, 2018-05-22 This book focuses on the unique challenges women in politics face in the United States based on their gender. *The Oxford Handbook of Robert Burns* Gerard Carruthers, 2024-02-01 The Oxford Handbook of Robert Burns treats the extensive writing of and culture surrounding Scotland's national 'bard'. Robert Burns (1759-96) was a producer of lyrical verse, satirical poetry, in English and Scots, a song-writer and song-collector, a writer of bawdry, journals, commonplace books and correspondence. Sculpting his own image, his untutored rusticity was a sincere persona as much as it was not entirely accurate. Burns was an antiquarian, national patriot, pioneer of what today we would call 'folk culture', and a man of the Enlightenment and Romanticism. The Handbook considers Burns's reception in his own time and beyond, extending to his iconic status as a world-writer. Burns was important to the English Romantic poets, in the context of debates about Abolition in the US, in the Victorian era he was widely utilised as a model for different kinds of popular poetry and he has been utilised as a contestant in debates surrounding Scottish and, indeed, British politics, in peacetime and in wartime down to the present day. The writer's afterlife includes not only a large number of biographies but a whole culture

of commemoration in art, architecture, fiction, material culture, museum-exhibition and even forged manuscripts and memorabilia as well as appearances, apparently, via Spiritualist seances. The politics of his work channel the fierce debates of late eighteenth-century Scottish ecclesiastical controversy as well as the ages of American, Agrarian and French revolutions. All of this ground is traversed in this Handbook, the largest critical compendium ever assembled about Robert Burns.

**Public History in Poland** Joanna Wojdon, 2021-11-29 This volume presents various aspects of public history practices in Poland, alongside their historical development and theoretical reflections on public history. Despite a long tradition and variety of forms of public history, the very term public history, or literally speaking history in the public sphere, has been in use in Poland only since the 2010s. This edited collection contains chapters that focus on numerous practices and media forms in public history including historical memory, heritage tourism, historical re-enactments, memes and graphic novels, films, archives, archaeology and oral history. As such, the volume brings together the Polish experiences to wider international audiences and shares Polish controversies related to public history within the academic discourse, beyond media news and politically engaged commentaries. Furthermore, it sheds crucial light on the developments of collective memory, historical and political debates, the history of Poland and East-Central Europe, and the politics of post-World War Two and post-communist societies. Authored by a team of academic historians and practitioners from the field, *Public History in Poland* is the perfect resource for students from a variety of disciplines including Public History, Heritage, Museum Studies, Anthropology, and Archaeology.

**Data Science and Business Intelligence** Heverton Anunciação, 2023-12-04 A professional, no matter what area he belongs to, I believe, should never think that his truth is definitive or that his way of doing or solving something is the best. And, logically, I had to get it right and wrong to reach this simple conclusion. Now, what does that have to do with the purpose of this book? This book that I have gathered important tips and advice from an elite of data science professionals from various sectors and reputable experience? After I've worked on hundreds of consulting projects and implementation of best practices in Relationship Marketing (CRM), Business Intelligence (BI) and Customer Experience (CX), as well as countless Information Technology projects, one truth is absolute: We need data! Most companies say they do everything perfect, but it is not shown in the media or the press the headache that the areas of Information Technology suffer to join the right data. And when they do manage to unite and make it available, the time to market has already been lost and possible opportunities. Therefore, if a company wants to be considered excellence in corporate

governance and satisfy the legal, marketing, sales, customer service, technology, logistics, products, among other areas, this company must start as soon as possible to become a data driven and real-time company. For this, I recommend companies to look for their digital intuitions, and digital inspirations. So, with this book, I am proposing that all the employees and companies will arrive one day that they will know how to use, from their data, their sixth sense. The sixth sense is an extrasensory perception, which goes beyond our five basic senses, vision, hearing, taste, smell, touch. It is a sensation of intuition, which in a certain way allows us to have sensations of clairvoyance and even visions of future events. A company will only achieve this ability if it immediately begins to apply true data governance. And the illustrious data scientists who are part of this book will show you the way to take the first step: - Eric Siegel, Predictive Analytics World, USA - Bill Inmon, The Father of Datawarehouse, Forest Rim Technology, USA - Bram Nauts, ABN AMRO Bank, Netherlands - Jim Sterne, Digital Analytics Association, USA - Terry Miller, Siemens, USA - Shivanku Misra, Hilton Hotels, USA - Caner Canak, Turkcell, Turkey - Dr. Kirk Borne, Booz Allen Hamilton, USA - Dr. Bülent Kızıltan, Harvard University, USA - Kate Strachnyi, Story by Data, USA - Kristen Kehrer, Data Moves Me, USA - Marie Wallace, IBM Watson Health, Ireland - Timothy Kooi, DHL, Singapore - Jesse Anderson, Big Data Institute, USA - Charles Givre, JPMorgan Chase & Co, USA - Anne Buff, Centene Corporation, USA - Bala Venkatesh, AIBOTS, Malaysia - Mauro Damo, Hitachi Vantara, USA - Dr. Rajkumar Bondugula, Equifax, USA - Waldinei Guimaraes, Experian, Brazil - Michael Ferrari, Atlas Research Innovations, USA - Dr. Aviv Gruber, Tel-Aviv University, Israel - Amit Agarwal, NVIDIA, India
