*Automobile Insurance: Road Safety, New Drivers, Risks, Insurance Fraud and Regulation* Georges

Dionne,Claire Laberge-Nadeau,2012-12-06 Motor vehicle accidents are still a leading cause of death, even if the trend has somewhat declined over the past 20 years. Indeed, motor vehicle accidents are a significant cause of death in comparison with air and space transport accidents, homicides and even HIV infections, causes which are more often highlighted in the media. As shown in this book, motor vehicle accidents are particularly damaging to very young drivers. The assessment of driving risks is a common concern for road transportation safety and the automobile insurance industry. In both cases, there is an awareness of the great losses resulting from the deaths, injuries and property damage caused by traffic accidents. Research is essential to counteract this public health threat, to assess the success or failure of countermeasures, and to solve the problems it generates in the insurance industry. This book is for people concerned about road crashes (prevention and compensation) and about the insurance problems they pose - namely private and public institutional authorities, consultants, administrators, practitioners, and researchers interested in sharing the authors' experience in this domain. The book presents original contributions related to motor vehicle insurance and road

safety. All papers have been evaluated by external referees. Four subjects are covered: 1) Automobile Insurance Pricing, Risks and Asymmetric Information; 2) Insurance Fraud; 3) Young Drivers: Licensing Policies, Evaluation and Risks; and 4) Road Insurance Regulation.

**Insurance Claim Secrets Revealed!** R. David Murphy, Russell D. Longcore, 2007-04 This is the best book you can own on the strategies YOU need to use to get the insurance companies to pay you ALL the money you are entitled to collect when you have a claim. Wouldn't you agree that nothing else matters about insurance other than getting the claim PAID IN FULL? In this book, you will learn:  
&ndash The games and scams insurance companies use to cut costs and keep claim payments at the

lowest amounts possible &ndash When it's the right time to use an attorney &ndash How you can take control of your claim, and not allow the insurance company or claims adjuster to control YOU &ndash What a Public Adjuster is, and the valuable help you can get from Public Adjusters &ndash That the insurance adjuster is NOT there to help you &ndash and much more You will learn: &ndash What to do when you have a car accident...BEFORE you open the car door or talk to anyone &ndash How much MORE money I collected (thousands!) in the two little claims I had while writing this book &ndash About Diminished Value on automobiles, and how it can cost you THOUSANDS if you don't fight &ndash About cheap aftermarket auto parts that insurance companies LOVE, but leave you less safe &ndash And so much more Ask yourself these questions: Do you carry a spare tire and jumper cables in the trunk of your car? Do you have a toolbox at home? Have you ever bought a book or read an article that showed you how to fix something? Do you own a first aid kit? Do you have a fire extinguisher or smoke alarms in your home? Why would you do ANY of those things? Answer: So you are prepared BEFORE something bad happens. READ THIS BOOK BEFORE SOMETHING BAD

HAPPENS TO YOU!!! READ THIS BOOK AFTER SOMETHING BAD HAPPENS TO YOU, TO KEEP IT FROM GETTING WORSE! This book should be on the shelf in EVERY HOME. This book should be in EVERY automobile glove box.
