**Frozen Empires** Adrian Howkins,2017 Frozen Empires is a study of the ways in which imperial powers (American, European, and South American) have used and continue to use the environment and the value of scientific research to support their political claims in the Antarctic Peninsula region. In making a case for imperial continuity, this book offers a new perspective on Antarctic history and on global environmental politics more broadly.

**Tax Rules in Non-tax Agreements** Michael Lang,2012 Tax rules in non-tax agreements is a topic of great relevance in practice. Yet, up to now, this area of tax law has been generally neglected by researchers. The aim of this book is to close this gap in tax law research and to analyse the provisions of international agreements and similar legal instruments under international law which provide for a special domestic law tax treatment for specific individuals and international organizations. Twenty-four national reports from countries across the globe have been compiled and are published in this volume. Seventy experts, including the authors of the national reports, convened for a joint conference on Tax Rules in Non-Tax Agreements in Rust (Austria) from 7-9 July 2011. The national reports focus on the interaction of tax rules in non-tax agreements with the corresponding tax treaty rules. Moreover, possible matters of dispute regarding the justification of these tax rules within the legal and political frameworks of the different states are given much attention. The objective of this book is to show the relevance of tax rules in non-tax agreements, to highlight problematic issues and to encourage future research in this important field of tax law

*A Grammar of Gaagudju* Mark Harvey,2011-07-22 Gaagudju is a previously undescribed and now nearly extinct language of northern Australia. This grammar provides an overall description of the language. Australian languages generally show a high degree of structural similarity to one another. Gaagudju conforms to some of the common Australian patterns, yet diverges significantly from others. Thus while it has a standard Australian phonological inventory, its prosodic systems differ from those of most Australian languages, with stressed and unstressed syllables showing marked differences in realisation. Like many northern languages, it has complex systems of both prefixation and suffixation to nominals and verbs. Prefixation provides information about nominal classification (4 classes), mood, and pronominal cross-reference (Subjects, Objects, and Indirect Objects). Suffixation provides information about case, tense, and aspect. As in many languages, there is a clear distinction between productive and unproductive morphology. Gaagudju differs from most Australian languages in that a considerable amount of its morphology is unproductive, showing complex and irregular allomorphic variation. Gaagudju is like most Australian languages in that it may be described as a free word order language. However, word order is not totally free and strictly ordered phrasal compounding structures are significant (e.g. in the formation of denominal verbs).

**We Dream Together** Anne Eller,2016-11-18 In *We Dream Together* Anne Eller breaks with dominant narratives of conflict between the Dominican Republic and Haiti by tracing the complicated history of Dominican emancipation and independence between 1822 and 1865. Eller moves beyond the small body of writing by Dominican elites that often narrates Dominican nationhood to craft inclusive, popular histories of identity, community, and freedom, summoning sources that range from trial records and consul reports to poetry and song. Rethinking Dominican relationships with their communities, the national project, and the greater Caribbean, Eller shows how popular anticolonial resistance was anchored in a rich and complex political culture. Haitians and Dominicans fostered a common commitment to Caribbean freedom, the abolition of slavery, and popular democracy, often well beyond the reach of the state. By showing how the island's political roots are deeply entwined, and by contextualizing this history within the wider Atlantic world, Eller demonstrates the centrality of Dominican anticolonial struggles for understanding independence and emancipation throughout the Caribbean and the Americas.

International Relations in Latin America Andrea Oelsner,2013-10-11 This work studies the development of bilateral relations in two pairs of states (dyads): Argentina-Brazil and Argentina-Chile. It takes on a moderate constructivist approach that incorporates into the analysis of international relations the role of identities, ideas and perceptions as well as of material forces, and understands that the former are affected and changed during interaction. It also uses to securitization theory to explain how issues come or cease to be considered security matters through social constructions.

**Out There Somewhere** Simon J. Ortiz,2022-08-30 He has been out there somewhere for a while now, a poet at large in America. Simon Ortiz, one of our finest living poets, has been a witness, participant, and observer of interactions between the Euro-American cultural world and that of his Native American people for many years. In this collection of haunting new work, he confronts moments and instances of his personal past—and finds redemption in the wellspring of his culture. A writer known for deeply personal poetry, Ortiz has produced perhaps his most personal work to date. In a collage of journal entries, free-verse poems, and renderings of poems in the Acoma language, he draws on life experiences over the past ten years—recalling time spent in academic conferences and writers' colonies, jails and detox centers—to convey something of the personal and cultural history of dislocation. As an American Indian artist living at times on the margins of mainstream culture, Ortiz has much to tell about the trials of alcoholism, poverty, displacement. But in the telling he affirms the strength of Native culture even under the most adverse conditions and confirms the sustaining power of Native beliefs and

connections: With our hands, we know the sacred earth. / With our spirits, we know the sacred sky. Like many of his fellow Native Americans, Ortiz has been out there somewhere—Portland and San Francisco, Freiburg, Germany, and Martinique—away from his original homeland, culture, and community. Yet, as these works show, he continues to be absolutely connected socially and culturally to Native identity: We insist that we as human cultural beings must always have this connection, he writes, because it is the way we maintain a Native sense of existence. Drawing on this storehouse of places, times, and events, *Out There Somewhere* is a rich fusion taking readers into the heart and soul of one of today's most exciting and original American poets.

**Mobilizing Aid For Trade** Inter American Development Bank, 2006-09-14 This report was prepared by the Integration and Trade Sector (INT) as a contribution to the regional meeting on Mobilizing Aid for Trade: Latin America and the Caribbean, organized jointly by the IDB and the World Trade Organization (WTO) in collaboration with the World Bank, and hosted by the Government of Peru in Lima on September 13-14, 2007. The meeting is the first of three regional meetings organized by the WTO to prepare for its November 2007 General Council meeting on aid for trade.

**Empire by Invitation** Michel Gobat, 2018-04-01 Michel Gobat traces the untold story of the rise and fall of the first U.S. overseas empire to William Walker, a believer in the nation's manifest destiny to spread its blessings not only westward but abroad as well. In the 1850s Walker and a small group of U.S. expansionists migrated to Nicaragua determined to forge a tropical "empire of liberty." His quest to free Central American masses from allegedly despotic elites initially enjoyed strong local support from liberal Nicaraguans who hoped U.S.-style democracy and progress would spread across the land. As Walker's group of "filibusters" proceeded to help Nicaraguans battle the ruling conservatives, their seizure of power electrified the U.S. public and attracted some 12,000 colonists, including moral reformers. But what began with promises of liberation devolved into a reign of terror. After two years, Walker was driven out. Nicaraguans' initial embrace of Walker complicates assumptions about U.S. imperialism. *Empire by Invitation* refuses to place Walker among American slaveholders who sought to extend human bondage southward. Instead, Walker and his followers, most of whom were Northerners, must be understood as liberals and democracy promoters. Their ambition was to establish a democratic state by force. Much like their successors in liberal-internationalist and neoconservative foreign policy circles a century later in Washington, D.C., Walker and his fellow imperialists inspired a global anti-U.S. backlash. Fear of a "northern colossus" precipitated a hemispheric alliance against the United States and gave birth to the idea of Latin America.

*Experiments in Second-Language Learning* Edward Crothers, 2012-12-02 *Experiments in Second-Language Learning* focuses on the application of mathematical learning models in learning the Russian language as a second language. The book first discusses remarks on stimulus-response theories of language learning. Psychology and second-language instruction; psychological theory; linguistic theory and second-language learning; and remarks on theories of conditioning are discussed. The text also focuses on learning to discriminate Russian phonemes;

learning the orthographic representations of Russian sounds; and vocabulary and morphology learning. Learning exercises are presented; these focused on inflection, semantics, and phonemic transcriptions. The book also looks at grammar learning as influenced by translations, vocabulary, and presentation order; training on negative instances or on isolated words; overview of Russian grammar experiments; and related research. Suggestions for future research are presented. The text is highly valuable for readers interested in studying how mathematical learning models can be used in learning one particular language as a second language.

Urban Voices Susan Lobo, 2002-12-01 California has always been America's promised land—for American Indians as much as anyone. In the 1950s, Native people from all over the United States moved to the San Francisco Bay Area as part of the Bureau of Indian Affairs Relocation Program. Oakland was a major destination of this program, and once there, Indian people arriving from rural and reservation areas had to adjust to urban living. They did it by creating a cooperative, multi-tribal community—not a geographic community, but rather a network of people linked by shared experiences and understandings. The Intertribal Friendship House in Oakland became a sanctuary during times of upheaval in people's lives and the heart of a vibrant American Indian community. As one long-time resident observes, The Wednesday Night Dinner at the Friendship House was a must if you wanted to know what was happening among Native people. One of the oldest urban Indian organizations in the country, it continues to serve as a gathering place for newcomers as well as for the descendants of families who arrived half a century ago. This album of essays, photographs, stories, and art chronicles some of the people and events that have played—and continue to play—a role in the lives of Native families in the Bay Area Indian community over the past seventy years. Based on years of work by more than ninety individuals who have participated in the Bay Area Indian community and assembled by the Community History Project at the Intertribal Friendship House, it traces the community's changes from before and during the relocation period through the building of community institutions. It then offers insight into American Indian activism of the 1960s and '70s—including the occupation of Alcatraz—and shows how the Indian community continues to be created and re-created for future generations. Together, these perspectives weave a richly textured portrait that offers an extraordinary inside view of American Indian urban life. Through oral histories, written pieces prepared especially for this book, graphic images, and even news clippings, Urban Voices collects a bundle of memories that hold deep and rich meaning for those who are a part of the Bay Area Indian community—accounts that will be familiar to Indian people living in cities throughout the United States. And through this collection, non-Indians can gain a better understanding of Indian people in America today. If anything this book is expressive of, it is the insistence that Native people will be who they are as Indians living in urban communities, Natives thriving as cultural people strong in Indian ethnicity, and Natives helping each other socially, spiritually, economically, and politically no matter what. I lived in the Bay Area in 1975-79 and 1986-87, and I was always struck by the Native (many people do say 'American Indian' emphatically!) community and its cultural identity that has always insisted on being second to none. Yes, indeed this book is a dynamic, living document and tribute to the Oakland Indian community as well as to the Bay

Area Indian community as a whole. –Simon J. Ortiz When my family arrived in San Francisco in 1957, the people at the original San Francisco Indian Center helped us adjust to urban living. Many years later, I moved to Oakland and the Intertribal Friendship House became my sanctuary during a tumultuous time in my life. The Intertribal Friendship House was more than an organization. It was the heart of a vibrant tribal community. When we returned to our Oklahoma homelands twenty years later, we took incredible memories of the many people in the Bay Area who helped shape our values and beliefs, some of whom are included in this book. –Wilma Mankiller, former Principal Chief, Cherokee Nation

Crossing Empires Kristin L. Hoganson, Jay Sexton, 2020-01-03 Weaving U.S. history into the larger fabric of world history, the contributors to *Crossing Empires* de-exceptionalize the American empire, placing it in a global transimperial context. They draw attention to the breadth of U.S. entanglements with other empires to illuminate the scope and nature of American global power as it reached from the Bering Sea to Australia and East Africa to the Caribbean. With case studies ranging from the 1830s to the late twentieth century, the contributors address topics including diplomacy, governance, anticolonialism, labor, immigration, medicine, religion, and race. Their transimperial approach—whether exemplified in examinations of U.S. steel corporations partnering with British imperialists to build the Ugandan railway or the U.S. reliance on other empires in its governance of the Philippines—transcends histories of interimperial rivalries and conflicts. In so doing, the contributors illuminate the power dynamics of seemingly transnational histories and the imperial origins of contemporary globality. Contributors.
