Upstate Girls Brenda Ann Kenneally,2018-08-28 In the tradition of Dorothea Lange and Robert Frank, an eye-opening portrait of the rise and fall of the American working class, and a shockingly intimate visual history of Troy, New York that arcs over five hundred years—from Henry Hudson to the industrial revolution to a group of contemporary young women as they grow, survive, and love. Welcome to Troy, New York. The land where mastodon roamed, the Mohicans lived, and the Dutch settled in the seventeenth century. Troy grew from a small trading post into a jewel of the Industrial Revolution. Horseshoes, rail ties, and detachable shirt collars were made there and the middle class boomed, making Troy the fourth wealthiest city per capita in the country. Then, the factories closed, the middle class disappeared, and the downtown fell into disrepair. Troy is the home of Uncle Sam, the Rensselaer Polytechnic Institute, the Rensselaer County Jail, the photographer Brenda Ann Kenneally, and the small group of young women, their children, lovers, and families who Kenneally has been photographing for over a decade. Before Kenneally left Troy, her life looked a lot like the lives of these girls. With passion and profound empathy she has chronicled three generations—their love and heartbreak; their births and deaths; their struggles with poverty, with education, and with each other; and their joy. Brenda Ann Kenneally is the Dorothea Lange of our time—her work a bridge between the people she photographs, history, and us. What began as a brief assignment for The New York Times Magazine became an eye-opening portrait of the rise and fall of the American working class, and a shockingly intimate visual history of Troy that arcs over five hundred years. Kenneally beautifully layers archival images with her own photographs and collages to depict the transformations of this quintessentially American city. The result is a profound, powerful, and intimate look at America, at poverty, at the shrinking middle class, and of people as they grow, survive, and love.

Antitrust Analysis of Online Sales Platforms & Copyright Limitations and Exceptions Bruce Kilpatrick,Pierre Kobel,Pranvera Këllezi,2018-07-03 This book gathers international and national reports from across the globe on key questions in the field of antitrust and intellectual property. The first part discusses the application of competition law to online sales platforms, which is increasingly a focus for anti-trust authorities around the world. A detailed international report explores which are the major challenges for competition law generated by the growth of online platforms. It provides an excellent comparative study of this complex and challenging subject. The second part of the book gathers contributions from various jurisdictions on the topic “To what extent do current exclusions and limitations to copyright strike a fair balance between the rights of owners and fair use by private individuals and others ? This section presents an international report, which offers an unparalleled comparative analysis of this topic, bringing together common themes and contrasting the various national provisions dealing with exceptions to copyright, amongst other things. The book also includes the resolutions passed by the General Assembly of the International League of Competition Law (LIDC) following a debate on each of these topics, which include proposed solutions and recommendations. The LIDC is a long-standing international association that focuses on the interface between competition law and intellectual property law, including unfair competition issues.

Ist das Anschauen von Videostreams im Internet legal? Eine Studie zur Rechtmäßigkeit des Streaming aus urheberrechtlicher Sicht Michael Oelgeschläger,2014-11 Die Streaming-Technologie als neue Form der Mediennutzung für den Konsum von Musik- und Videodateien durch Angebote wie Maxdome, Netflix oder MyVideo erfreut sich wachsender Beliebtheit und gewinnt an Bedeutung. Das Streaming ist ein Vorgang, bei dem kontinuierlich Daten aus dem Internet in einem Datenstrom an den Computer oder ein anderes Endgerät übertragen und gleichzeitig als Audio- oder Videostream wiedergegeben werden. Während des Streaming Prozesses werden die übertragenen Daten jedoch im Arbeitsspeicher bzw. im Browser-Cache für eine konstante und verzögerungsfreie Wiedergabe zwischengespeichert. Die Zwischenspeicherungen der Daten bzw. der urheberrechtlich geschützten Teile des Werkes verstoßen dabei gegen das Vervielfältigungsrecht nach § 16 UrhG. Dies führt dazu, dass bei vielen Internetnutzern auch aufgrund der Abmahnaffäre um das Videostreamingportal Redtube gewisse Zweifel und Unsicherheiten bezüglich der Legalität des Streaming bestehen, welche durch diese Studie behoben werden sollen.

Algorithms of Oppression Safiya Umoja Noble,2018-01-08 As seen in Wired and Time A revealing look at how negative biases against women of color are embedded in search engine results and algorithms Run a Google search for “black girls”—what will you find? “Big Booty” and other sexually explicit terms are likely to come up as top search terms. But, if you type in “white girls,” the results are radically different. The suggested porn sites and un-moderated discussions about “why black women are so sassy” or “why black women are so angry” presents a disturbing portrait of black womanhood in modern society. In Algorithms of Oppression, Safiya Umoja Noble challenges the idea that search engines like Google offer an equal playing field for all forms of ideas, identities, and activities. Data discrimination is a real social problem; Noble argues that the combination of private interests in promoting certain sites, along with the monopoly status of a relatively small number of Internet search engines, leads to a biased set of search algorithms that privilege whiteness and discriminate against people of color, specifically women of color. Through an analysis of textual and media searches as well as extensive research on paid online advertising, Noble exposes a culture of racism and sexism in the way discoverability is created online. As search engines and their related companies grow in importance—operating as a source for email, a major vehicle for primary and secondary school learning, and beyond—understanding and reversing these disquieting trends and discriminatory practices is of utmost importance. An original, surprising and, at times, disturbing account of bias on the internet, Algorithms of Oppression contributes to our understanding of how racism is created, maintained, and disseminated in the 21st century. Safiya Noble discusses search engine bias in an interview with USC Annenberg School for Communication and Journalism

Thinking Ahead - Essays on Big Data, Digital Revolution, and Participatory Market Society Dirk

Helbing, 2015-04-10 The rapidly progressing digital revolution is now touching the foundations of the governance of societal structures. Humans are on the verge of evolving from consumers to prosumers, and old, entrenched theories – in particular sociological and economic ones – are falling prey to these rapid developments. The original assumptions on which they are based are being questioned. Each year we produce as much data as in the entire human history - can we possibly create a global crystal ball to predict our future and to optimally govern our world? Do we need wide-scale surveillance to understand and manage the increasingly complex systems we are constructing, or would bottom-up approaches such as self-regulating systems be a better solution to creating a more innovative, more successful, more resilient, and ultimately happier society? Working at the interface of complexity theory, quantitative sociology and Big Data-driven risk and knowledge management, the author advocates the establishment of new participatory systems in our digital society to enhance coordination, reduce conflict and, above all, reduce the “tragedies of the commons,” resulting from the methods now used in political, economic and management decision-making. The author Physicist Dirk Helbing is Professor of Computational Social Science at the Department of Humanities, Social and Political Sciences and an affiliate of the Computer Science Department at ETH Zurich, as well as co-founder of ETH’s Risk Center. He is internationally known for the scientific coordination of the FuturICT Initiative which focuses on using smart data to understand techno-socio-economic systems. “Prof. Helbing has produced an insightful and important set of essays on the ways in which big data and complexity science are changing our understanding of ourselves and our society, and potentially allowing us to manage our societies much better than we are currently able to do. Of special note are the essays that touch on the promises of big data along with the dangers...this is material that we should all become familiar with!” Alex Pentland, MIT, author of Social Physics: How Good Ideas Spread - The Lessons From a New Science Dirk Helbing has established his reputation as one of the leading scientific thinkers on the dramatic impacts of the digital revolution on our society and economy. Thinking Ahead is a most stimulating and provocative set of essays which deserves a wide audience.” Paul Ormerod, economist, and author of Butterfly Economics and Why Most Things Fail. It is becoming increasingly clear that many of our institutions and social structures are in a bad way and urgently need fixing. Financial crises, international conflicts, civil wars and terrorism, inaction on climate change, problems of poverty, widening economic inequality, health epidemics, pollution and threats to digital privacy and identity are just some of the major challenges that we confront in the twenty-first century. These issues demand new and bold thinking, and that is what Dirk Helbing offers in this collection of essays. If even a fraction of these ideas pay off, the consequences for global governance could be significant. So this is a must-read book for anyone concerned about the future. Philip Ball, science writer and author of Critical Mass “This collection of papers, brought together by Dirk Helbing, is both timely and topical. It raises concerns about Big Data, which are truly frightening and disconcerting, that we do need to be aware of; while at the same time offering some hope that the technology, which has created the previously unthought-of dangers to our privacy, safety and democracy can be the means to address these dangers by enabling social, economic and political participation and coordination, not possible in the past. It makes for compelling reading and I hope for timely action.” Eve Mitleton-Kelly, LSE, author of Corporate Governance and Complexity Theory and editor of Co-evolution of Intelligent Socio-technical Systems

It Must've Been Something He Wrote Nikita Deshpande, 2016-08-20 When obsessive book-lover (ahem, book snob) Amruta ? Ruta ? Adarkar arrives in Delhi to work as a marketing executive for Parker-Hailey's Publishing, she learns that the world of books is not as cozy as she'd imagined. Her eccentric taskmaster of a boss expects marketing miracles to happen on shoestring budgets and in record time, and surviving the job (and the city) means she'll have to master the local art of jugaad really fast. Worst of all, she's stuck being a publicist for Jishnu Guha, protein-shake lover, serial selfie-taker, and bestselling author of seven cheesy romance novels, the kind she wouldn't be caught dead reading. As Ruta struggles between work and life in a new city, she finds, much to her annoyance, that she needs Jishnu's help more than she cares to admit. But with her own parents getting a divorce, can Ruta dare to fall in love, especially with someone who's so impossibly different?

Asian Americans on Campus Rosalind S. Chou, Kristen Lee, Simon Ho, 2015-07-24 While there are books on racism in universities, few examine the unique position of Asian American undergraduates. This new book captures the voices and experiences of Asian Americans navigating the currents of race, gender, and sexuality as factors in how youth construct relationships and identities. Interviews with 70 Asian Americans on an elite American campus show how students negotiate the sexualized racism of a large institution. The authors emphasize the students' resilience and their means of resistance for overcoming the impact of structural racism.

Social Media Security Michael Cross, 2013-11-01 Social networks, particularly public ones, have become part of the fabric of how we communicate and collaborate as a society. With value from micro-level personal networking to macro-level outreach, social networking has become pervasive in people's lives and is now becoming a significant driving force in business. These new platforms have provided new approaches to many critical enterprise functions, including identifying, communicating, and gathering feedback with customers (e.g., Facebook, Ning); locating expertise (e.g., LinkedIn); providing new communication platforms (e.g., Twitter); and collaborating with a community, small or large (e.g., wikis). However, many organizations have stayed away from potential benefits of social networks because of the significant risks associated with them. This book will help an organization understand the risks present in social networks and provide a framework covering policy, training and technology to address those concerns and mitigate the risks presented to leverage social media in their organization. The book also acknowledges that many organizations have already exposed themselves to more risk than they think from social networking and offers strategies for dialing it back to retake control. Defines an organization's goals for social networking Presents the risks present in social networking and how to mitigate them Explains how to maintain continuous social networking security

The Testosterone Principles 2: Manhood and Other Stuff TC Luoma, 2012-02-01 You should know up front that his book might cause you to reevaluate your life. It might influence you to quit your job and switch careers. You might start to look at your relationships in a different way. Hell, it might even cause you to realize that you're not in a good marriage. That's not just hyperbole, either. T. C. Luoma's popular weekly column—the best of which

are featured here in *The Testosterone Principles 2: Manhood and Other Stuff*—has elicited exactly such potentially life-changing thoughts from the people who regularly read his work. He doesn't preach or rap you on the knuckles. Instead, he shows you glimpses of what life—your life—could and maybe should look like. If you've got even a speck of self-awareness, you end up asking yourself, "Hey, is he talking about me?" His observations, liberally backed up with science and spiced up with quirky references to popular culture, serve as a guide to the weird, conflicted, often horribly flawed creature called man.

Intellectual Property Excesses Enrico Bonadio, Aislinn O'Connell, 2022-06-30 This collection of essays highlights the sometimes absurd outcomes which an unjustified overprotection of intellectual property (IP) may lead to. It collects and comments on a series of IP disputes which have taken the notion of IP protection to extremes. From individuals being sued for hundreds of thousands of dollars for sharing a playlist, to sports spectators being arrested for wearing the 'wrong' dresses, passing through granting patents for inventions obtained by misappropriating traditional knowledge, and trademark protection of merely descriptive signs, this book brings together a broad range of examples from across the IP spectrum where protection and enforcement have been used or threatened on unreasonable and/or untenable grounds. The aim of the book is to criticise these excesses precisely because they harm IP; and because they contribute to creating an environment where more and more people are led to

'hate' IP, and view it as a protectionist regime which discourages creativity in innovation and ends up safeguarding the owners of monopolistic rights which restrict trade, competition and people's freedom. This is not, therefore, a book against IP, it is instead a call for change and an attempt to 'save' IP through critiquing its excesses and preventing such a fascinating area of law from continuing to be an easy target for criticism. The book includes a foreword by Jason Mazzone, Albert E Jenner Jr Professor of Law at the University of Illinois, USA. The Internet Felix von Keudell,2012
