## **A Secret History of the Ollie** Craig B.

Snyder,2015-02-28 Every culture has a creation myth, and skateboarding is no different. The Ollie forged a new identity for skateboarding after its invention in the 1970s, and it lies at the root of nearly every significant move in street skating today. This groundbreaking no-handed aerial has also affected the evolution of surfing and snowboarding, and has left a permanent impression upon popular culture and language. This, then, is the story of the Ollie, the history and technology that set the stage for its creation, the pioneers who made it happen, and the skaters who used it to start a revolution.

Skater Cielo Rachel Katstaller,2022-08-02 Meet Cielo, a fierce skater who finds that facing your fear of failing gives you the courage to persevere! Cielo loves to skateboard! But when she messes up on a new ramp she's embarrassed and afraid to fall again in front of so many people. With the help of some new friends, Cielo summons the courage to try again (and again, and again), and learns that falling is not failing--true fierceness isn't about landing the perfect trick, it's about picking yourself back up when you don't.

## **The Mutt** Rodney Mullen,Sean Mortimer,2004-07-20

At age six, Rodney Mullen was the family misfit who had to wear braces to straighten out his pigeon-toed feet. But by age fourteen, he was a world-champion skateboarder -- and for the next decade lost only one contest. Now, for the first time, Rodney tells the incredible story of his ascent to fame as the number one nerd in a sport where anarchy is often encouraged. Rodney learned to skate by himself on the family farm, his only company the wandering cows. As a teenager he traveled the world for demonstrations, invented the flatground ollie -- a trick that laid the

foundation for modern street skating -- and in ten years garnered thirty-five world skating titles. While acing skateboard contests Rodney also earned straight A's in school, but his father forced him to abandon his fame and the fortune he could make from the sport he loved. Rodney was unable to stop for very long though, even after freestyle skating went out of fashion and the skateboarding world abandoned him. He adapted to street skating and eventually became one of the most innovative and influential skaters of all time. It's all here: everything from his eating and sleeping disorders to his comical experiences with loan sharks, occult-obsessed relatives, and the FBI. *The Mutt* is a look at Rodney's strange journey from penniless skateboarder to millionaire.

*If You Give a Mouse a Cookie* Laura Joffe

Numeroff,2022-06-14 If a hungry little traveler shows up at your house, you might want to give him a cookie. If you give him a cookie, he's going to ask for a glass of milk. He'll want to look in a mirror to make sure he doesn't have a milk mustache, and then he'll ask for a pair of scissors to give himself a trim.... The consequences of giving a cookie to this energetic mouse run the young host ragged, but young readers will come away smiling at the antics that tumble like dominoes through the pages of this delightful picture book.

Five Feet Apart Rachael Lippincott, 2019-02-05 Now a major motion picture starring Cole Sprouse and Haley Lu Richardson! Goodreads Choice Winner, Best Young Adult Fiction of 2019 In this #1 New York Times bestselling novel that's perfect for fans of John Green's *The Fault in Our Stars*, two teens fall in love with just one minor complication—they can't get within a few feet of each other without risking their lives. Can you love someone you can never touch? Stella Grant likes to be in control—even though her totally out of control lungs have sent her in and out of the hospital most of her life. At this point, what Stella needs to control most is keeping herself away from anyone or anything that might pass along an infection and jeopardize the possibility of a lung transplant. Six feet apart. No exceptions. The only thing Will Newman wants to be in control of is getting out of this hospital. He couldn't care less about his treatments, or a fancy new clinical drug trial. Soon, he'll turn eighteen and then he'll be able to unplug all these machines and actually go see the world, not just its hospitals. Will's exactly what Stella needs to stay away from. If he so much as breathes on Stella she could lose her spot on the transplant list. Either one of them could die. The only way to stay alive is to stay apart.

But suddenly six feet doesn't feel like safety. It feels like punishment. What if they could steal back just a little bit of the space their broken lungs have stolen from them? Would five feet apart really be so dangerous if it stops their hearts from breaking too?

This widely acclaimed bestseller, in which Malcolm Gladwell explores and brilliantly illuminates the tipping point phenomenon, is already changing the way people throughout the world think about selling products and disseminating ideas. "A wonderful page-turner about a fascinating idea that should affect the way every thinking person looks at the world." —Michael Lewis

*75 HARD Challenge* Andy Frisella, 2020-01-15 Exercise twice each day for 45 minutes - it doesn't matter what the exercise is but one of these sessions must to be outdoors. Drink 4 litres of water per day. Pick a diet or eating plan and stick to that plan. You don't necessarily have to count calories but be intelligent - no chocolates, no cake, no soft drinks, and NO ALCOHOL (this is the one I'll struggle with the most). Read a minimum of 10 pages every day of growth mindset material or self-help book. No fifty shades of grey content! stick to real life material to work on your mindset. Take one progress photo each day - even though this is more of a mental challenge, the byproduct will be a physical change at the end of the 75 days.
