Dr. Rip's Essential Beach Book Rob

Brander, 2024-05-28 How do waves break, and what makes good surf? What are dangerous rip currents, and how do you spot one? What should you do if you get caught in one? Australia's best-known surf scientist, Rob "Dr. Rip" Brander, takes readers on a fascinating and entertaining journey to uncover how beaches form and behave, the science of waves and currents, and how beaches respond to storms and climate change. He explains where the sand we lay our towels on came from, how the tides that wash up new treasures each day work, why no two beaches are exactly the same, and why some of them are disappearing. He also explores some of the hazards to watch out for, from rip currents to tsunamis to the (unlikely) event you find yourself swimming with a shark. Whether you're a surfer looking for the perfect wave or you just enjoy hitting the beach with friends and family, this book is a must-read for all ocean lovers.

Surf Dog Miracles Meish Goldish, 2012-08-01 One morning in September 2011, a large crowd gathered at the shore in Huntington Beach, California. The people had come to watch dozens of surfers ride the rolling ocean waves. This wasn't just any surfing competition, however—the surfers were dogs! With more than a thousand fans cheering the competitors on, an English bulldog named Sir Hollywood rode a long wave and was declared one of the winners. Surf dog competitions are fairly new, but dogs have been riding surfboards with their owners for fun since the 1920s. In *Surf Dog*

Miracles, kids will meet the talented dogs that learn to balance on a surfboard, recover if they almost fall off the board, and even surf backward. Some surf dogs raise money for charity, while others can help people with disabilities ride a wave. Packed with real-life stories and full-color photos of these special animals, this book is sure to be a favorite of dog-lovers everywhere. Surf Dog Miracles is part of Bearport's Dog Heroes series.
