Marine Applications of Advanced Fibre-reinforced Composites Jasper Graham-Jones,John

Summerscales,2015-09-28 The marine environment presents significant challenges for materials due to the potential for corrosion by salt water, extreme pressures when deeply submerged and high stresses arising from variable weather. Well-designed fibre-reinforced composites can perform effectively in the marine environment and are lightweight alternatives to metal components and more durable than wood. Marine Applications of Advanced Fibre-Reinforced Composites examines the technology, application and environmental considerations in choosing a fibre-reinforced composite system for use in marine structures. This book is divided into two parts. The chapters in Part One explore the manufacture, mechanical behavior and structural performance of marine composites, and also look at the testing of these composites and end of life environmental considerations. The chapters in Part Two then investigate the applications of marine composites, specifically for renewable energy devices, offshore oil and gas applications, rigging and sails. Underwater repair of marine composites is also reviewed. Comprehensively examines all aspects of fibre-reinforced marine composites, including the latest advances in design, manufacturing methods and performance Assesses the environmental impacts of using fibre-reinforced composites in marine environments, including end of life considerations Reviews advanced fibre-reinforced composites for renewable energy devices, rigging, sail textiles, sail shape optimisation and offshore oil and gas applications

Jackspeak Rick Jolly,2012-01-16 Jackspeak is a comprehensive reference guide to the humorous and colourful slang of the Senior Service, explaining in layman's terms the otherwise cryptic everyday language of the Royal Navy, the Royal Marines and the Fleet Air Arm. Featuring more than 4,000 alphabetical entries, it was compiled by an ex-RM surgeon who spent 24 years in the service. With useful cross-references and examples of common usage throughout, along with excellent illustrations by Tugg, the cartoonist from service newspaper Navy News, it is the essential book for current and ex-Navy personnel and their families, or anyone interested in the modern armed forces. Conway is proud to present a revised and updated edition of this classic volume, which is already acknowledged as the standard reference for every Jack, Jenny and Royal joining the Andrew, or for any civvy who wants a real insight into the unique culture of the Navy.

Going Commando Mark Time, 2015-08-06 'TOUGH, TOUCHING... IT'S A RIGHT GOOD READ' - DAILY TELEGRAPH At 16, Mark Time wants to become either a geologist or a Royal Marines Commando. So which does he choose? Despite his love of basalt, he chooses the career that teaches him how to kill... and sh*t in plastic bags. Knowing his weak body will have to shape up to complete thirty weeks of commando training, Mark prepares for the Royal Marines by sleeping in his shed wearing only plastic bags. He braves pain by ordering his mate to attack him while trapped in a sleeping bag. He starves himself in a stupid urban survival exercise, turning down the offer of crispy pancakes from his bewildered mother. He is ready. Some might say for the nut house... Often hilarious and yet shockingly sobering, this is the true story of a boy who joins one of the world's most elite military units with only naivety and incompetence equalling his will to succeed. 'A cover to cover laughathon' - SOLDIER MAGAZINE
