[!\[\]\(a870788d6ed9b8fd294b7654a8c8526b_img.jpg\) **Freedom to Smoke**](#) Jarrett Rudy,2005-09-30 In the late Victorian era, smoking was a male habit and tobacco was consumed mostly in pipes and cigars. By the mid-twentieth century, advertising and movies had not only made it acceptable for women to smoke but smoking had become a potent symbol of their emancipation. From mass cigarette production in 1888 to the first studies linking cigarettes to lung cancer in 1950, The Freedom to Smoke explores gender and other key issues related to smoking in Montreal, including the arrival of big tobacco, first attempts to ban the cigarette, wartime tobacco funds, French Canadian smoking habits, rituals of manliness, and the growing respectability of women smokers - none of which have been examined by historians. Jarrett Rudy argues that while people smoked for highly personal reasons, their smoking rituals were embedded in social relations and shaped by dominant norms of taste and etiquette. The Freedom to Smoke examines the role of the tobacco industry, health experts, churches, farmers, newspapers, the military, the state, and smokers themselves. A pioneering city-based study, it weaves Western understandings of respectable smoking through Montreal's diverse social and cultural fabric. Rudy argues that etiquette gave smoking a political role, reflecting and serving to legitimize beliefs about inclusion, exclusion, and hierarchy that were at the core of a transforming liberal order.

This volume is particularly significant because tobacco smoke not only causes more deaths from cancer than any other known agent; it also causes more deaths from vascular and respiratory diseases. This volume contains all the relevant information on both direct and passive smoking. It is organised by first looking at the nature of agent before collecting the evidence of cancer in humans. This is followed by carcinogenicity studies on animals and then any other data relevant to an evaluation.
