The New Pakistani Middle Class Ammara

Maqsood,2017-11-13 Images of religious extremism and violence in Pakistan—and the narratives that interpret them—inform global events but also twist back to shape local class politics. Ammara Maqsood focuses on life in Lahore, where she untangles these narratives to show how central they are for understanding competition between middle-class groups.

Tellings and Texts Francesca Orsini, Katherine Butler Schofield,2015-10-05 Examining materials from early modern and contemporary North India and Pakistan, *Tellings and Texts* brings together seventeen first-rate papers on the relations between written and oral texts, their performance, and the musical traditions these performances have entailed. The contributions from some of the best scholars in the field cover a wide range of literary genres and social and cultural contexts across the region. The texts and practices are contextualized in relation to the broader social and political background in which they emerged, showing how religious affiliations, caste dynamics and political concerns played a role in shaping social identities as well as aesthetic sensibilities. By doing so this book sheds light into theoretical issues of more general significance, such as textual versus oral norms; the features of oral performance and improvisation; the role of the text in performance; the aesthetics and social dimension of performance; the significance of space in performance history and important considerations on repertoires of story-telling. The book also contains links to audio files of some of the works discussed in the text. *Tellings and Texts* is essential reading for anyone with an interest in South Asian culture and, more generally, in the theory and practice of oral literature, performance and

story-telling.

Pop Culture in Asia and Oceania Jeremy A.

Murray, Kathleen Nadeau, 2016-08-15 This ready reference is a comprehensive guide to pop culture in Asia and Oceania, including topics such as top Korean singers, Thailand's sports heroes, and Japanese fashion. This entertaining introduction to Asian pop culture covers the global superstars, music idols, blockbuster films, and current trends—from the eclectic to the underground—of East Asia and South Asia, including China, Japan, Korea, India, the Philippines, Thailand, Vietnam, and Pakistan, as well as Oceania. The rich content features an exploration of the politics and personalities of Bollywood, a look at how baseball became a huge phenomenon in Taiwan and Japan, the ways in which censorship affects social media use in these regions, and the influence of the United States on the movies, music, and Internet in Asia. Topics include contemporary literature, movies, television and radio, the Internet, sports, video games, and fashion. Brief overviews of each topic precede entries featuring key musicians, songs, published works, actors and actresses, popular websites, top athletes, video games, and clothing fads and designers. The book also contains top-ten lists, a chronology of pop culture events, and a bibliography. Sidebars throughout the text provide additional anecdotal information.

Focus: Popular Music in Contemporary India Natalie

Sarrazin, 2019-11-28 Focus: Popular Music in Contemporary India examines India's musical soundscape beyond the classical and folk traditions of old to consider the culturally, socially, and politically rich contemporary music that is defining and energizing an Indian youth culture on the precipice of a major identity shift. From Bollywood film songs and Indo-jazz to bhangra hip-hop and Indian death

metal, the book situates Indian popular music within critical and historical frameworks, highlighting the unprecedented changes the region's music has undergone in recent decades. This critical approach provides readers with a foundation for understanding an Indian musical culture that is as diverse and complex as the region itself. Included are case studies featuring song notations, first-person narratives, and interviews of well-known artists and emerging musicians alike. Illuminated are issues of great import in India today—as reflected through its music—addressing questions of a national aesthetic, the effects of Western music, and identity politics as they relate to class, caste, LGBTQ perspectives, and other marginalized voices. Presented through a global lens, *Focus: Popular Music in Contemporary India* contextualizes the dynamic popular music of India and its vast cultural impact.

Impossible Citizens Neha Vora, 2013-02-25 Indian communities have existed in the Gulf emirate of Dubai for more than a century. Since the 1970s, workers from South Asia have flooded into the emirate, enabling Dubai's huge construction boom. They now compose its largest noncitizen population. Though many migrant families are middle-class and second-, third-, or even fourth-generation residents, Indians cannot become legal citizens of the United Arab Emirates. Instead, they are all classified as temporary guest workers. In *Impossible Citizens*, Neha Vora draws on her ethnographic research in Dubai's Indian-

dominated downtown to explore how Indians live suspended in a state of permanent temporariness. While their legal status defines them as perpetual outsiders, Indians are integral to the Emirati nation-state and its economy. At the same time, Indians—even those who have established thriving diasporic neighborhoods in the emirate—disavow any interest in formally belonging to Dubai and instead consider India their home. Vora shows how these multiple and conflicting logics of citizenship and belonging contribute to new understandings of contemporary citizenship, migration, and national identity, ones that differ from liberal democratic models and that highlight how Indians, rather than Emiratis, are the quintessential—yet impossible—citizens of Dubai.

Understanding the Life Course Lorraine

Green,2016-12-20 Understanding the Life Course provides a uniquely comprehensive guide to the entire life course from an interdisciplinary perspective. Combining important insights from sociology and psychology, the book presents the concept's theoretical underpinnings in an accessible style, supported by real-life examples. From birth and becoming a parent, to death and grieving for the loss of others, Lorraine Green explores all stages of the life course through key research studies and theories, in conjunction with issues of social inequality and critical examination of lay viewpoints. She highlights the many ways the life course can be interpreted, including themes of linearity and multidirectionality, continuity and discontinuity, and the interplay between nature and nurture. The second edition updates key data and includes additional material on topics such as new technologies, changing markers of transitions to adulthood, active ageing, resilience and neuropsychology. This comprehensive approach will continue to be essential reading for students on vocational programmes such as social work and nursing, and will provide thought-provoking insight into the wider contexts of the life course for students of psychology and sociology.
