Saving Chimpanzees - A Man On A Rescue Mission Eugene Cussons,2012-11-21 Genetically, the chimpanzee is humankind's closest relative in the animal kingdom. Yet in recent times humans have shown scant regard for the welfare of their intelligent cousin. Conflicts and endemic poverty across their range have decimated wild chimpanzee populations and they are today a seriously endangered species. Destruction of their habitat and the bush meat trade have disrupted their complex social structures, often resulting in orphaned youngsters - some of which are sold illegally as exotic 'pets' to people who do not understand their highly specialised needs. In association with the Jane Goodall Institute South Africa, Eugene Cussons and his family established Chimpanzee Eden in the South African Lowveld as a sanctuary for the relocation of abused and orphaned chimpanzees from all over Africa. Often at great personal risk, Cussons travels throughout strife-torn African countries and brings traumatised primates back to the safety of Chimp Eden where, for the first time for most of them, they have freedom and the opportunity of being with their own kind, as well as the attention of experts. Saving Chimpanzees is a remarkable account of some of his rescue missions - complicated operations requiring diplomacy

and no small measure of courage and dedication. This updated edition includes section on the recent traumatic events at Chimp Eden. Eugene Cussons explains the reasons for the chimpanzees' attack on a tour guide and provides an insider's glimpse into the events of that fateful day.

Saving Bravo Stephan Talty,2018 The untold story of the most important rescue mission not just of the Vietnam War, but the entire Cold War: one American aviator, who knew our most important secrets, crashed behind enemy lines and risked capture by both the North Vietnamese and the Soviets. One Navy SEAL and his Vietnamese partner had to sneak past them all to save him. At the height of the Vietnam War, few American airmen are more valuable than Lt. Colonel Gene Hambleton. His memory is filled with highly classified information that the Soviets and North Vietnamese badly want. When Hambleton is shot down in the midst of North Vietnam's Easter Offensive, US forces place the entire war on hold to save a single man hiding amongst 30,000 enemy troops and tanks. Airborne rescue missions fail, killing eleven Americans. Finally, Navy SEAL Thomas Norris and his Vietnamese guide, Nguyen Van Kiet, volunteer to go after him on foot. Gliding past hundreds of enemy soldiers, it takes them days to reach Hambleton, who, guided toward his rescuers via improvised radio code, is barely alive, deeply malnourished, and hallucinating after eleven days on the run. In this deeply-researched, untold story, award-winning author Stephan Talty describes the extraordinary mission that led Hambleton to safety. Drawing from dozens of interviews and access to unpublished papers, *Saving Bravo* is the riveting story of one of the greatest rescue missions in the history of the Special Forces.
