Love Never Dies Jamie Turndorf, Dr., 2014-08-26 Love Never Dies is guaranteed to give immense hope to those grieving the perceived loss of a loved one. Dr. Jamie Turndorf . . . provides stunning evidence of the continuity of love and life, along with the tools to help anyone connect with those in the unseen world. – Suzanne Giesemann, author of Messages of Hope Famed relationship therapist, author, and media personality Dr. Jamie Turndorf—known worldwide as Dr. Love—shares the amazing true story of her spiritual reconnection with her beloved deceased husband, internationally renowned former Jesuit priest Emile Jean Pin. Discovering for herself that relationships don't end in death, Jamie recounts her remarkable experience where, through the depths of her grief after Jean's sudden passing, her husband made his continued presence—and undying love—known. Drawing on these personal encounters, Jamie has created a groundbreaking new form of grief therapy that combines her acclaimed conflict-resolution techniques with after-death communication. The result: an unprecedented method that enables the bereaved to reconnect, resolve unfinished business, and make peace with the deceased. Filled with dozens of examples of spirit contact and communication, this book eliminates any doubt about life after death and shows that contact is ongoing. Loved ones in spirit don't just linger briefly before going to heaven and disappearing from your life. Rather, heaven is a state, not a place, and your loved ones have eternity to support you and heal any issues left behind when they passed on. Come to recognize the numerous signs from spirit that you may have been missing. Learn to trust yourself and the process that's right for you—not a shortened, artificial grief period prescribed by conventional doctors. Practice techniques for heightening your senses, expanding your awareness, and entering an open state, culminating in Jamie's method for Dialoguing with the Departed. When connection and love live on, fear is banished and relationships can grow and heal as never before. Begin opening your mind and your heart today!

Scanwiches Jon Chonko, 2011-11-08 A fresh way of looking at the world's most versatile food, Scanwiches is a declaration of love for that ubiquitous meal between two slices of bread: The Sandwich. As simple as they are, sandwiches seem to inspire unusual devotion and bitter argument. Debates have lasted decades over the best way to prepare a club, what a true Philly cheesesteak really is, or who deserves credit for inventing the hamburger. But why shouldn't people be passionate about sandwiches? They're a food that's threaded its way into the lives and cuisine of virtually every nation and culture where bread enters the daily diet. From Europe to South America, India to Vietnam, the hamburger and BLT to the wada pav and banh mi, sandwiches are often representative of regional and national identity—the food of the everyman. They reflect the history of the modern age, the story of the working class, and the evolution of mass-produced eats. From the invention of sliced bread to the hamburger assembly lines of modern fast food, sandwiches have unceremoniously taken us into the 21st century in the shadows of more brilliant symbols. Scanwiches takes the sandwich and spreads it out for all to see. There's nothing quaint or humble about its presentation. From full-frontal, cross sections of monsters like the Dagwood and club, to minute, geometric tea sandwiches whose construction looks more like minimalist art than culinary creation, Scanwiches presents unabashed food porn that satiates even the most severe sandwich fetish. A supernova of swirling bread, cheese, meat, and lettuce, suspended in a black, vacuous space, and reproduced at actual size,

each sandwich lays imposing, exposed, and tantalizing. Complimented by text revealing the origins and development of each sandwich throughout history, you'll learn to love and lust after these lowbrow delicacies in a whole new way.

The Husbands Sharmila Chauhan,2014-07-23 It's Aya's wedding day. Her third. Her current two husbands aren't too fussed. In a society in which there are few women, that's just what happens. But as the household prepares for the wedding feast, a stranger arrives – one who threatens to challenge everything they believe in. Against a backdrop of modern rural India, Sharmila Chauhan weaves an extraordinary tale of love and wonder. From the preparation of luxury food and the sacrifice of the lamb to the dressing of the bride and the dance to end all dances, this will be an exuberant, joyful and challenging piece of theatre. 'In parts of India, polyandry has become a necessity. Gendercide, as a consequence of the ancient preference for boys, the modern desire for smaller families and the increasing availability of ultrasound techniques to detect the gender of a baby still in the womb means that the number of females is declining. I wrote The Husbands both as a response to this but also as an exploration of the complexity of love, intimacy and trust between one woman and three men where gender differences and expectations are amplified. In a sense this play is as much a warning as an allegory for the fate of women in The West today.'

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
