Making Model Boats with Styrene Richard Webb, 2003

Making Fast Electric Model Power Boats Ian Williams, 2023-09-06 Fast electric model power boats have long outclassed other boat types in terms of speed, and racing them is becoming an ever-more popular pastime. Success in this exciting hobby relies not just on the skill of the boat's handler, but on the design and build of the boat as well. Illustrated with numerous photographs and diagrams showing technical details, this book looks at all aspects of building a model electric power boat, including How to choose a model and spot design flaws, especially in moulded hulls, and how to repair many of those faults, Brushed and brushless motors, and their speed controllers, drive systems and propellers, Guidance on rechargeable cells and the correct chargers, and safety tips for lithium polymer cells, Tips on construction and how to set up a boat for racing, Detailed instructions for building a wooden three-point outrigger hydroplane and Radio systems, wiring and connectors. While the emphasis of this book is on performance for competition use, beginners and recreational boaters are well catered for as many of the chapters start from first principles, rather than assuming a high level of initial competence. It covers all aspects of fast electric boating, from hull design right through to racing at world championships and setting speed records. Therefore, whether you are looking to compete or operate fast electric power boats as a hobby, it is a must-have addition to your library.

Police Boats and Coast Guard Ships Gerhard O. W. Fischer, Police, customs and coast guard boats have a large number of enthusiasts among model ship builders due to their tasks, but above all due to their interesting appearance. In addition, these types of ships can be equipped with numerous

special functions. Due to their usually high cruising performance, they are also ideal for those who want a fast model but do not like a yacht or a military speedboat. The model building companies have recognised this and have recently brought a number of construction kits of RC ship models of this type onto the market. Let the author Gerhard O. W. Fischer inspire you with his richly illustrated descriptions of this variant of RC ship modelling! From the content: • The tasks of the Coast Guard • Visit to the Albatros II • RC model Albatros I • Converted Coast Guard boats • Models of the U.S. Coast Guard • Police Boat W 4 • Police or Coast Guard Boat • Police and Coast Guard Boat Sylt • A police boat of own design • A pilot boat • River patrol boat Bussard • List of sources
