Finally Free Elena Aitken, Go with the flow. Have fun. Stay true to yourself. And above all else, remember...no relationships. Ever. From a very young age, I saw firsthand how a relationship could change a woman and make her lose herself. I vowed never to let it happen to me. And for over forty years, it hasn't. That is until my happily loved-up friends get it in their head that I'm missing out and dare me to really get to know a man and become friends with him. No sex allowed. One specifically—Blaze Baron, international heartthrob and massive movie star who recently moved to town and seems to have set his sights on me. I'm way too old for a dare. Still...I find myself agreeing. Besides, hooking up with a megastar so it can be splashed all over the gossipy tabloid sites for the whole world to see, isn't really my vibe. And shallow pretty boys really aren't my vibe. I won't have any trouble keeping things PG-rated and firmly in the friend zone. Except as it turns out, there's more to Blaze than his ridiculous good looks. A lot more. No one is more surprised than I am that the more I get to know him, the more I really start to like him. And don't even get me started with the crazy chemistry between us. The man can make me feel things with only one look and it doesn't take long for this to become one promise I won't be able to keep. There's a reason I've lived my life on my own, but what if everything I ever thought about love was wrong? And if it is, is it too late to admit it?

Haunting My Ghosts Noëlle Blake,2012-12-06 Shelby Rivers only has a few months of secondary school left when, along with a group of friends, she narrowly escapes with her life after a terrifying car accident, thanks to the kindness of a complete stranger. As she recovers, Shelby realizes her friends are no friends at all. Years later, she feels compelled to carry out a meticulously crafted plan to exact her revenge, in an attempt to wipe away the painful memories. When Shelby returns to her hometown after a considerable absence, she finds that although the landscape has changed, her feelings have not. After gathering information on her so-called friends with the sole purpose of ruining their lives, Shelby is quickly sobered when she realizes that she too has been the focus of someone else's attentions, and this person has pieced together her catalogue of deceit. Once Shelby puts her vengeful plan into motion, there is no one left to catch her fall—except, once again, a complete stranger. In this engaging tale, deception envelops a dysfunctional quest for absolution as a woman faces the demons from her past once and for all.

Five Feet Apart Rachael Lippincott,2019-02-05 Now a major motion picture starring Cole Sprouse and Haley Lu Richardson! Goodreads Choice Winner, Best Young Adult Fiction of 2019 In this #1 New York Times bestselling novel that's perfect for fans of John Green's *The Fault in Our Stars*, two teens fall in love with just one minor complication—they can't get within a few feet of each other without risking their lives. Can you love someone you can never touch? Stella Grant likes to be in control—even though her totally out of control lungs have sent her in and out of the hospital most of her life. At this point, what Stella needs to control most is keeping herself away from anyone or anything that might pass along an infection and jeopardize the possibility of a lung transplant. Six feet apart. No exceptions. The only thing Will Newman wants to be in control of is getting out of this hospital. He couldn't care less about his treatments, or a fancy new clinical drug trial. Soon, he'll turn eighteen and then he'll be able to unplug all these machines and actually go see the world, not just its hospitals. Will's exactly what Stella needs to stay away from. If he so much as breathes on Stella she could lose her spot on the transplant list. Either one of them could die. The only way to stay alive is to stay apart. But suddenly six feet doesn't feel like safety. It feels like punishment. What if they could steal back just a little bit of the space their broken lungs have stolen from them? Would five feet apart really be so dangerous if it stops their hearts from breaking too?

Reading Sounds Sean Zdenek,2015-12-23 The work of writing closed captions for television and DVD is not simply transcribing dialogue, as one might assume at first, but consists largely of making rhetorical choices. For Sean Zdenek, when captioners describe a sound they are interpreting and creating contexts, they are assigning significance, they are creating meaning that doesn't necessarily exist in the soundtrack or the script. And in nine chapters he analyzes the numerous complex rhetorical choices captioners make, from abbreviating dialogue so it will fit on the screen and keep pace with the editing, to whether and how to describe background sounds, accents, or slurred speech, to nonlinguistic forms of sound communication such as sighing, screaming, or laughing, to describing music, captioned silences (as when a continuous noise suddenly stops), and sarcasm, surprise, and other forms of meaning associated with vocal tone. Throughout, he also looks at closed captioning style manuals and draws on interviews with professional captioners and hearing-impaired viewers. Threading through all this is the novel argument that closed captions can be viewed as texts worthy of rhetorical analysis and that this analysis can lead the entertainment industry to better standards and practices for closed captioning, thereby better serve the needs of hearing-impaired viewers. The author also looks ahead to the work yet to be done in bringing better captioning practices to videos on the Internet, where captioning can take on additional functions such as enhancing searchability. While scholarly work has been done on captioning from a legal perspective, from a historical perspective, and from a technical perspective, no one has ever done what Zdenek does here, and the original analytical models he offers are richly interdisciplinary, drawing on work from the fields of technical communication, rhetoric, media studies, and disability studies.

The Manchurian Candidate Richard Condon,2013-11-25 The classic thriller about a hostile foreign power infiltrating American politics: “Brilliant . . . wild and exhilarating.” —The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors’ signal. Now he’s been returned to the United States with a covert mission: to kill a candidate running for US president . . . This “shocking, tense” and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). “Crammed with suspense.” —Chicago Tribune “Condon is wickedly skillful.” —Time

In Life, the Universe and Everything, the third book in Douglas Adams' blockbuster sci-fi comedy series, Arthur Dent finds himself enlisted to prevent a galactic war. However, just as he thinks that things cannot get possibly worse, they suddenly do. An eddy in the space-time continuum lands him, Ford Prefect, and their flying sofa in the middle of the cricket ground at Lord's, just two days before the world is due to be destroyed by the Vogons. Escaping the end of the world for a second time, Arthur, Ford, and their old friend Slartibartfast embark (reluctantly) on a mission to save the whole galaxy from fanatical robots. Not bad for a man in his dressing gown. Follow Arthur Dent's galactic (mis)adventures in the rest of the trilogy with five parts: So Long, and Thanks for All the Fish, and Mostly Harmless.

Het diner Herman Koch,2011 Two couples meet over dinner to discuss their children who misbehaved, but avoid doing so.

The Dinner Herman Koch,2013-02-12 NEW YORK TIMES BESTSELLER • The darkly suspenseful tale of two families struggling to make the hardest decision of their lives—all over the course of one meal. Now a major motion picture. “Chilling, nasty, smart, shocking, and unputdownable.”—Gillian Flynn, author of *Gone Girl* It’s a summer’s evening in Amsterdam, and two couples meet at a fashionable restaurant for dinner. Between mouthfuls of food and over the scrapings of cutlery, the conversation remains a gentle hum of polite discourse. But behind the empty words, terrible things need to be said, and with every forced smile and every new course, the knives are being sharpened. Each couple has a fifteen-year-old son. The two boys are united by their accountability for a single horrific act—an act that has triggered a police investigation and shattered the comfortable, insulated worlds of their families. As the dinner reaches its culinary climax, the conversation finally touches on their children, and as civility and friendship disintegrate, each couple shows just how far they are prepared to go to protect those they love. A NEW YORK TIMES NOTABLE BOOK “A European *Gone Girl* . . . A sly psychological thriller.”—The Wall Street Journal “Brilliantly engineered . . . The novel is designed to make you think twice, then thrice, not only about what goes on within its pages, but also the next time indignation rises up, pure and fiery, in your own heart.”—Salon “You’ll eat it up, with some fava beans and a nice Chianti.”—Entertainment Weekly “[Koch] has created a clever, dark confection . . . absorbing and highly readable.”—New York Times Book Review “Tongue-in-cheek page-turner.”—The Washington Post “[A] deliciously Mr. Ripley-esque drama.”—O: The Oprah Magazine
