Post-disaster Navigation and Allied Services over Opportunistic Networks Suman Bhattacharjee,Siuli Roy,Sipra Das Bit,2021-04-15 This book provides the details of developing a digital pedestrian map construction system over the intermittently connected mobile network. Over the past couple of decades, countries across the world, both developing and developed, have witnessed a significant number of disasters. Thus, it has become mandatory for each of the disaster-prone countries to equip themselves with appropriate measures to cope with the challenges of providing post-disaster services. Some of the serious challenges are incapacitated communication infrastructure, unstable power supply and inaccessible road networks. Out of these challenges, the destruction of road networks, especially in developing countries, acts as a major hindrance to effective disaster management. To be more specific, the success of a disaster response operation generally depends on the speed of evacuation and transportation of adequate amount of relief materials at the right time to the disaster-affected areas. Hence, map-based navigation support is a primary requirement for post-disaster relief operations. This book also provides the solution of the two other important post-disaster management services such as situational awareness and resource allocation. Both of these services are invariably dependent on the existence of navigation support. Finally, in order to offer such services, the other challenge is to address the problem of incapacitated communication infrastructure. This book also deals with such challenges in post-disaster scenarios and develops automated post-disaster management services.

Reinforcing Patriarchy Chetna Bhatia, The life of a common Indian woman is full of struggles, dilemmas, pressures and conflicts. Family's pressure to plan kids, explanations for opting night shift jobs, scolding about going alone to eating places and movies, reservation of seats in public transport, reaching out to diet and cosmetic industries to attain size zero and ultra-fair faces to get her boyfriend's attention back.Where does 21st century Indian society stand on such issues? Also, what role does mass media, especially advertising plays in influencing public mindset about women ? This work acknowledged the need of examining it with reference to a wider context of the hard core issues faced by women in their bedrooms, kitchens, offices, streets and living rooms. Therefore, a sincere effort was put in reaching out to the people and mapping their minds through a set of questions (hidden form) about the control over a woman's body, the concept of her beauty, aspects of her occupation and mobility, her role in decision-making and in division of labor in the households. The book goes one step ahead of the typical impact studies or analysis of stereotypes in advertisements. For those interested in women studies, the book contains facts about women's movement in India till 2016 and a complete list of issues affecting a woman from her bedroom to her workplace.Those interested in advertising and cultural studies can find a full-length discussion on basic aspects of advertising as a format and as an institution .For the scholars of media studies or sociology, the work contains self-constructed Likert scales and codes. Further, the research has attempted to directly compare the advertisements and society on common parameters. The study draws its basic concepts and critical perspective from the works of Richard W Polay, John Fiske, John Hartley, Daniel Schandler, Lewis Hedwig, Kamla Bhasin, Nivedita Menon, Naomi Wolf, Radha Kumar, Foucault, Erving Goffman and Laura Mulvey. The issue has been examined thoroughly in the light of contemporary events and factors which make it more relevant to the present stage of globalized Indian society.

Managing Innovation and Entrepreneurship Robert D. Hisrich,Claudine Kearney,2013-06-25 The first book to look at innovation/entrepreneurship from an international perspective, *Managing Innovation and Entrepreneurship: A Global Perspective* provides a step-by-step process for managing innovation and entrepreneurship in an organization in both turbulent and stable economic times. Authors Robert D. Hisrich and Claudine Kearney demonstrate how to manage innovation on a day-to-day basis—using a wide range of real world scenarios, theories, principles, best practices, case studies, and modern examples. The book provides detailed coverage of each aspect of the process of innovation required to achieve success, including what it takes to build an innovative and entrepreneurial organization, how to develop innovation and entrepreneurship in both individuals and teams, how to manage and operationalize innovation and entrepreneurship, how to develop a global business plan, and more.

FROM MUMBAI TO DUBAI TO BOLLYWOOD TO HOLLYWOOD RUSTOM MISTRY,2018-04-23 From Mumbai to Dubai to Bollywood to Hollywood is a factual description of the author's growing-up years in Mumbai, his working life in Dubai, getting conned by people he trusted in Mumbai, which led to his financial ruin that necessitated his return to Mumbai. He became a background crowd model and gradually, a full-time character actor in several popular TV serials, super hit Hindi films and a model in prestigious Indian and Pakistani ad films and music videos. He went on to crack a tough audition to bag a major role in a Hollywood biopic plus an English film for the NYFA-UCLA. From Mumbai to Dubai to Bollywood to Hollywood provides real-time insight into life's realities in Mumbai and Dubai in general and specifically for those having no contacts but want to become models and actors in Mumbai.

Techno-Societal 2016 Prashant M. Pawar,Babruvahan P. Ronge,R. Balasubramaniam,Sridevi Seshabhatter,2017-06-16 This volume originates from the proceedings of a multidisciplinary conference, *Techno-Societal 2016* in Maharashtra, India, that brings together faculty members of various engineering colleges to solve Indian regional relevant problems under the guidance of eminent researchers from various reputed organizations. The focus is on technologies that help develop and improve society, in particular on issues such as the betterment of differently abled people, environment impact, livelihood, rural employment, agriculture, healthcare, energy, transport, sanitation, water, education. This conference aims to help innovators to share their best practices or products developed to solve specific local problems which in turn may help the other researchers to take inspiration to solve problems in their region. On the other hand, technologies proposed by expert researchers may find applications in different regions. This back and forth process for local-global interaction will help in solving local problems by global approach and help in solving global problems by improving local conditions.
