Good Autism Practice for Teachers Karen Watson,2022-03-15 This is an accessible guide for all trainees and teachers, providing practical, evidence-informed ways to support neurodivergent learners that will also benefit all pupils. It takes a close look at the theory around autism, including procedural /semantic memory, executive functioning, expressive/receptive language, sensory integration, behaviour as communication, and the importance of emotional literacy, co-regulation and resilience. It then delivers plenty of practical advice and suggestions to incorporate these ideas into day-to-day teaching, presenting high quality strategies to promote positive relationships and maximise teaching and learning outcomes. The book moves away from labels and encourages good inclusion practice to address the full range of needs in both mainstream primary and secondary classrooms.

Anything For a T-Shirt Ron Rubin,2004-11-01 Fred Lebow was a dreamer, the kind of dreamer who pursued his dream and made it a reality. And the world is still reaping its rewards." So begins this inspiring chronicle of a humbly born Holocaust survivor who parlayed natural marketing smarts—and vision—into a major position in recent American sports. He started the New York City Marathon, an event that transformed footracing from an elite, austere sport into a wildly applauded, attainable pursuit for all. Forging a path across the city's five boroughs, the marathon covers a daunting 26.2-mile course. Ron Rubin's fascinating book tells how Lebow popularized the race. With a stroke of marketing wizardry he turned it into the world's largest block party: a gritty mixture of urban theater and kindly entrepreneurship. This event has honored the spirit of the moment, imbued competition with joy, and celebrated play. It put winning within the realm of every man and woman and became a race for all runners. Lebow mainstreamed the notion of marathoning into popular culture; some half-million Americans now participate in the events. Equally significant, the book describes how Lebow scored his greatest personal victory by running in the marathon he created after being diagnosed with brain cancer.

William Van Alen, Fred T. Ley and the Chrysler Building George C. Kingston,2017-05-09 The Chrysler Building was the result of a remarkable collaboration between William Van Alen, a dreamer whose designs challenged orthodox architecture, and Fred T. Ley, a practical builder who turned dreams into reality. Together they realized Walter P. Chrysler's vision of an iconic structure that would (for 11 months) be the tallest building in the world. Van Alen is recognized as one of the most innovative architects of the 20th century. Ley rose from rod man on a survey team to head one of the largest construction companies in the world. Both men participated in the architectural revolution brought about by steel frame, curtain wall construction. This book chronicles how they designed and constructed the Chrysler Building and how the experience affected the rest of their lives.

Learning the Korn Shell Arnold Robbins,Bill Rosenblatt,2002-04-23 The first edition of this book covered the 1988 version of the Korn shell. Shortly after it was published, David Korn released the 1993 version, which included compatibility with the POSIX 1003.2 shell standard, as well as many new features. Although ksh93 has been slow to spread to the commercial Unix world, source code is now available, so anyone who wants a copy of the latest and greatest version of ksh93 has but to download the source and compile it. With this in mind, we have made ksh93 the focus of the second edition, with a summary of the differences available in an appendix. This edition covers the most recent ksh93 release available at the time of writing, which includes some significant features not found in earlier versions. The basic structure and flow of the book remains the same, and we have updated kshdb, the Korn Shell Debugger, to work with ksh93. Also included with this edition is a reference card that covers many of the features of

ksh93 described in this book.

Poison Bridget Zinn, 2013-03-12 Sixteen-year-old Kyra, a highly-skilled potions master, is the only one who knows her kingdom is on the verge of destruction—which means she's the only one who can save it. Faced with no other choice, Kyra decides to do what she does best: poison the kingdom's future ruler, who also happens to be her former best friend. But, for the first time ever, her poisoned dart...misses. Now a fugitive instead of a hero, Kyra is caught in a game of hide-and-seek with the king's army and her potioner ex-boyfriend, Hal. At least she's not alone. She's armed with her vital potions, a too-cute pig, and Fred, the charming adventurer she can't stop thinking about. Kyra is determined to get herself a second chance (at murder), but will she be able to find and defeat the princess before Hal and the army find her? Kyra is not your typical murderer, and she's certainly no damsel-in-distress—she's the lovable and quick-witted hero of this romantic novel that has all the right ingredients to make teen girls swoon.
